MAJOR REVENUE SOURCES

GENERAL FUND MAJOR REVENUE SOURCES

The revenue sources described in this section account for \$861,208,378 of the City's total General Fund operating revenues and \$215,596,286 of the Tax Supported Debt Service revenues.

PROPERTY TAXES

Property (ad valorem) taxes attach as an enforceable lien on property as of each January 1st. The City's property tax is levied each September on the assessed value listed as of the prior January 1st for all real property and income-producing personal property located in the City. Assessed values are established by the In the four Counties in which the City of Dallas is located, 100% of the estimated market value and certified by the Appraisal Review Board. The assessed taxable value for the tax roll as of January 1, 2010 (upon which the FY 2010-11 levy is based) is \$83,425,479,138. The 2010 tax roll is 4.4% less than the 2009 tax roll.

valuation for general governmental services including the payment of principal and interest on general obligation long-term debt. The tax rate for the year ending September 30, 2011 is adopted 79.70¢ per \$100 of which 53.24¢ is allocated for general government operations and maintenance and 26.46¢ is allocated for general obligation debt service payments.

Taxes are due January 31st following the September levy and are considered delinquent after January 31st of each year. Based upon historical collection trends, current tax collections for the year ending September 30, 2011 are estimated to be 96.38% of levy and will generate \$428,271,406 in General Fund revenues and \$212,560,244 in Debt Service revenues for a total of \$640,831,650 in revenues. Prior year taxes, penalties, and interest are expected to produce an additional \$10,549,292 in revenues.

MAJOR REVENUE SOURCES

AMBULANCE REVENUES

The Dallas Fire Department provides emergency ambulance services within the boundaries of the City of Dallas and the City of Cockrell Hill to any person requesting aid. The emergency medical staff transports the individual or individuals to a hospital providing emergency aid for a transport charge plus itemized charges. The charge is \$800 for residents and \$900 for non-city residents, and \$125 for treatment/non-transport services.

The billing and collection of ambulance fees is provided by an outside agency through a contract with the City of Dallas. To estimate the FY 2010-11 revenue, historical information is used to project the gross amount billed, and a projected rate is applied to this amount.

SANITATION SERVICES REVENUE

Sanitation Services Revenue is collected to match the cost of providing garbage collection, brush and bulky collection, and recyclables collection services for residential customers and a few small commercial customers. This revenue is based on fees, which are collected through the monthly water bills issued by Dallas Water Utilities. The FY 2010-11 estimated revenue is determined by multiplying the current residential rate (proposed decreased from \$20.34 to \$20.25 per month) by the projected number of residential customers, plus estimates for fees for “pack out” service, commercial customers’ fees, and fees for collection of dead animals from vets and pet rescue shelters. In addition, an allowance of 1.7% is assumed for uncollectible accounts.

PRIVATE DISPOSAL REVENUE

Private Disposal Revenue is collected primarily at the McCommas Bluff Landfill from private (commercial) waste haulers for the privilege of disposing of solid waste at the site. The rate at the McCommas Bluff Landfill increases slightly to \$21.50 per ton in FY 2010-11. The Bachman Transfer Station rate remains unchanged at \$47 per ton. City of Dallas residents hauling their own household and yard wastes are exempt from the fees. Commercial haulers may also elect to enter into a disposal contract with the City, allowing for a discount from the posted rate in exchange for a guaranteed minimum amount of waste disposal over a specific time period. The FY 2010-11 figure is determined by projecting an estimate for commercial waste tons to be delivered to the landfill at the new solid waste disposal fee, with consideration for waste tonnage under disposal contracts continuing into FY 2010-11. In addition, an allowance of 1.7% is assumed for uncollectible accounts.

MAJOR REVENUE SOURCES

FRANCHISE FEE REVENUE

The City of Dallas maintains non-exclusive franchise agreements with utilities and other service providers that use the City's right-of-ways to provide services to the public. These franchise ordinances provide for compensation to the City in the form of franchise fees. These fees are in lieu of all other fees and charges related to the use of the right-of-ways. They are in addition to sales and ad valorem taxes.

Generally, franchise fees are calculated based on a percentage of the companies' gross receipts as a result of doing business in Dallas. Time Warner, pays a fee equal to 5% of gross receipts, paid monthly, 30 days after the end of the period covered. Franchise fees for Atmos Energy are 4% of their gross receipts, paid quarterly, by wire transfer. Projections for FY 2010-11 revenues for cable are based on historical data trended forward using regression analysis. Franchise fees for TXU Electric are based on a fee per kilowatt hour consumed and are projected for FY 2010-11 using historical data, trended forward by statistical analysis techniques and normalized for weather.

Certificated telecommunications providers no longer pay franchise fees to the City. Pursuant to Local Government Code 283 telecommunications providers must compensate the City for use of the right-of-way on a per access line basis. These fees are to be paid to the City 45 days after the end of each calendar quarter. It is anticipated that these municipal fees for all telecommunications providers in the City will total \$29,738,000 for FY 2010-11.

MUNICIPAL COURT REVENUES

Court and Detention Services collects fines and fees on Class C Misdemeanor citations, including moving/non-moving traffic violations and State law/City ordinance violations. Revenues are collected at cashier windows, by mail-in payments and through express mail depositories. Delinquent accounts are forwarded to a collection agency for additional collection efforts. The methodology used to project revenues is a combination of straight lining actuals, historical analysis and multi-year averaging.

MAJOR REVENUE SOURCES

SALES TAX

The sales tax rate in the City of Dallas is 8.25% of taxable goods or services sold within the City limits. The tax is collected by the retriever at the point of sale and forwarded to the State Comptroller's Office on a monthly or quarterly basis. Of the 8.25% collected, the state retains 6.25% and distributes 1% to the City of Dallas and 1% to the Dallas Area Rapid Transit transportation authority.

As illustrated in the accompanying graph, sales tax receipts have decreased from \$216.9 million in FY 2000-01 to a projected \$204,810,104 million in FY 2010-11. Sales tax revenues are historically volatile; therefore, actual collections may differ significantly from the budgeted amount.

SECURITY ALARM PERMIT FEE

The City of Dallas charges an annual permit fee of \$50 for a residence and \$100 for a business permit. A permitted alarm site is allowed three free false burglar alarms in a twelve-month period. The 4th, 5th and 6th false burglar alarms are \$50, 7th and 8th false burglar alarms are \$75 while the 9th+ are \$100 each. All Panic/Hold-up false alarms for a residence are \$100. The 1st Business Panic/Hold-up false alarm is \$100, 2nd is \$200, 3rd is \$300 while 4th+ are \$400 each.

MAJOR REVENUE SOURCES

ENTERPRISE FUND MAJOR REVENUE SOURCES

HOTEL OCCUPANCY TAXES

The Hotel Occupancy Tax rate in the City of Dallas is 15% of the room rate charged within the City limits. The tax is collected by the Hotel at the point of sale and forwarded to the State (6%) and City (9%) on a monthly basis. Two percent of the City's portion supports the Sports Arena Project. 32.6% of the remaining 7% collected by the City is paid to the Dallas Convention and Visitors Bureau (DCVB) to market and promote the City of Dallas as a convention and tourist destination. The remaining revenue (67.4% of the 7%) is used to support Dallas Convention Center (DCC) operations and capital improvements. The distribution of the 15% hotel occupancy tax is illustrated in the accompanying graph.

The Dallas Convention Center's portion of Hotel Occupancy Tax revenues (7%) is projected at \$35,276,860 in FY 2010-11. The Sports Arena's portion of Hotel Occupancy Tax revenues (2%) is projected at \$10,079,103 for FY 2010-11. Hotel occupancy tax revenues are historically volatile; therefore, actual collections may differ significantly from the budgeted amount.

STORM WATER REVENUES

The Storm Drainage Management Utility Revenue is collected to support the cost of compliance with the City's storm drainage discharge permit with the Texas Commission on Environmental Quality (TCEQ), operation, maintenance and enhancement of the levee system, and operating and maintenance of the City's storm natural and improved storm drainage system. Compliance activities include, but are not limited to: water quality sampling and analysis; creek monitoring; public education and outreach; hazardous spill response, cleanup and disposal; construction compliance inspections, industrial facility inspections; and engineering, design and inspection of storm sewer infrastructure. Drainage system operating and maintenance activities include, but are not limited to: natural and improved channel maintenance; creek, river and levee maintenance; cleaning and maintenance of storm sewers and inlets; and monthly sweeping of the City's major thoroughfares. The fee is billed and collected through the monthly water bill.

The FY 2010-11 projected revenue and rates are based on the results of a recent rate and structure study. Proposed fees are based on size (gross parcel size), a calculated drainage area, and general use (raw vacant land, residential, or commercial) of each property within the City. The fees were last adjusted in 2009. FY 2010-11 projected revenue provides for a 30-day fund reserve in accordance with the City's Financial Management Criteria.

MAJOR REVENUE SOURCES

WATER/WASTEWATER REVENUES

The Water Utilities Department is owned and operated by the City of Dallas as a self-supporting enterprise fund. The department receives no tax dollars and obtains its revenues through the sale of water and wastewater services in five customer classes. These classes are Residential, General Service, Municipal, Optional General Service, and Wholesale. The wholesale customer class is comprised of 22 communities outside the City of Dallas which receives water service, and 11 communities, which receive wastewater service. Rates for each class are determined by a cost of service study that assigns costs to each class based on the department's cost to provide them with these services.

The breakdown of the source of revenues from these customer classes is as follows:

- 37.4% of the revenues come from the Residential class,
- 41.0% comes from the General class,
- 0.8% comes from the Municipal class,
- 4.1% comes from the Optional General class
- 16.6% comes from the Wholesale class.

These revenues are used to pay for the following:

- Operating and maintenance costs of providing water and wastewater service to customers,
- Debt service (principal and interest) on outstanding debt used to design and construct the facilities necessary to provide these services,
- Street Rental payment (equivalent to franchise fees assessed to other utilities) to the General Fund for the use of the City's right-of-ways,
- Cash funding for capital improvement facilities not funded through the sale of revenue bonds or other debt.

The Water Utilities Department also receives other miscellaneous revenues such as, but not limited to, interest earnings, connection fees, and system improvement contributions. In FY 2010-11, water and wastewater revenues will total \$531.2M including a 3.1% increase in retail revenues. Water revenues can fluctuate depending on the summer temperatures and the amount of rainfall in the area.

Nonrecurring or one-time revenues should, to the extent possible, only be used for one-time expenditures (expenditures not expected to reoccur and requiring future appropriations) to avoid future shortfalls.

2. The year-to-year increase of actual revenue from the levy of the ad valorem tax will generally not to exceed 8%:
 - Excluding taxable value gained by through annexation or consolidation;
 - Excluding the value gained through new construction;
 - Excluding expenditure increases mandated by the voters or another governmental entity; and
 - Not excluding the valuation gained through revaluation or equalization programs.

3. Debt will not be used to fund current operating expenditures.

7. The Emergency Reserve shall be used to provide for temporary financing of unanticipated or unforeseen extraordinary needs of an emergency nature; for example, costs related to a natural disaster or calamity, a 5% decline in property values, or an unexpected liability created by Federal or State legislative action. Funds shall be allocated from the Emergency Reserve only after an analysis has been prepared by the City Manager and presented to City Council. The analysis shall provide sufficient evidence to establish that the remaining balance is adequate to offset potential downturns in revenue sources. The analysis shall address the nature of the adopted expenditure and the revenue requirement in subsequent budget years. Prior to allocating funds from the Emergency Reserve, the City Council shall find that an emergency or extraordinary need exists to justify the use of these funds. Funds shall be allocated each year in the budget process to replace any use of the Emergency Reserve funds during the preceding fiscal year to maintain the balance of the Emergency Reserve levels.

Funds shall be allocated from the Contingency Reserve only after an analysis has been prepared by the City Manager and presented to the City Council outlining the initial and recurring costs associated with the adopted expenditure. Additionally, these funds would be used prior to use of the Emergency Reserve funds. In Compliance

The basis of budgeting for all funds essentially follows the basis of accounting (modified accrual). The major differences between the budgeting and accounting basis are: 1) encumbrances are recorded as expenditures (budget basis) rather than as a reservation of fund balance (accounting basis); 2) compensated absences (accrued but unused leave) are not reflected in the budget; 3) depreciation expense is not included in the budget basis; 4) change in fair value of investments is not recognized as income (expenditure) in the budget basis.

42. An annual audit will be performed by an independent public accounting firm, with the subsequent issue of an official Comprehensive Annual Financial Report (CAFR) within 120 days of the City's fiscal year end.

FY 2008-09 CAFR was issued June 28, 2010.
