There are many individuals, from various levels throughout the organization, whose time, energy and commitment contributed to the production of the FY 2012-13 budget. This assignment is more than just budgeting. This process is an essential part of strategic planning for this organization and the leadership demonstrated is an important factor in the continued success of our *Budgeting for Outcomes* process. With that in mind, I would like to recognize the following individuals whose unwavering dedication during the budget process inspires and motivates me.

GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished
Budget Presentation
Award*

PRESENTED TO

**City of Dallas
Texas**

For the Fiscal Year Beginning

October 1, 2011

Linda C. Davison Jeffrey R. Egan

President

Executive Director

The Government Finance Officers Association (GFOA) of the United States and Canada presented an award of Distinguished Presentation to the City of Dallas for its annual budget for the fiscal year beginning October 1, 2011.

In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan and as a communication device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and are submitting it to GFOA to determine its eligibility for another award.

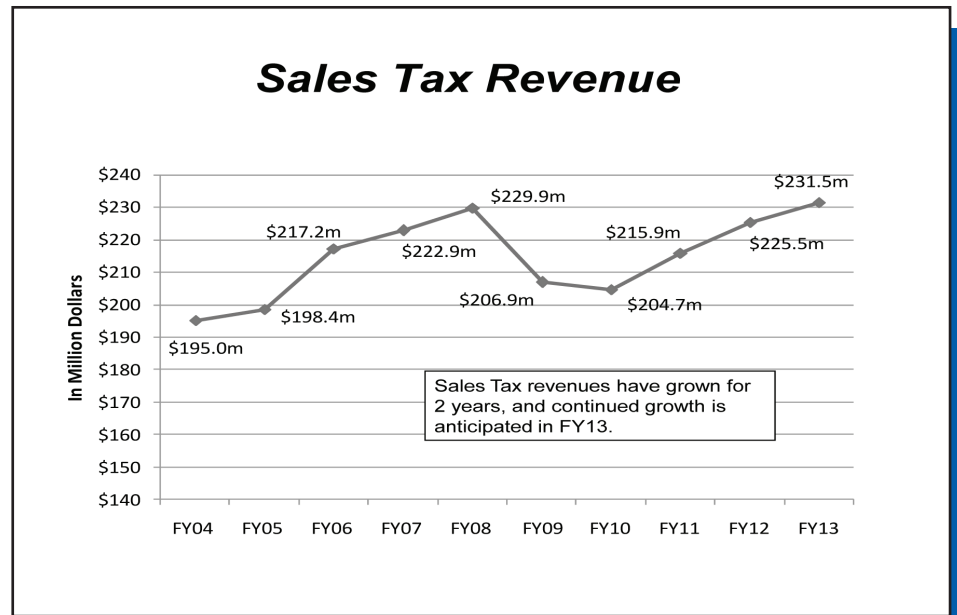

City of Dallas

To: The Honorable Mayor and Members of the Dallas City Council

Executive Summary

As the United States economy gradually regains health, Dallas remains a bright spot in Texas with its diverse economic base. The fiscal outlook in Dallas continues to improve with key revenues growing steadily. **Sales tax revenues continue to inch up** with a projected 2.6% increase over early FY 2011-12 estimates and with FY 2012-13 projected to exceed 2008's peak of \$229.9M

After three years of declining values, the **property tax base growth rate has turned upward again (2.06%)** from FY 2011-12 to FY 2012-13 certified tax roll, but remains about 8% below its 2009 peak of \$90.5B.

While an improving economic situation is expected to continue over the next 12 months, the post recession approach to managing City government remains watchful and measured. There is still cause for some caution with the uncertainty as to the depth and duration of the economic situation in Europe. A financial crisis overseas could lead to shifts in the domestic economy due to the integrated relationship between the European Union (EU) and the U.S. In addition, there is potential uncertainty in the federal budget as several large tax cuts are set to expire at the end of the year and big spending cuts are scheduled to kick in. According to economic analysts, without a balanced Congressional response, the U.S. could suffer another recession and the global economy could slow sharply. Continuing a conservative financial approach is wise.

The **tax rate is proposed to remain at the same level and most fees will remain unchanged.** Therefore, guiding principles and development goals of the FY 2012-13 City of Dallas proposed budget is as follows:

Guiding principles:

- Maintaining the City’s **commitment to public safety** while living within its financial means
- Focusing municipal management on core services, **finding additional efficiencies** and seizing recovery opportunities
- **Investing in the City’s infrastructure** and economic development projects to grow the tax base

Development goals:

- Where fiscally feasible, **restore or maintain service levels**
- **Restore critical initiatives** such as pavement markings/stripping of streets and streets maintenance
- **Restore positions in Building Inspection** to respond to increases in construction/permit activity
- Restore pay cuts and **strengthen the compensation package** to recruit and retain an experienced workforce (civilian workforce reduced substantially since 2009)
- Continue to implement ways to **reduce the costs of government**, maintain adequate financial reserves and **make needed capital improvements**

In recent years, the City examined the basic structure and functions of government to improve the organization for the greatest responsiveness to taxpayers. Citizen opinion surveys, administrative streamlining, privatization and implementing efficiencies are elements of the ongoing effort that has produced quality services at competitive costs. The basic challenge that faces any city government is to serve its citizens well and meet expectations. For Dallas, our challenge is to serve with excellence. **The FY 2012-13 City of Dallas proposed budget allows the City to continue to operate within its resources; reflects the City's established priorities; and continues to position the organization to seize additional recovery opportunities.**

Service Priorities/Deliveries and Efficiencies:

Dallas Police:

- Hire 200 police recruits to cover projected FY 2012-13 attrition
 - Maintain 2.94 officers per 1,000 population ratio
- Funding to expand 'hot spot' technology program to nine Target Area Action Grid (TAAG) areas

Dallas Fire-Rescue:

- Hire 90 fire recruits to cover projected FY 2012-13 attrition
- Send 66 firefighters to paramedic training
- Add 10,000 hours of EMS coverage through increased efficiencies

Court & Detention Services:

- Complete Municipal Court building renovation at 2014 Main Street
- Complete ECitation implementation throughout the police traffic division
- Reduce trial dismissals by integrating DPD schedules with the court docketing system
- Purchase and initiate implementation of new Court Case Management System

Library:

- Maintain current hours (40 hours per week) at Central Downtown Library and neighborhood branches
- Maintain current hours (56.25 hours per week) at two City / DISD co-locations
- Increase materials budget 47% (\$3.1M total)

Sustainable Development and Construction:

- Add 57 new positions in Building Inspection in response to increased permit/construction activity
- Fund \$0.55M to implement technology improvements for faster plan review, enhanced customer service, replacement of outdated equipment and replacement of a document management system
- Fund \$0.2M of Historic Preservation activity in General Fund (second year of a three year shift)
- Expand capacity for City Council initiated zoning hearings
- Improve field inspection capabilities by utilizing iPad devices
- Improve customer service by developing Smart Phone Apps for permit status and inspection

Cultural Affairs:

- Cultural Centers/Facilities
 - Maintain City Cultural Center hours; no reduction in staff or programming
 - Support full obligation of public/private partnership for AT&T Performing Arts Center (\$2.5M)
 - Provide full year funding for City Performance Hall staffing and operating support (\$0.9M)
- Cultural Service Contracts
 - Fund Cultural Organizations Program (COP) at FY 2011-12 level
 - Fund Thriving Minds at FY 2011-12 level (\$0.7M)
 - Maintain Cultural Projects Program (CPP)

Park and Recreation:

- Recreation centers
 - 40 in operation including two centers operated in partnership with Baylor Healthcare and Boys & Girls Club
 - One center, Anita Martinez, will be closed due to construction
- Park land and facilities maintenance funding increased by \$1.6M for new capital projects now in service
- Aquatic Services
 - 16 community pools open
 - Bachman Indoor Pool and Bahama Beach both open

Streets and Transportation:

- Maintain current funding level for street maintenance programs
- Increase funding for pavement markings so that all streets will be restriped at least once every three years
- Provide funding for the installation of reflective pavement marking buttons to improve visibility of medians and left turn lanes at night
- Provide funding for the proactive replacement of signs at signalized intersections
- Invest \$84.4M in capital improvements for streets and thoroughfares
- Add \$0.5M for bike lane markings

Code Compliance Services:

- \$0.6M increased funding for court-ordered demolition of blighted structures to \$1.7M
- \$0.6M for enforcement of new Boarding House Ordinance
- \$0.5M increase for additional food safety inspectors and contract inspections
- \$0.2M two additional animal control officers and enhanced maintenance program for the Animal Shelter HVAC system

Sanitation Services:

- No residential sanitation fee increase
- Continuation of One Day Dallas weekly garbage and recycling pickup
 - More residents recycling more materials in FY 2012-13: anticipating a 10% increase in volume of recyclables collected
 - Sanitation's CNG-powered fleet growing by another 5%, via replacement of eight diesel-powered garbage and recycling trucks with low-emission CNG counterparts (brings Sanitation's CNG fleet up to 20% converted)

Strategic Customer Services:

- Upgrade the Service Request system (311 / CRMS) in FY 2012-13 to streamline the service request process, allow residents to track their service requests on a map, and allow creation of service requests via smart phones
- Conduct the Community Survey to gauge residents' perceptions about the City and its services

Equipment and Building Services:

- Add positions and materials to enhance preventive and routine building maintenance and repairs for city buildings
- Fund major maintenance projects to include Americans with Disabilities Act compliance upgrades and installation of water efficient fixtures in City Hall restrooms
- Fund general purpose fleet replacement (\$5.9M)
- Add positions to the Security Division to increase security coverage and add funding for security equipment

Human Resources:

- Build a healthy workforce by providing additional wellness initiatives to reduce health care costs over time

Workforce Impacts

FY 2011-12 budget included a total compensation study to review employee (civilian and uniformed) pay and benefits to determine how the organization compared with 27 peer cities and the private sector. Implementing the various recommendations of the studies is important to attract and retain qualified employees. The last study was conducted in 2006. The current periodic review revealed deficiencies in pay grades of some work groups, such as trades (mechanics, plumbers, welders, HVAC mechanics, electricians, equipment operators) and some information technology positions. If the City cannot compete in the labor market, hiring and the City's operations are negatively impacted. That is the case with mechanics hired below the market and trained by the City, who then leave for higher paying jobs in the private sector. That turnover creates a backlog in repairing garbage trucks, squad cars and other equipment in a timely manner – affecting the service level to our customers.

The workforce, substantially reduced over past years, has also experienced pay cuts in the form of salary reductions and mandatory city leave days over the past four years. Not restoring those cuts in this fiscal year could result in the loss of experienced employees with institutional knowledge that helps the organization operate on a competitive level, providing the superior service customers expect from municipal government.

Civilian Employees:

- Eliminate all remaining Mandatory City Leave days
 - Result: 1.59% pay increase effective October 1, 2012
- Re-establish average 1.5% pay for performance increases effective December 1, 2012
- No increase in employee health premiums for employees

Uniformed/Sworn employees:

- In the final year of Meet and Confer Agreement:
 - Eliminate all remaining Mandatory City Leave days
 - Sworn Officers/firefighters receive 3% base pay increase across the board
 - Payment for overtime worked instead of compensatory time
 - Increase in education pay
 - Two additional holidays (Cesar Chavez Day; Patriot Day)

Water Rate:

With water challenges across Texas, it is important that the City continue to focus on maintaining infrastructure, conserving resources and providing for future needs through: rehabilitation and/or replacement of 9,000 miles of aged water and wastewater mains; improvements at water treatment plants to enhance reliability and water quality as well as increase capacity; and continued water conservation efforts. In order to achieve these goals, it is necessary to implement **an overall 5.1% retail revenue increase (residential 3.9%)**.

Looking Forward

Dallas is recovering from the downturn in the economy and is a city determined to be part of the future on a global scale. To do this, it must remain a city of foresight. In the coming year we will continue to place emphasis on programs, issues and projects that improve the quality of life and prosperity for our citizens. We will work to encourage businesses to relocate to Dallas and encourage development in southern Dallas with direct assistance and investment.

The proposed 2012 Capital Bond Program, on the ballot in November, **will focus on flood control, streets and economic development**. Based on current assumptions, financial capacity exists for a **\$642 million bond program** to be implemented over five years. The proposed program improves mobility by creating safer roads; saves lives and protects critical facilities; and promotes private investment to grow the tax base and create jobs. The proposition devoted to streets includes funding to create over 55 miles of on street bike lanes and trails to create connections like the current project connecting the Katy and Santa Fe trails through downtown and the Trinity floodway.

Strategic decisions have been made over the years to stay on course and continue to plan and invest in the future, with the long-term goal of expanding the tax base. To help stimulate economic growth, several projects are underway and others will come online during the next fiscal year. The Love Field Modernization Project is on schedule to debut in the fall of 2014. The renovation of 2014 Main Street is underway and will significantly upgrade judicial operations and welcome the eventual addition of the UNT Dallas College of Law. Downtown continues to draw urban residents with an estimated 7,500 living in the downtown core (in the mid 1990's, 200 people lived downtown). Retailers and restaurants continue to open storefronts while developers bank on downtown's future with key projects such as the expansion of the Joule Hotel and redevelopment plans for the Tower Petroleum (1907 Elm St.) and Corrigan Tower (1900 Pacific Ave.) into one large residential complex.

Over the next two months, Klyde Warren Park over Woodall Rodgers Freeway and City Performance Hall will open. The new Pavaho Pump Station in West Dallas will be completed in the fall of this year and provide four times more pumping capacity, adding the latest technology to the City's flood control management system. The Perot Museum of Nature and Science will open its doors to the public in January 2013. The renovation of the Polk Wisdom Branch Library will be completed in Spring 2013.

Over the past fiscal year, the city celebrated the opening of the Margaret Hunt Hill Bridge, the Omni Dallas Convention Center Hotel, White Rock Hills Branch Library and Belo Garden. **Whether these projects add to the tax base or quality of life, they are evidence that the city is maturing and becoming more vibrant.**

Dallas remains **a city of purpose and promise.** The steps we are taking now to answer the challenges we face will keep our city on course to international prominence.

HOW TO USE THIS DOCUMENT

This page is included to provide an overview on how this document is organized.

The hierarchy of organization is **Key Focus Areas** supported by individual **Services**:

Key Focus Areas

The FY 2012-13 Budget is presented by six (6) City Council established Key Focus Areas as the City's top priorities. The six Key Focus Areas are:

1. Public Safety Improvements and Crime Reduction
2. Economic Vibrancy
3. A Cleaner, Healthier City Environment
4. Better Cultural, Arts and Recreational Amenities
5. Educational Enhancements
6. Make Government Services More Efficient, Effective and Economical

Services are functional activities that are not dependent on other Services and were identified by City Departments.

Summary of Services (See Tab)

- This section includes a summary of all Services by Key Focus Area.
- A numbering system (1.1, 1.2, 1.3, etc.) is used to identify the Service. The first digit represents the Key Focus Area number (See above). The second digit represents the Service.
- The summary includes the responsible Department, Total Proposed Dollars (all funding sources), General Fund Proposed Dollars and General Fund FTEs.

Service Detail Pages by Key Focus Area (See Tabs listed by Key Focus Name)

- Each Service is organized by Key Focus Area. Use the 2 digit identifying number to find a specific Service from the Summary page.
- The Services include both General Fund and Enterprise Fund Services and are sorted alphabetically by Service name.
- Each detail page includes a Description, Funding Chart, Efficiency Measure, and Service Target FY 2012-13
 - Funding Chart includes operating budgets (shown as either General Fund or Enterprise Funds). Additional Resources reflect, for example, reimbursement from the Capital Budget, Storm Water or Other funds as well as Grants and Donations.
 - Measures provide additional information and are tied to the Performance Management system.

EXPENDITURE AND PROPERTY TAX OVERVIEW

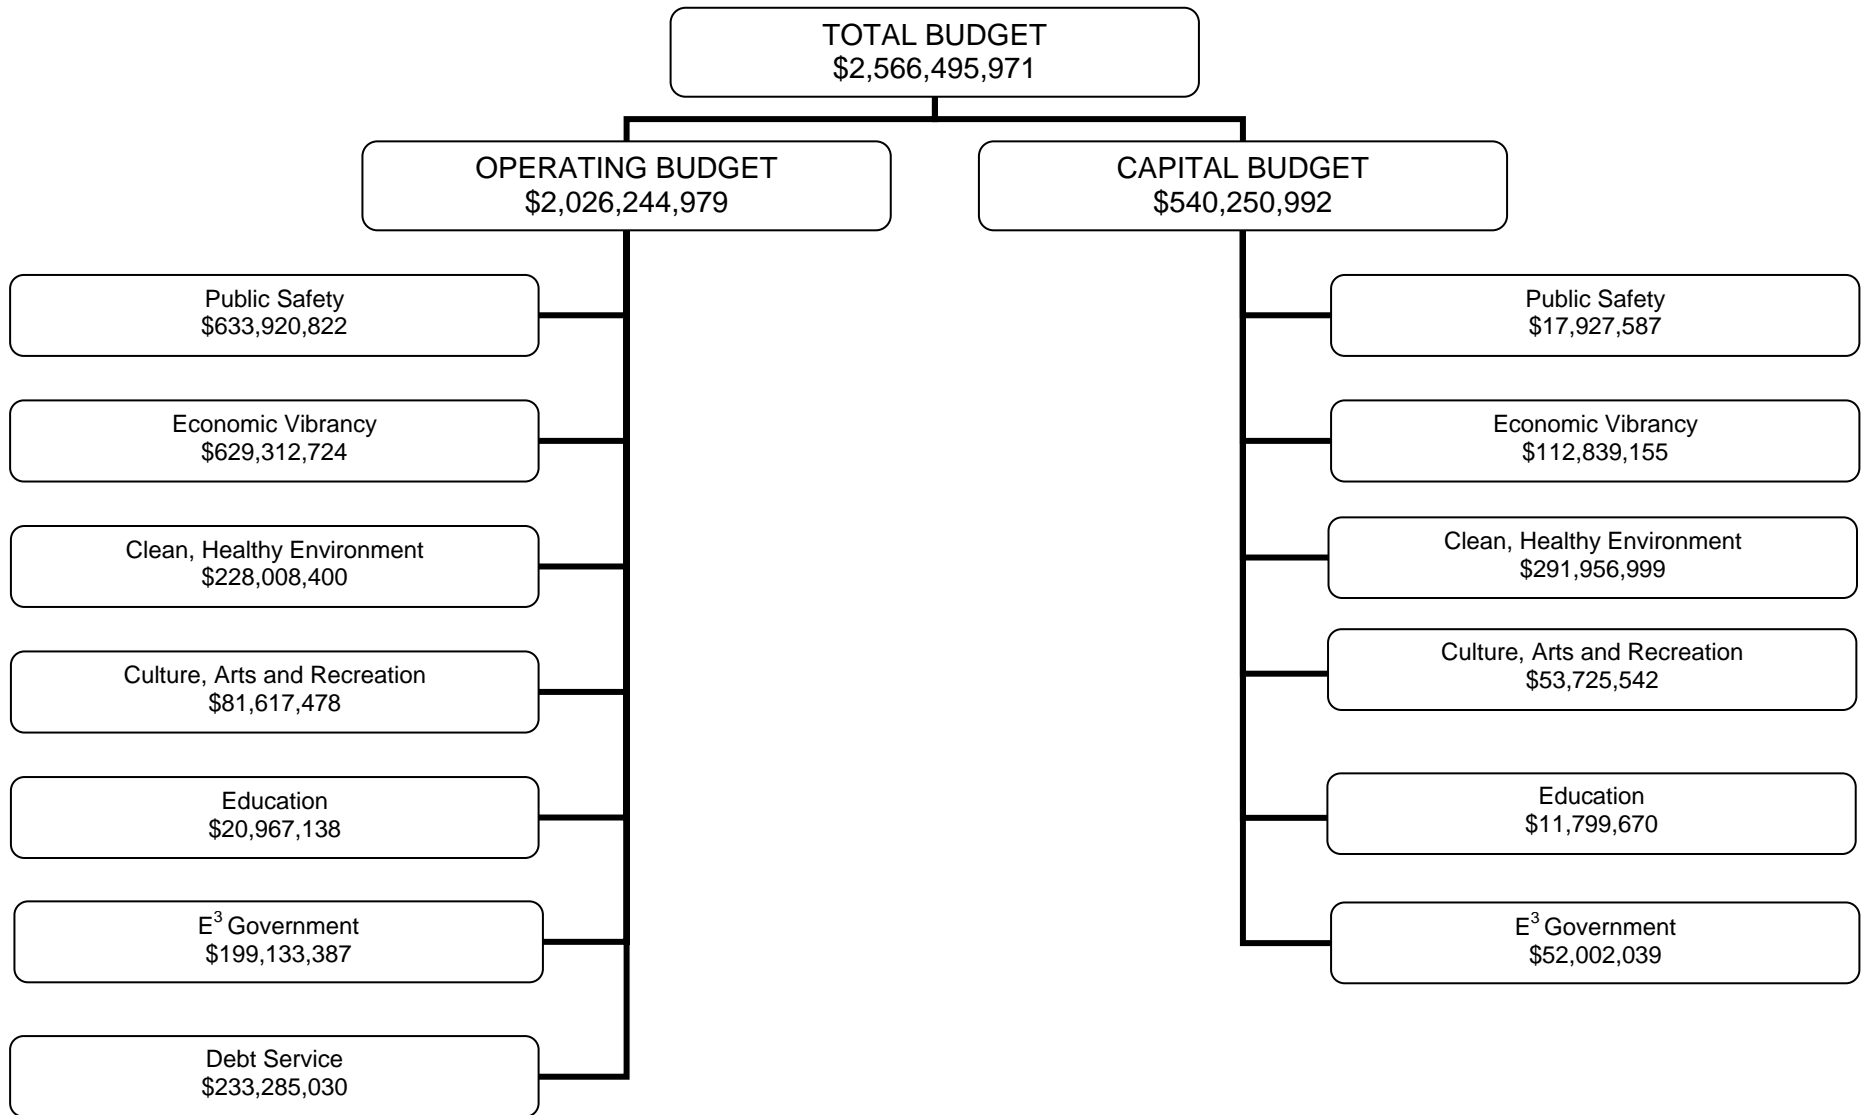

The City of Dallas has been consistently recognized for its judicious management of financial resources. An excellent bond rating, steady tax rate, and fair fee structures ensure the availability of necessary funds to support City services.

Property values increased 2.06% from \$81.99 billion in 2012 to \$83.68 billion in 2013. The proposed tax rate of 79.70¢ per \$100 valuation remains the same as the FY 2011-12 adopted tax rate. The City’s property tax, sales tax receipts and other revenues support this budget.

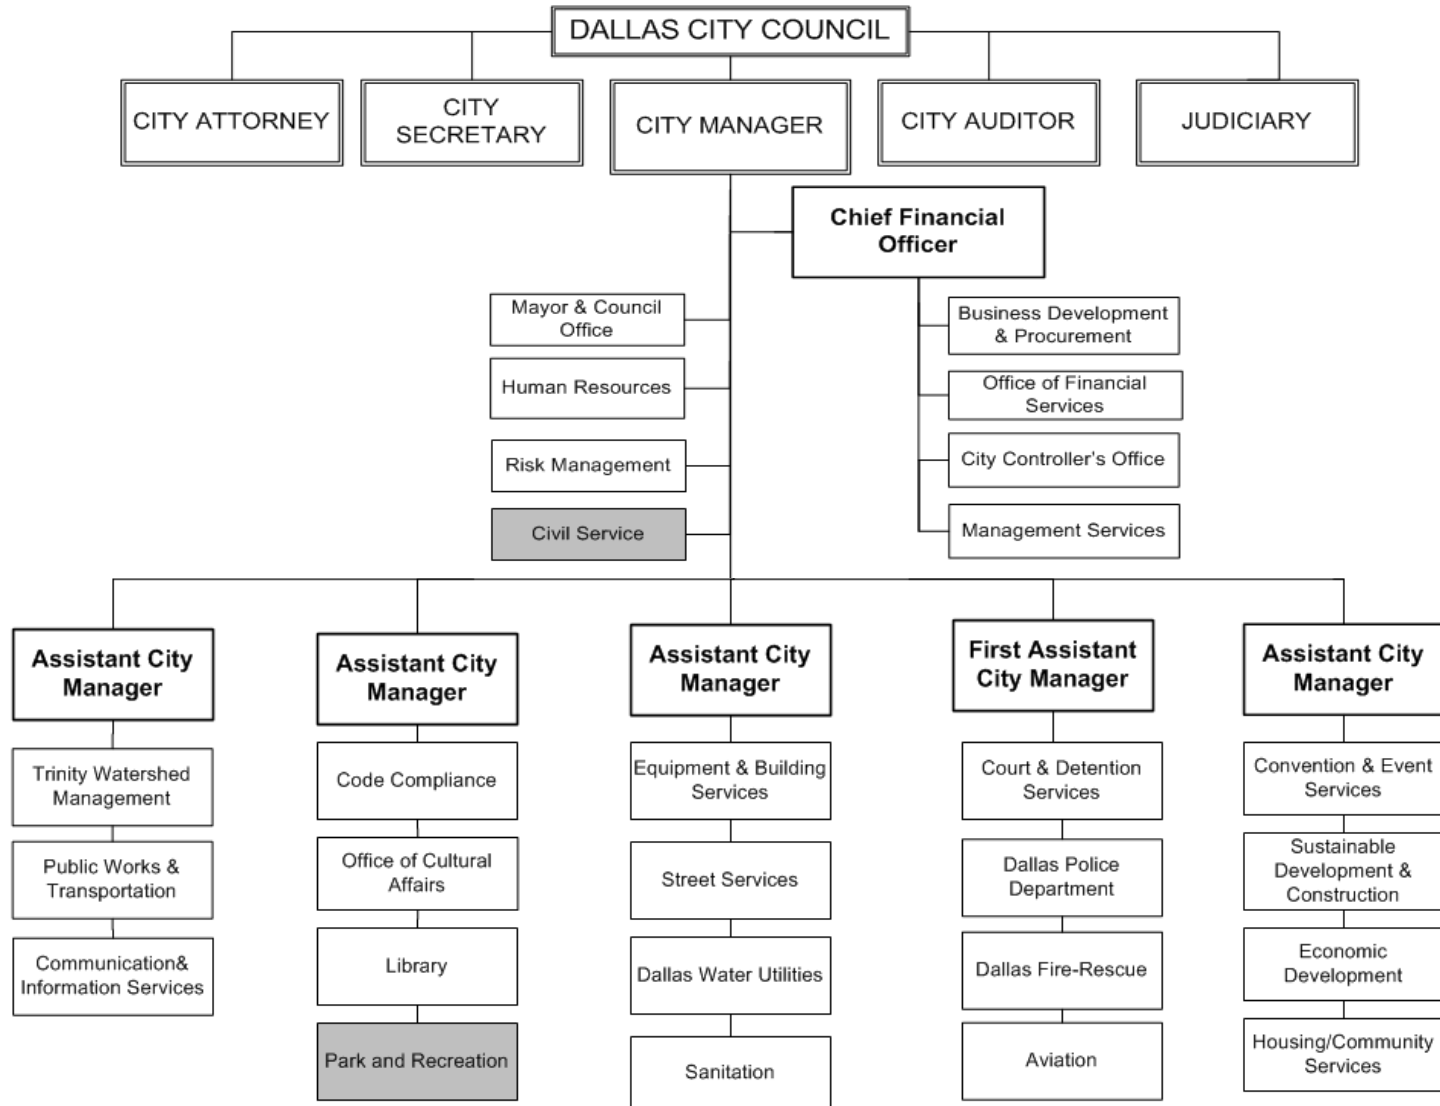

Expenditures	FY 2011-12 AMENDED BUDGET*	FY 2012-13 PROPOSED BUDGET	% CHANGE
General Fund	\$1,012,785,760	\$1,040,973,727	2.78%

BUDGET PROCESS

Preparing the Budget

- Starting in October, the City Council holds planning meetings to set goals that they would like to accomplish in the upcoming budget year. Goals are separated into service categories called Key Focus Areas or KFAs for short.
- In January, preliminary revenue projections are used to create a starting point for the upcoming budget. Money is subdivided by KFA and departments begin to submit service bids to address the City Council's Key Focus Area goals.
- February-May, six city staffed budget teams (known as KFA Teams) rank service bids according to their ability to meet the Council's Key Focus Area goals. Rankings are given within each Key Focus Area category. The ranking of bids in each category continues until the KFA's budget allocation (derived from of the preliminary revenue projections mentioned earlier) is depleted. City Management and the Central Budget Office oversee this initial process.

Reviewing the Budget

- In May, the KFA Teams present their bid rankings to Council. This is the first draft version of the budget seen by Council or the public. A citywide citizen public hearing is held later in the month to receive citizen input. The City Management and Central Budget Office take the input given to them from citizens and Council and make adjustments where feasible.
- By late June, a briefing is provided to Council on the preliminary budget outlook. This briefing highlights progress made on the budget since May and gives a recap as to what services are "funded", "not funded", or "should be funded". The "should be funded" category is a list of services that are not funded at this point due to insufficient revenue estimates, but based on citizen and Council input "should be funded" if additional revenues or savings become available.
- In August, the City Manager Proposed Budget is presented to Council. From August-September Council Members hold Budget Town Hall Meetings with citizens in their district to receive opinions about the City Manager's Proposed Budget.
- In late August a budget workshop and a public hearing allow Council and citizens an opportunity to collectively share opinions on the proposed operating, capital, and grants & trust budgets.

Amending the Budget

- In September, City Council holds a Budget Amendment Workshop where Council Members submit proposed amendments to the City Managers Proposed Budget. Proposed amendments should be balanced with revenue and/or expenditure changes. A majority straw vote decides if the amendment is included in the final proposed budget.
- A second mid-September, Budget Amendment Workshop is held if needed.

Adopting the Budget

- Early September, City Council adopts the budget on its first reading.
- Late September, City Council adopts the upcoming year operating, capital and grants & trusts budget on the second reading. Any approved amendments are included in this adoption.

BUDGET PROCESS CALENDAR

The City of Dallas' budget process consists of a twelve-month schedule of presentations, hearings, and deliberations. The FY 2012-13 budget process dates are as follows:

<u>October 20-21, 2011</u>	City Council Planning Session – Review of key focus area objectives and strategies for FY 2012-13 budget
<u>January 2012</u>	Various Consolidated Plan Public Hearings

DEBT SERVICE

GENERAL OBLIGATION DEBT

Introduction

The General Obligation Debt Service Fund provides for the payment of principal and interest on the City's outstanding general obligation bonds, certificates of obligation and equipment acquisition notes. Debt financing is used to pay for large capital projects. By using debt, the project costs are allocated over the life of the asset. Capital projects may include improvements to and/or construction of the City's street system; parks and recreational facilities; libraries; police and fire protection facilities; flood protection and storm drainage system. The Financial Management Performance Criteria (FMPC) addresses debt management and other requirements adopted by the City Council. The FMPC necessitates voter approval prior to the issuance of general obligation bonds, restricts the length of maturities, and outlines the amount and purpose for which bonded debt may be issued.

The primary source of revenue for the debt service fund is the ad valorem property tax. The proposed ad valorem tax rate of 79.70¢ per \$100 assessed value is split into two rates. Approximately one-third (25.31¢) of the tax revenue is used to pay principal and interest on the City's outstanding general obligation debt. The remaining two-thirds (54.39¢) of the revenue generated by the tax rate is used to pay for operating and maintenance costs incurred in the General Fund.

Due to the level principal structure of most bond sales, the principal and interest payments of the existing general obligation debt decline annually. This repayment schedule creates more growth in the capacity to issue new debt within the existing debt service tax rate than a level repayment schedule.

Credit Rating

The City of Dallas' general obligation debt currently holds AA+/Aa1 ratings from Standard & Poor's and Moody's Investors Service, respectively. These exceptionally high ratings reflect the sound management of the City of Dallas' financial resources and allow the City of Dallas to issue relatively low cost debt.

Legal Debt Margin

The City of Dallas Charter (Chapter XXI, Section 3) limits the maximum bonded indebtedness, payable from taxation, to 10% of assessed property value. However, the City's Financial Management Performance Criteria (FMPC) limits the net general obligation debt to 4% of the true market valuation of the taxable property of Dallas. Existing debt plus new debt to be issued (refunding of commercial paper) will constitute 2.2% of the assessed value of \$83.68 billion and 1.9% of the market value of taxable property of \$96.99 billion. Thus, the City will continue to comply with both requirements as of 9/30/2013.

Assessed Value	\$83,681,721,883
10% Legal Debt Margin	\$8,368,172,188
Projected GO Debt 9/30/13	\$1,848,724,733
GO Debt as a percent of Assessed Property Value	2.2%
Market Value of Taxable Property	\$96,993,189,656
4% FMPC Limit	\$3,818,328,965
Projected GO Debt 9/30/13	\$1,848,724,733
GO Debt as a percent of Market Value	1.9%

FY2012-13 Debt Service Budget

The FY2012-13 budget includes principal and interest payments on \$1.66 billion of existing general obligation debt. Principal and interest expense for existing debt are \$142.28 million and \$84.62 million, respectively, and are summarized in the table below. In FY2010-11, a commercial paper program was implemented to interim finance voter-approved capital improvement projects. The costs associated with the commercial paper program are included in the General Fund budget. A \$325.00 million general obligation bond issuance is planned for the 4th quarter of FY2012-13 to refinance and retire outstanding commercial paper. This issuance will not have a debt service cost impact in FY2012-13.

	Principal	Interest	Total
Total Existing Debt Service	\$142,282,602	\$84,623,918	\$226,906,520

CONVENTION CENTER

Introduction

The Convention Center Debt Service Fund provides for the payment of principal and interest on the Convention Center's outstanding revenue bonded indebtedness. In February 2009, the Convention Center Complex issued \$324.94 million in revenue bonds. This issue included the refunding of all of the Convention Center's \$261.36 million outstanding debt and \$63.58 million of new money. Of the new money issuance, \$60.80 million is being used for planned improvements to the Dallas Convention Center.

7% Hotel Occupancy Tax, non-operating revenue of the Convention Center Complex, and interest earned on cash balances in the bond reserve fund transferred to debt service funds are pledged for repayment of the debt. Operating revenues from the Convention Center Complex are transferred to the debt service fund to meet annual principal and interest payments. Additionally, the City has covenanted to provide for the payment of operating and maintenance expenses of the Convention Center Complex, should a shortfall in Convention Center revenues occur.

Credit Rating

The Convention Center Complex currently holds A/A1 underlying ratings from Standard & Poor's and Moody's Investors Service, respectively. The bonds are rated AA+/Aa3 based on the bond insurance policy that Assured Guaranty Insurance Corporation is providing.

FY2012-13 Debt Service Budget

The FY2012-13 budget includes payments on existing debt of \$2.78 million in principal payments and \$16.42 million in interest payments.

DEBT SERVICE

WATER UTILITIES

Introduction

The debt service component of the Operating Budget for Dallas Water Utilities (DWU) provides for payment of principal and interest on DWU's indebtedness. The budget for these payments is prescribed by the following standards:

- ◆ The Dallas City Charter provides in Chapter XI, Section 14 that all water and wastewater costs (including debt requirements) shall be paid for from customer service revenues.
- ◆ Revenue bond ordinances provide that customer service revenues solely secure water and wastewater bonds.
- ◆ Financial criteria for DWU provide for financing of capital improvements (effectively defined as capital projects with useful lives of 20 years or longer) either from debt or directly from revenues, to maintain system equity levels.

In addition to revenue bonds, debt sources include tax-exempt commercial paper notes (CP), which are utilized for interim financing of capital construction projects. On at least a bi-annual basis, commercial paper is refinanced and retired with revenue bonds. This process lowers overall interest costs and provides greater financing flexibility. Debt sources also include certain contractual obligations whereby DWU reimburses other agencies for debt incurred to construct joint-use facilities. Under these contractual agreements DWU makes payments in proportion to its allocated share of the joint use facilities.

Credit Ratings

The City of Dallas Waterworks and Sewer System Revenue Bonds are judged to be of high quality by all standards. These credit ratings reflect the sound management of DWU financial resources and allow issuance of bonds with relatively low interest costs. The City of Dallas Waterworks and Sewer System Commercial Paper Notes hold similarly high credit ratings. Current ratings of the City's debt instruments are shown in the table below.

Revenue Bond and Commercial Paper Note Coverage

The following are established standards for DWU net revenue in relation to future debt service payments.

- ◆ Revenue bond ordinances require net revenues equal to at least 1.25 times bond principal and interest requirements of the future year when those requirements are highest.
- ◆ DWU financial criteria state that net revenues should be 1.5 times maximum annual bond requirements at the end of each fiscal year.
- ◆ Commercial Paper coverage requirements state that net revenues should be 1.10 times the maximum annual principal and interest payments required on all debt outstanding in the future year when those requirements are highest.

For fiscal year 2011, coverage at September 30, 2011 is summarized in the table below.

Debt Service Coverage Requirements FY 2010-11 (000 omitted)

Coverage Net Revenue (CNR) = \$279,196

<u>Authority</u>	<u>Ratio</u>	<u>Requirement</u>	<u>Denominator \$</u>	<u>Actual</u>
Bond Ordinance	CNR/Max YR	1.25	176,559	1.58
DWU Criteria	CNR/Max YR	1.50	176,559	1.58
DWU Criteria	CNR/Max CP	1.10	178,933	1.56
Rating Agencies	CNR/AVG	N/A	97,453	2.87

Max Yr = Maximum amount of debt service required in a single fiscal year for Principal and Interest payments on Outstanding Revenue Bond indebtedness.

Max CP = Maximum amount of debt service required in a single fiscal year for Principal and Interest payments on all Outstanding Debt.

FY 2012-13 Debt Service Budget

The FY 2012-13 budget provides principal and interest on existing debt of \$96.12 million and \$82.43 million, respectively. Commercial paper issues in FY 2012-13 are forecast at \$179.30 million with an estimated interest cost and fees of \$5.00 million, which is paid from the Water Utilities Operating Fund.

Water Utilities Financial Criteria for Debt Management

Financial criteria have been established to ensure sound management of DWU's financial resources. Financial criteria that apply to DWU indebtedness are listed below. Compliance with each of the criteria is projected for FY 2011-12 unless otherwise noted (in italics).

- (1) Current revenues will be sufficient to support current expenditures including debt service and other obligations of the system.
- (2) Long-term debt will be used only for capital expansion, replacement and improvement of plant, not for current expenses.
- (3) Short-term debt, including tax-exempt commercial paper, will be used as authorized for interim financing of projects that will result in capital improvements.
- (4) Capital projects financed through the issuance of debt will be financed for a period not to exceed the expected useful lives of the projects.
- (5) An equity target will be maintained for each fiscal year-end of at least 20% of the total capital structure, excluding current liabilities. *Proposed budget maintains a 20% equity for fiscal year-end.*
- (6) Net revenues available for debt service should be at least 1.5 times the maximum annual principal and interest requirements of relevant outstanding revenue bonds at the end of the same fiscal year, and at least 1.3 times maximum-year requirements at all times, measured during a fiscal year using the previous year net revenues available for debt service.
- (7) Capital financing will be provided through revenue bonds, current revenues, contributed capital, and short-term debt.
- (8) Revenue bonds will be issued with serial maturities not to exceed thirty (30) years.
- (9) Debt refinancing will only be considered when the overall net present value savings is at least 3% of the principal amount to be refunded.
- (10) Fully funded debt service reserves shall be maintained. A surety bond (or other type of credit facility such as a letter of credit) may be used in lieu of funding the reserve if the former is economically advantageous.

FY 2012-13 PROPOSED CAPITAL IMPROVEMENT BUDGET

The Proposed FY 2012-13 Capital Improvement Program budget is \$540.25 million consisting of \$256.83 million for General Purpose Capital Improvements and \$283.42 million for Enterprise Fund Capital Improvements. This compares to the amended FY 2011-12 budget of \$446.42 million that consisted of \$160.39 million for General Purpose projects and \$286.03 million for Enterprise Fund projects.

General Purpose Capital Improvement Program

The General Purpose Capital Improvement Program provides for improvements to and/or construction of the City's street system; parks and recreational facilities; libraries; police and fire protection facilities; cultural art facilities; the flood protection and storm drainage system; other City-owned facilities, and economic initiatives. General obligation bonds are the primary financing mechanism for these capital improvements. On November 7, 2006 the citizens of Dallas overwhelmingly approved a \$1.35 billion Capital Bond program. The bonds are issued incrementally over several years that began in June 2007. Beginning in FY 2010-11, commercial paper is utilized to interim finance capital improvement projects. The commercial paper will be refinanced and retired with general obligation bonds previously approved by voters in 2006.

Enterprise Fund Capital Improvement Program

The Capital Improvement Program for the enterprise departments consists of improvements to and/or construction of water and wastewater systems, venues for convention activities, and air transportation facilities. These projects are funded primarily by the transfer of enterprise revenues and the issuance of debt such as commercial paper and/or revenue bonds.

Capital Budget Process

The FY 2012-13 Capital Improvement Program budget was developed according to the same schedule as the City's operating funds. The foundation of the annual General Purpose Capital Improvement Program budget is the 2006 General Obligation Bond Program. The development of this program began in 2005 and included the update of a Citywide needs inventory; citizen input meetings; analysis of financial and implementation capacity; City Council workshops and amendments; and, public hearings. All seventeen propositions received voter approval in November 2006.

How to Read the Capital Budget

The Capital Improvement Budget portion of this document is comprised of the following sections:

Summaries – Includes tables and charts highlighting the City's priorities for project funding in the upcoming fiscal year. Projects are identified by the City Council's Key Focus Area, funding source, and capital improvement program.

Bond Issue Schedules – Provides annual issuance amounts, by proposition, for the 1998, 2003 and 2006 Bond Programs.

Capital Program Sections – Provides information by capital program, service and project. Capital program information includes narrative for program mission, current year major accomplishments, and upcoming budget year objectives. Expenditures by funding source and service are summarized by capital program.

A detailed project listing, in alphabetical order, follows the program summaries. Active projects budgeted in prior fiscal years are also included. Projects funded in prior years that were finalized as of May 31, 2012, have been excluded. Included in the project detail for each project is the service category, corresponding Council priority Key Focus Area, council district, funding source, the total project budget over the life of the project, remaining appropriations, and new appropriations for the upcoming budget year. Estimated costs for future phases of current projects beyond FY 2012-13 have been indicated when known. Identification of future cost is not a commitment of future funding.

The project costs used in developing the City's bond programs are estimated at the mid-point of the bond program timeframe. By doing this, projects completed earlier in the bond program will generally cost less than originally projected. These cost savings are accumulated in a project contingency reserve and then used to offset overruns for projects scheduled to be completed later in the bond program's life. The current appropriations for the contingency reserves are included in the detailed project listing by proposition. These appropriations are transferred to projects when needed to fully fund a bond program project.

AVIATION FACILITIES CAPITAL IMPROVEMENTS

MISSION

The Department of Aviation's Capital Improvement Program is directed toward: (1) meeting the obligations incumbent of the City's role in the National Airspace System to maintain safe, delay-free and cost effective airports; (2) maintaining existing systems, pavements and buildings at the City's three aviation facilities to meet federal, state and municipal standards for safety, security and serviceability; (3) continuously improving aviation facilities for both commercial and general aviation users; and (4) studying, designing and constructing facilities that enhance customer service and convenience.

The Department of Aviation's facilities include Dallas Love Field, the Downtown Vertiport and Dallas Executive Airport.

HIGHLIGHTED ACCOMPLISHMENTS FOR FY 2011-12

1. Completed Airline Consultation in preparation for Passenger Facility Charge Application #4.
2. Begin drainage Master Plan for Dallas Love Field and Dallas Executive Airport.
3. Completed Taxiway "C" reconstruction and "L" extension.
4. Completed design, realignment and construction for Taxiway intersection "D2".
5. Completed General Aviation Customs Facility at Love Field.
6. Completed Dallas Executive Airport Master Plan Update.
7. Begin Perimeter Roads Project at Dallas Executive Airport.
8. Began design of Perimeter roads project at Love Field.
9. Completed construction of the Field Maintenance Facility at Love Field.
10. Completed schematic design for Taxiway "M" Project at Dallas Love Field.

HIGHLIGHTED OBJECTIVES FOR FY 2012-13

1. Initiate Good Neighbor Planning Study to citizens beginning August 27th.
2. Start Master Plan Update for Dallas Love Field.
3. Program an inventory analysis study for airfield assets and include pavement management program.
4. Begin construction projects at Dallas Executive Airport (roads, taxiway improvements, etc.).
3. Complete Drainage Master Plans for Dallas Love Field and Dallas Executive airports and start schematic design.
4. Finish design work of Perimeter roads project at Dallas Love Field.

SERVICE DESCRIPTIONS

Airfield Electrical Federal Aviation Regulations establish very detailed requirements for the installation and operation of electrical lighting systems within the Airport Operating Area (AOA). These systems include runway and taxiway lighting, guidance signs, navigational aids and obstruction and apron lighting. These systems are inspected daily and repaired as necessary. Reconstruction and new installation projects are scheduled based on inspection findings and changes in federal regulations.

Aviation Land Acquisition Paragraph 5.4 of the Dallas Love Field Policies directs the Department of Aviation to acquire privately owned parcels within the area bounded by Mockingbird Lane, Lemmon Avenue, Denton Drive and Shorecrest Drive for transportation, aviation or other appropriate uses when such land becomes available for purchase and when City funding is available for such acquisition.

Environmental Federal and State regulations administered by the Environmental Protection Agency (EPA), the Texas Commission on Environmental Quality (TCEQ), and Municipal Codes administered by the City's Environmental and Health Services Department (EHS), direct the environmental projects undertaken by the Department of Aviation.

Landscaping Both Dallas Love Field and Dallas Executive Airport are located within the Dallas city limits and are surrounded by or in close proximity to residential housing and retail businesses. The airports strive to maintain a "good neighbor" status and make every possible effort to be aesthetically pleasing. Quality landscaping is an important effort in accomplishing this goal.

Parking A Parking Garage Feasibility Study concluded that existing parking facilities at Love Field were inadequate to meet current and projected demands. To remedy this shortage, a new parking garage was constructed to add 4,000 spaces to the existing on-airport parking capacity. A second sky bridge with integral people movers was also added to connect the new parking garage with the terminal building.

Pavement Maintenance/Construction Federal Aviation Regulations establish very detailed requirements for maintenance and construction of pavement areas within the Airport Operating Area (AOA). Dallas Love Field and Dallas Executive Airport maintain a massive amount of concrete and asphalt pavement areas. These areas require daily inspections. Repair, reconstruction and new construction projects are scheduled based on inspection findings.

Safety/Security Federal Aviation Regulations (FAR) Part 139 and Transportation Security Administration (TSA) Part 1540 and associated Advisory Circulars establish very detailed requirements for safety and security at air carrier airports such as Love Field. FAR Part 139 addresses safety issues related to preventing inadvertent entry by unauthorized personnel or animals into operational areas of the airport; aircraft rescue and firefighting (ARFF); and ensuring the safety of personnel and aircraft within the confines of the airport's AOA. TSA Part 1540 focuses on securing the airport from intentional entry into the restricted areas of the airport by unauthorized personnel and protecting personnel and property from weapons and explosive devices.

Terminal Since the airports are the first impression many visitors have of the City of Dallas, it is necessary that the airport terminal facilities be maintained in a manner that presents a clean and attractive appearance while providing high levels of customer convenience. Last year almost 8 million passengers passed through the Love Field terminal either arriving in Dallas or traveling to other destinations. This usage level places a great strain on existing facilities, requiring aggressive programs for updating, renovating and maintenance to maintain the traveling public's favorable impression of Love Field and the City of Dallas. Similar challenges exist at Dallas Executive; however, in accordance with the Master Plan Study, a new replacement terminal building has been constructed to meet projected special and service needs.

Vertiport The Vertiport is a public use aviation related facility located in the Central Business District on the south end of the Dallas Convention Center; the flight deck covers approximately 169,000 square feet, or about four acres, and is 65 feet above ground. It houses two lighted landing take-off pads which can be converted to a rollway for future tilt-rotor operations. In addition there are five 60x60 parking/tie down areas for corporate size helicopters. The FAA established dedicated approach and departure corridors which are assets to the complex airspace model for the metroplex. The Vertiport has a dedicated and secured parking area allowing for 26 vehicles at street level, and easy access to the flight deck from street level and the loading dock levels via a vehicular ramp. The Heliport also hosts a full service lobby with ground access, passenger waiting area, small conference room, pilot's lounge, flight planning area and an operational area for staff.

CITY FACILITIES CAPITAL IMPROVEMENTS

MISSION

The purpose of this program is to protect the City's \$700 million investment in existing facilities, to ensure safe and usable facilities, and to provide a higher level of service to citizens. This is accomplished through repair and improvements to existing City facilities and when needed, the construction of new facilities. Strategic planning is conducted to evaluate existing City facilities for recommended future renovation, expansion or replacement.

HIGHLIGHTED ACCOMPLISHMENTS FOR FY 2011-12

1. Completed construction and held grand opening for White Rock Hills Library.
2. Awarded design/build contract for roof repairs and replacements at multiple City facilities.
3. Awarded construction of Polk Wisdom Library.
4. Completed design of Fretz Park Library, North Oak Cliff Library, Preston Royal Library, Park Forest Library and Forest Green Library.
5. Completed design of Fire Stations #6 (Harwood St. at Park Row Blvd.), #27 (Douglas Ave. at NW Hwy.), #32 (Benning Ave. at Jim Miller Rd.), and #44 (Frank St. at Lagow St.).
6. Completed construction and held grand opening for Fire Station #50 (Keeneland and Walton Walker).
7. Completed HVAC replacements West Dallas Multi-purpose Center.
8. Awarded consultant contract for the Sammons Center for the Arts for water infiltration study.
9. Completed construction of Traffic Management Center.
10. Awarded consultant contract for Southeast Service Center.
11. Completed construction of the shed at the Auto Pound.

12. Awarded construction contract for the Bexar St. Police Satellite Facility.
13. Awarded construction contract for Fire Station # 37.
14. Completed construction of compressed natural gas (CNG) facilities at Southeast and Northwest service centers.
15. Awarded construction contracts for HVAC and window replacement at Central and Southwest Police stations.

HIGHLIGHTED OBJECTIVES FOR FY 2012-13

1. Complete construction of Polk Wisdom Library.
2. Award construction contract for Fretz Park Library.
3. Award construction contracts for Fire Stations #6 (Harwood St. at Park Row Blvd.), #27 (Douglas Ave. at NW Hwy.), #32 (Benning Ave. at Jim Miller Rd.), and #44 (Frank St. at Lagow St.).
4. Award construction contract for the exterior renovation of the Old City Hall building at 106 S. Harwood St.
5. Complete the renovation of the Municipal Courts Building at 2014 Main St.
6. Award construction contracts for the repairs of Central and Southwest Police stations.
7. Award construction contract for limited permanent structural repairs to temporary at Jack Evans Police Headquarters garage.

CITY FACILITIES CAPITAL IMPROVEMENTS

SERVICE DESCRIPTIONS

Administrative, Internal Services and City Facilities Repairs, modifications and improvements to existing City facilities that house administrative and internal functions. Funding is also provided to improve and maintain service facilities that house such functions as Code Compliance, Court Services, Streets, Equipment Services, and training facilities.

Animal Control Facilities Design, construction and replacement of the Oak Cliff Animal Shelter located at 525 Shelter Place. The replacement facility will be constructed in a more accessible location to the public and will accommodate enlarged facilities for animal impoundment and pet adoption activities.

Fire Protection Facilities Projects include site acquisition, design and construction of new and replacement of fire stations and other fire department facilities.

Land Acquisition Funding for the purchase of land which will be used for the future location of City Facilities. Additionally, the 2006 Bond Program included proposition specifically to acquire land from the Cadillac Heights area.

Library Facilities Site acquisition, design, renovation and construction of new or replacement branch libraries. Funding is also provided for design, renovations, and/or expansion projects at the City's existing Central Library and twenty-two branch libraries.

Major Maintenance Repair and replacement of major building systems that typically cost more than \$10,000 to provide timely and appropriate maintenance to protect the City's general fund facility investment. This process ensures safe and usable facilities for citizens and staff, and maintains a positive image for the City. Examples of building systems include elevators, structural components, roofs, HVAC, electrical, plumbing, and interior finishes.

Municipal Court Facilities Provides funding for improvements which may include designing, constructing, renovating, equipping and furnishing and/or acquisition of right-of-way for court facilities.

Police Facilities Planning, land acquisition, design, construction, renovation, equipping, and furnishing police substations, a police academy, and related facilities.

Professional Services and Debt Issuance Provides funding for certain costs associated with capital improvement projects. These costs include studies and long-range plans, debt issuance costs, and reimbursements to the General Fund for professional staff services such as design, survey, land acquisition fees and engineering.

Public Art Includes the public art initiatives throughout the City of Dallas. Funds generated by Public Art appropriations are used for the design services of artists, for the selection, acquisition, commissioning and display of artworks, and for administration of the public art projects.

Solid Waste Facilities Construction of waste disposal cells, and levee/swale at the McCommas Bluff Landfill for the purpose of managing solid waste providing solid waste facilities improvements including cell disposal, flood protection and drainage, establishment of wetlands, and relocation of utilities. These projects consist of four major components: cell construction; extension of the levee system; swale excavation/environmental protection; drainage improvements; and, relocation of utilities.

Studies and Master Plans Provides funding for resolution of major developmental issues prior to proceeding with design and construction of individual projects.

Technology This category includes the purchase of equipment that will enhance or improve the delivery of services to external and internal users through the use of advances in electronic and computer technology. These capital equipment purchases will also bring the City of Dallas to current computer industry standards.

CULTURAL FACILITIES CAPITAL IMPROVEMENTS

MISSION

This program provides funding for site acquisition, design, construction and/or renovation of the City's cultural facilities including the Meyerson Symphony Center, Dallas Museum of Art, Bath House Cultural Center, City Performance Hall, Latino Cultural Center, Majestic Theatre, Oak Cliff Cultural Center, South Dallas Cultural Center, and WRR 101.1FM. The program includes the strategic Cultural Facilities Master Plan to provide effective and efficient utilization of existing facilities, develop a plan for investment in the existing facilities and funding for any new facilities, as well as Public Art. Private funding participation consistent with the City of Dallas Cultural Policy is required for this program.

HIGHLIGHTED ACCOMPLISHMENTS FOR FY 2011-12

1. Completed construction and held grand opening of the Dallas City Performance Hall.
2. Completed roof and HVAC replacement at the Majestic Theater.

Upgrade dimmer system at Majestic Theater.
3. Completed nine public art projects: Crawford Park Public Art Plan, Fire Station #10, Fire Station #39, Kidd Springs Park, Lakewood Park, Pleasant Grove Branch Library, Prairie Creek Branch Library, Sammons Center for the Arts, and Texas Discovery Center.
4. Began fire suppression upgrade at Dallas Museum of Art

HIGHLIGHTED OBJECTIVES FOR FY 2012-13

1. Complete 18 public art projects: Fire Station #50; Lake Highland Town Center; Ross Ave Underpass; White Rock Hills Branch Library; Bexar Street; Love Field East Tunnel, Ticketing Hall, Interior Garden, Glass Exit Wall, Ramp to Garage, Lobby Wall Focal Art, Planters on Ramp, and Concessions Area; and White Rock Lake Centennial at the Spillway.
2. Initiate seven new public art projects: Arboretum, Campbell Green Recreation Center, Churchill Recreation Center, Crawford Park Phase I, Fretz Park Branch Library, Highland Hills Branch Library, and Polk Wisdom Branch Library.

SERVICE DESCRIPTIONS

Cultural Facilities Site acquisition, design, construction and/or renovation of the City's cultural facilities.

Major Maintenance Repair and replacement of major building systems that typically cost more than \$10,000 and provide timely and appropriate maintenance to protect the City's general fund facility investment. This process ensures safe and usable facilities for citizens and staff, and maintains a positive image for the City. Examples of building systems include elevators, structural components, roofs, HVAC, electrical, plumbing, and interior finishes.

Municipal Radio Improvements Projects include the upgrading and expanding of digital broadcast equipment to ensure high quality broadcast, uninterrupted service, and compliance with Federal Communications Commission requirements for a 100,000 Kw FM radio transmitter, and the construction of a new broadcast facility or renovation of existing broadcast facility, including building security and production studio improvements.

Dallas City Performance Hall Completes the planning, design and construction of a performing arts theater and constructing the related site improvements within the Dallas Arts District, including the acquisition of land, relocation of utilities, and infrastructure improvements.

Professional Services and Debt Issuance Provides funding for certain costs associated with capital improvement projects. These costs include studies and long-range plans, debt issuance costs, and reimbursements to the General Fund for professional staff services such as design, survey, land acquisition fees and engineering. Debt issuance and CIP engineering costs are paid from the interest earned on bond proceeds. These costs may also include transfers to the General Fund and/or the Debt Service Fund.

Public Art Includes the public art initiatives throughout the City of Dallas. Funds generated by Public Art appropriations are used for the design services of artists, for the selection, acquisition, commissioning and display of artworks and for administration of the public art projects.

ECONOMIC DEVELOPMENT PROGRAMS AND INITIATIVES

MISSION

The Economic Development Capital Improvement Program assists the creation of an adaptive and resilient economy by promoting job growth and increasing the tax base. Bond program projects include infrastructure improvements to protect the existing public and private assets, balance growth in all areas of the City, and adjust historical disparities in development and facilities. The Public/Private Partnership program facilitates private development by offsetting costs such as infrastructure and development fees. The projects for the eighteen tax increment financing districts (TIFs), in which the City participates, provide funding for TIF-eligible improvements within the boundaries of each TIF Reinvestment Zone.

HIGHLIGHTED ACCOMPLISHMENTS FOR FY 2011-12

1. Created Tourism Public Improvement District (PID). This new district will generate \$10M+ annually to promote Dallas and the Convention industry.
2. Amended Sports Arena TIF District to allow redevelopment of 20+ acres of surface parking and extend area to West Dallas and Riverfront Gateway.
3. Modified By-Laws of all TIF Districts to allow better coordination with City Design Studio and Peer Review Process.
4. Continued progress in Downtown Area with completion of preliminary work on Statler-Hilton, Library, and 1600 Pacific, completed work of Houseman Building and initiated redevelopment of Atmos Phase I (107 apartment units all affordable to low income renters) and Continental Building (203 apartment units with 41 affordable to low/moderate income renters and 3,000 square feet of commercial/retail space).
5. Completed 2 mixed-use projects on Bexar Street in South Dallas Fair Park NIP area: 7 townhomes and 5 commercial/retail spaces in one project and 9 apartments and three commercial/retail spaces in the second.

6. Authorized incentives for Sylvan-Thirty and The Collective projects in Fort Worth Avenue TIF District; Forest City West Village project in Cityplace TIF District; Victory Tier One North Parking Garage in the Sports Arena TIF District; Reel FX in the Deep Ellum TIF District; and Tower Petroleum in the Downtown Connection TIF District.
7. Renewed South Side and Uptown PIDs.
8. Started construction on WalMart Anchored shopping center at I-35 in Southern Dallas.
9. Land Bank acquired 125 lots and sold 75 lots to developers for construction of affordable homes for sale to eligible low- to moderate-income homebuyers.

EQUIPMENT ACQUISITION

MISSION

This program provides funding for the purchase of capital equipment used in the day-to-day operations of the City.

HIGHLIGHTED ACCOMPLISHMENTS FOR FY 2011-12

1. Completed upgrades to the Computer Aided Dispatch system for the remaining in-car mobile installations.
2. Purchased 10 replacement fire engines and 3 replacement aerial ladder trucks.
3. Purchased 1 replacement hazardous material response apparatus.
4. Purchased 47 pieces of replacement fleet equipment and 2 additions, including sedans, light and heavy trucks.
5. Purchased 12 Compressed Natural Gas (CNG) vehicles, including rear loaders and light trucks.
6. Replaced 20 pieces of sanitation collection, 12 light trucks and 6 pieces of disposal equipment for a total of 38 pieces replaced.
7. Upgraded fuel inventory management system, including 16 new Fuel Island Control Units (ICU), ICU software, telemetrics for transmitting vehicle warning and fault codes to create work orders for vehicle repairs, and installation of 3,300 new Radio Frequency Identification Devices (RFID) on City vehicles.

HIGHLIGHTED OBJECTIVES FOR FY 2012-13

1. Continue location infrastructure and regional warrant updates.
2. Finalize implementation of the citywide network refresh project for key infrastructure equipment updates for remote locations throughout the City.
3. Continue implementation of secondary phases of the electronic citation program.

SERVICE DESCRIPTIONS

Fleet Replacement This category includes purchases of fleet such as trucks, sedans, vans, dump trucks, backhoes, motorcycle; landfill equipment such as compactors, rotobooms, loaders and bulldozers; and fire emergency apparatus such as pumpers and trucks.

Professional Services and Debt Issuance Provides funding for certain costs associated with capital improvement projects. These costs include studies and long-range plans, debt issuance costs, and reimbursements to the General Fund for professional staff services such as design, survey, land acquisition fees and engineering. Debt issuance and CIP engineering costs are paid from the interest earned on bond proceeds. These costs may also include transfers to the General Fund and/or the Debt Service Fund.

Technology This category includes the purchase of equipment that will enhance or improve the delivery of services to external and internal users through the use of advances in electronic and computer technology. These capital equipment purchases will also bring the City of Dallas to current computer industry standards.

Operational Equipment Provides for the purchases of new and/or replacement equipment used to deliver services to the public on a daily basis. Equipment purchases in this category include, but are not limited to, mowers, sanders, concrete saws, street striping machines, tractors, flood warning systems, and paving breakers.

Fuel System Upgrade This category provides for new fuel island hardware and software upgrades and associated vehicle hardware, Radio Frequency Identification Devices (RIFD), installed on City vehicles to activate fuel islands and transmit information, such as odometer readings and diagnostic codes, to the fuel inventory management database.

FLOOD PROTECTION AND STORM DRAINAGE CAPITAL IMPROVEMENTS

MISSION

This program provides for the preparation of plans, specifications, and construction to improve storm drainage and reduce the loss of property due to flooding and erosion. These projects include construction and replacement of storm drainage systems, inadequate bridges and culverts, erosion control structures, and the implementation of flood plain management plans to improve the flood protection system.

HIGHLIGHTED ACCOMPLISHMENTS FOR FY 2011-12

1. Began construction on Ricketts Branch project.
2. Completed construction on 5 erosion control projects including 2118–2132 Clarksdale Drive, 2102–2103 Healey Drive, 8022 Claremont Drive, 8220 Coolgreene Drive, and 8165–8171 Hunnicut Road.
3. Completed construction on 3 storm drainage projects including 7209 Indian Ridge, 3900 Kiest Meadow, and 11700 block Kleberg Road.
4. Completed construction on Pavaho Pump Station.
5. Began construction on Hampton Oak Lawn (Baker) Pump Station.
6. Began construction on 100-Year Levee improvements.

HIGHLIGHTED OBJECTIVES FOR FY 2012-13

1. Complete construction on 5 flood management projects including Ricketts Branch, Ash Creek–South Fork Bridges at Lakeland, Elam Creek Channel–Seco to Umphress (Phase II), Elmwood Branch Bridge at Franklin, and McCree Branch–White Rock Trail Bridge.
2. Complete construction on 5 erosion control projects including 3417, 3429, 3509, and 3529 Holliday, and 4518 Dove Creek Way,
3. Complete construction of 4 storm drainage projects including Ash Creek Estates at Meadow Way, Peavy at Galway–Fuller, 1667 Sylvan Avenue, and Yewpon–Kingsley area.

4. Complete construction on 100-Year Levee Improvements.
5. Begin construction on West Dallas–Eagle Ford Sump Basin.

SERVICE DESCRIPTIONS

Erosion Control Erosion control projects are recommended for structures threatened by creek or channel bank erosion. Typical structures include streets, culverts, bridges, alleys and homes. Erosion occurring in areas not associated with creek banks or man-made channels is not included in this category. This category would provide armoring of natural creek banks to protect soil against further erosion loss.

Flood Management This category is primarily comprised of projects recommended in Flood Plain Management Studies of creeks and tributaries. The emphasis is on reduction of severe flood impact on bridges and neighborhoods bordering flood plain areas. Typical projects in this category are bridge and culvert replacement, creek channelization, detention basins and construction of flood protection levees.

Storm Drainage Relief System Provides funds for the construction of storm drainage system improvements. Many areas within the City of Dallas are served by storm drainage systems that are inadequate because of continued development and the fact that many of the older systems were designed to a lesser standard than is used today. In many cases, because of the high cost of retrofitting improvements in fully developed areas, these projects are proposed for design and construction by phases.

Professional Services and Debt Issuance Provides funding for certain costs associated with capital improvement projects. These costs include studies and long-range plans, debt issuance costs, and reimbursements to the General Fund for professional staff services such as design, survey, land acquisition fees and engineering. Debt issuance and CIP Engineering costs are paid from the interest earned on bond proceeds.

Public Art Includes the public art initiatives throughout the City of Dallas. Funds generated by Public Art appropriations are used for the design services of artists, for the selection, acquisition, commissioning and display of artworks and for administration of the public art projects.

PARK AND RECREATION CAPITAL IMPROVEMENTS

MISSION

The mission of the Park and Recreation Capital Improvement Program is to:

- Recover the quality and prestige of the Dallas park system
- Regain the confidence and enthusiasm of our citizens
- Reposition the Dallas Park and Recreation Department as a recognized state and national leader

“A Renaissance Plan for Dallas Parks and Recreation in the 21st Century”

This program provides for the design, construction and maintenance of Park and Recreation facilities including: playgrounds, major parks, public facilities, athletic facilities, aquatic facilities, erosion control, site development, historic preservation, and service facilities.

HIGHLIGHTED ACCOMPLISHMENTS FOR FY 2011-12

1. Completion of recreation center renovations at Anita Martinez (interior and exterior), Campbell Green (exterior), Fretz (interior), Willie B Johnson (interior and gymnasium); and, the expansion of Churchill, Kidd Springs and Jaycee Zaragoza recreation centers.
2. Playground replacements completed at Apache, Cochran, Glendale, Fireside, Fox Hollow, Holcomb, JP Hawn, John C Phelps, Kiest, Lake Highlands, Lochwood, Moore, Sand Springs, Scotland, Sugarberry and Wonderview parks.
3. Trail completions: Elmwood Parkway and Northaven (Phase I). Trail lighting along Cottonwood Trail.
4. Completion of Belo Garden, NorthBark Park.
5. Pavilions completed at Cotillion, Danieldale, Royal, Umphress, Webb Chapel and Westmoreland parks. Restoration of the WPA-era pavilion at Stevens Park completed.

HIGHLIGHTED OBJECTIVES FOR FY 2012-13

1. Complete playground replacements: Casa Linda, Cedar Run, Friendship, Fruitdale, Glencoe and Ricketts Branch parks; and, playground expansions at JJ Lemmon, Lake Highlands North and White Rock Lake parks.

2. Complete construction of the Trinity Strand Trail (Phase I), White Rock Creek Trail, Five Mile Creek Trail from Kiest Park to Westmoreland, Five Mile Creek Trail between Glendale Park and College Park and the northern extension of the White Rock Creek Greenbelt Trail.
3. Complete Elm Fork Athletic Complex, Trinity River Standing Wave and Woodall Rodgers Deck Park.
4. Complete pavilion construction at College, Kidd Springs, Lakeland Hills and McCree parks.
5. Complete Beckley Saner, Cummings, Harry Stone, Samuel Grand and Walnut Hill recreation center expansion and renovation projects.
6. Complete renovations at the Luna Vista Golf Course and clubhouse at the LB Houston Athletic Complex and the Tenison Driving Range.

SERVICE DESCRIPTIONS

Administrative and Internal Service Facilities Provides for service facilities required to effectively and efficiently deliver services in an expanding park system.

Aquatic Facilities These improvements provide for new neighborhood spraygrounds, family aquatic centers and infrastructure improvements to Park and Recreation public swimming pools. The improvements may include new filtration systems, new piping and chlorination systems, replastering of pool walls, new perimeter fencing, new decking and improvements to the restroom and changing facilities.

Citywide Parks Projects have a broader benefit to the citizens. Included within these projects are storm water quality improvements, park accessibility improvements and land acquisition.

Code Compliance, Safety and Security Provides a mechanism to address major critical needs throughout the city.

PARK AND RECREATION CAPITAL IMPROVEMENTS

Community Parks These parks are larger than Neighborhood Parks and usually comprise 15 to 100 acres and serve a 2-mile radius. These parks may include areas for intense recreation activity such as competitive sports, swimming, tennis, playgrounds, volleyball etc. There may also be passive recreation opportunities such as walking, viewing, sitting and picnicking.

Dallas Arboretum Provides for the development at Dallas Arboretum in partnership with the Dallas Arboretum and Botanical Society.

Dallas Zoo This category provides for development within the park and is often accomplished in partnership with the Dallas Zoological Society.

Downtown Parks Provides for the development of parks within the Central Business District.

Environmental Provides funding to address improvements directly affecting the health and well-being of the citizens of Dallas.

Erosion Control These projects employ a variety of engineering techniques to control erosion around creek, channel or lake banks. Erosion problems, if left unchecked, will cause damage to existing structures in the park and may create hazardous conditions.

Fair Park Provides for the development of projects within Fair Park. These projects often are completed in partnership with the State Fair of Texas, Inc. or other institutions who have a stake in the development of the park.

Hike and Bike Trails All-weather trail projects that encourage walking, bicycling, and other modes of transportation as an alternative to the automobile. These trails offer sufficient width to accommodate bicyclists, pedestrians, and skaters, and are recommended under the North Central Texas Council of Government's (COG) Mobility 2025 Plan and the Texas Natural Resources Conservation Commission's (TNRCC) Emission Reduction Plan for the region.

Historic Restoration These improvements provide for the restoration and stabilization of historically significant park facilities, particularly those constructed during the 1930s Works Progress Administration era.

Linear/Linkage These areas are built connections or natural corridors that link parks together. Typically, the linear park is developed for one or more modes of recreational travel such as walking, jogging, skating etc.

Major Maintenance Provides repair and replacement of major building systems that typically cost more than \$10,000 and provide timely and appropriate maintenance to protect the City's general fund facility investment. This process ensures safe and usable facilities for citizens and staff, and maintains a positive image for the City. Examples of building systems include elevators, structural components, roofs, HVAC, electrical, plumbing, and interior finishes.

Major Park Facilities These improvements provide for the development of new park facilities or renovation of existing facilities at regional parks that provide citywide or regional services. Included are projects at Fair Park, Dallas Zoo, Dallas Nature Center, Katy Trail, Golf Courses, and the Arboretum.

Metropolitan Park These parks are large facilities that service several communities. The parks range in size from 100-500 acres which serve the entire City and are natural areas or developed for a variety of outdoor recreation activities.

Mini Park These parks are used to address limited, isolated or unique recreation needs of concentrated populations; usually 1 acre or less in size with less than ¼ mile service radius.

Neighborhood Park Facilities These facilities provide for new recreation centers and additions to and renovations of existing recreation centers. The standard recreation center has program space and a full gymnasium. An addition typically consists of a large multi-purpose room. Reservation facilities are available to the public for rental for special events and functions. These parks are from 1 to 15 acres in size and service a ½ mile radius.

Park Land Acquisition Provides funding for the acquisition of land for future park development.

Playground Improvement Includes new playgrounds or replacement of outdated playground equipment. These projects may also include replacement or installation of new groundcover material to ensure playground safety.

PARK AND RECREATION CAPITAL IMPROVEMENTS

Professional Services and Debt Issuance Provides funding for certain costs associated with capital improvement projects. These costs include studies and long-range plans, debt issuance costs, and reimbursements to the General Fund for professional staff services such as design, survey, land acquisition fees and engineering. These costs also include transfers to General Fund.

Public Art Includes the public art initiatives throughout the City of Dallas. Funds generated by Public Art appropriations are used for the design services of artists, for the selection, acquisition, commissioning and display of artworks and for administration of the public art projects.

Public Private Partnership Provides a funding source for leveraging potential participation and private funding to support park development and programming.

Recreation Centers These facilities provide for new recreation centers and additions to and renovations of existing recreation centers. The standard recreation center has program space and a full gymnasium. An addition typically consists of a large multi-purpose room. Reservation facilities are available to the public for rental for special events and functions.

Regional Parks These parks are very large multi-use parks that serve several communities within a particular region. They encompass 500+ acres and serve those within a one-hour driving distance. The regional park will provide a wide array of active and passive recreation activities for all age groups.

Site Development Includes the development and implementation of Park master plans. These projects may include installing some or all of the components as outlined in the Plan. Typical components may include: pavilions, sidewalks, barrier free ramps, hiking and biking trails, drainage, landscaping and irrigation, fencing, lighting, signage, and other improvements.

Special Use Areas These areas are for specialized or single purpose recreation activities. There are no specific standards for size or acreage. Included in these areas are: historic areas, nature centers, marinas, golf courses, zoos, arboretums, amphitheatres, plazas and community squares.

Studies and Master Plans Provides funding for resolution of major developmental issues prior to proceeding with design and construction of individual projects.

Trail Development Provides funding for trails identified within the citywide trails master plan.

SERVICE DESCRIPTIONS

Alley Petitions Engineering and construction of alley paving through petitions from the Property Owners Cost Participation Program (POCPP). Petitions must represent a two-thirds majority of the abutting property owners and/or residents adjacent to unimproved alleys for a valid paving petition. Property owners are assessed for a portion of the cost.

Alley Reconstruction Engineering and construction of alleys that have exceeded their structural life expectancy.

Alternate Mode Transportation Trails All weather trail projects that encourage walking, bicycling and other modes of transportation as an alternative to the automobile. These facilities offer sufficient width to accommodate bicyclists, pedestrians and skaters, and are recommended under the North Central Texas Council of Government's (COG) Mobility 2025 Plan and the Texas Natural Resources Conservation Commission's (TNRCC) Emission Reduction Plan for the region.

Barrier Free Ramps The general public requests barrier-free-ramp projects. Priority is given to walkways serving government offices and facilities, health care facilities (hospitals, clinics, retirement facilities, etc.), bus stops and transportation centers (DART), commercial districts (private businesses offering goods and services to the public), schools, followed by walkways serving residential areas.

Bridge Repair and Modification Provide for repair and modification of bridges due to structural deficiencies identified in the bi-annual Bridge Inventory Inspection and Appraisal Program (BRINSAP) performed by Texas Department of Transportation.

Economic and Business Development Street, utility and other infrastructure improvements in furtherance of economic and business development in the Southern area of the City and other target project sites.

Housing Infrastructure Improvements Street, alley and drainage infrastructure improvements for low to moderate-income housing. Property owners may be assessed for a portion of the cost.

Intergovernmental Partnership Projects Transportation projects where the City is leveraging funding from other federal, state and local sources. These projects typically include building a Roadway to the standard identified in the Thoroughfare Plan, adding turn lanes at intersections, bridges, signal and other ITS upgrades, and trail projects.

Local Collector Improvements to substandard or over-burdened local collector streets to bring them into compliance with current City standards including safety, lane width, and pavement thickness.

Participation With Other Government Agencies - Alternate Modes Improvements to alternate modes of transportation such as separate bike routes, signage, or parking facilities with matching funds from other agencies.

Participation With Other Government Agencies - Intersections Improvements for turning movements, addition of auxiliary turn lanes, and increasing storage capacity at designated intersections using matching funds from other agencies.

STREET AND THOROUGHFARE CAPITAL IMPROVEMENTS

Participation With Other Government Agencies - Thoroughfares

Provides for improvement of substandard or overburdened City thoroughfares to bring them into compliance with current City standards including safety, lane width and pavement thickness by using matching funds from other agencies.

PID/TIF Development Public Improvement Districts (PIDs) and Tax Increment Financing (TIF) districts are special districts used to finance planned economic development activities in specific target areas of the City. Capital improvement projects provide for the engineering and construction of street, drainage, landscaping and streetscaping improvements at the beginning of the redevelopment process to encourage private investments in PIDs and TIFs.

Professional Services and Debt Issuance Provides funding for certain costs associated with capital improvement projects. These costs include studies and long-range plans, debt issuance costs, and reimbursements to the General Fund for professional staff services such as design, survey, land acquisition fees and engineering. Debt issuance and CIP Engineering costs are paid from the interest earned on bond proceeds.

Public Art Includes the public art initiatives throughout the City of Dallas. Funds generated by Public Art appropriations are used for the design services of artists, for the selection, acquisition, commissioning and display of artworks and for administration of the public art projects.

Public/Private Partnerships Provides cost participation for street infrastructure improvements related to Public/Private Development.

Sidewalk Improvements Sidewalk replacement cost sharing program between the City and the citizens. This program was created to assist property owners with the cost of replacing sidewalks. Under this program, the City pays 50% and the property owners pay 50% of the cost to replace the sidewalk.

Sidewalk Petitions Provides for a new sidewalk that is petitioned by citizens. Sidewalk petition projects are validated by meeting the following requirements:

- Signatures of 2/3 majority of the abutting property owners and ½ of the property frontage, or
- Signatures of ½ of the abutting property owners and 2/3^{rds} of the property frontage.

Sidewalk Safety Provides for new sidewalks in high pedestrian areas. These projects are requested by parents, teachers, school administrators and general public and are submitted to the Citizen Safety Advisory Committee for review. Adjacent property owners are assessed for a portion of the cost.

Street Improvements Funding for engineering and construction.

St. Modifications and Bottleneck Removal Transportation projects that provide a mobility improvement at a location where the capacity is currently constrained.

Street Petitions Engineering and construction of street paving petition improvements requested by property owners through the Property Owners Cost Participation Program (POCPP). Petitions must represent a two-thirds majority of the abutting property owners and/or residents adjacent to unimproved street for a valid paving petition. Property owners are assessed for a portion of the cost.

Street Reconstruction Engineering and construction of street that have exceeded their structural life expectancy.

Street Resurfacing Street Resurfacing Design and construction for streets that need resurfacing. Resurfacing consists of removal of previous asphalt overlays or milling of existing concrete, repairs to base pavement, curb, gutter, and sidewalks, where required for the resurfacing project and placement of new or recycled asphalt overlays or concrete repairs and traffic markings, as necessary.

Streetscape/Urban Design Design and installation of sidewalks, barrier-free ramps, brick pavers, trees and planting materials, irrigation systems, street lighting, and pedestrian lighting.

STREET AND THOROUGHFARE CAPITAL IMPROVEMENTS

Target Neighborhood Improvement of substandard residential streets to current City standards without requiring street petition. Property owners will be assessed for a portion of the cost.

Thoroughfares Roadway projects that improve the capacity of a segment of Roadway by constructing it to the standard identified on the Thoroughfare Plan or CBD Streets and Vehicular Circulation Plan.

Traffic Devices - Illuminated Crosswalks Installation of mid-block pedestrian crosswalks with illuminated pavement markers for increased pedestrian safety.

Traffic Signal Control Equipment Upgrades Replace traffic control equipment citywide (signal controllers and conflict monitors) that have exceeded their design life. As electronic equipment ages, the number of failures increases. Equipment reliability effects traffic safety and congestion.

Traffic Signal Upgrades Replacement of traffic signal hardware that is structurally deficient, prone to being damaged by vehicles, and/or requires operational improvement such as the addition of left turn signals or pedestrian signals. In the Central Business District, signal poles will be replaced by a streetscape-style hardware that have higher signal display mounting heights providing better visibility.

Trinity River Transportation Related Projects Engineering studies, design, initial right-of-way acquisition and construction of transportation related improvements in the Trinity River Corridor.

Develop Bond Program for November 2012 Election Update the Needs Inventory and prioritize projects for inclusion in the bond program.

TRINITY RIVER CORRIDOR CAPITAL IMPROVEMENTS

MISSION

This program consists of projects along the Trinity River Corridor that provide for flood protection, environmental restoration/preservation, recreation, transportation improvements and economic development. The current Trinity River Corridor projects include the Dallas Floodway and Dallas Floodway Extension. Also included are transportation improvements such as the Margaret Hunt Hill (formerly referred to as the Woodall Rodgers Extension) Bridge and the Trinity Parkway, both of which will provide reliever routes to allow the State to make improvements to the Canyon/Mixmaster/Lower Stemmons areas. Other projects will provide for recreational amenities in the Great Trinity Forest and lakes within the Floodway.

HIGHLIGHTED ACCOMPLISHMENTS FOR FY 2011-12

1. Completed construction of Margaret Hunt Hill Signature Bridge.
2. Completed construction on Pavaho Pump Station.
3. Completed construction of Trinity Trail Phase II, Rochester Park Trails, Santa Fe Trestle Trail.
4. Began construction of IH-20 Gateway Park.
5. Began construction of Elm Fork Athletic complex.
6. Began construction on Hampton Oak Lawn (Baker) Pump Station.

HIGHLIGHTED OBJECTIVES FOR FY 2012-13

1. Complete design of Joppa/South Central Gateway and MLK/Cedar Crest Gateway
2. Begin construction of Margaret McDermott Bridge (IH-30).
3. Begin construction of Loop 12 Gateway Phases 1-3.
4. Begin construction on West Dallas Gateway and Continental Pedestrian Bridge.
5. Complete construction on Moore Gateway Park Phases 1-4.

6. Complete construction on 100-Year Levee Improvements.

SERVICE DESCRIPTIONS

Professional Services and Debt Issuance Provides funding for certain costs associated with capital improvement projects. These costs include studies and long-range plans, debt issuance costs, and reimbursements to the General Fund for professional staff services such as design, survey, land acquisition fees and engineering. Debt issuance and CIP Engineering costs are paid from the interest earned on bond proceeds. These costs also include transfers to General Fund.

Public Art Includes the public art initiatives throughout the City of Dallas. Funds generated by Public Art appropriations are used for the design services of artists, for the selection, acquisition, commissioning and display of artworks and for administration of the public art projects.

Trinity River Projects Projects along the Trinity River Corridor for flood protection, environmental restoration/preservation, recreation, and transportation improvements.

WATER UTILITIES FACILITIES CAPITAL IMPROVEMENTS

MISSION

The City of Dallas Water Utilities Department (DWU) is a City-owned enterprise utility providing regional water and wastewater services to the citizens of Dallas and to the surrounding customer cities. DWU's mission is to provide services vital to the health and safety of Dallas citizens and our customers and to support the City's efforts toward economic development, environmental protection and enhancement of quality of life, including water supply, treatment, and distribution; wastewater collection and treatment; and billing, credit and collection and customer service.

The mission of the Water Utilities Department Capital Improvement Program is to provide an adequate water supply and wastewater treatment to its customers by the acquisition of future water and wastewater facilities and to renovate and construct improvements to existing water and wastewater facilities throughout the City of Dallas.

HIGHLIGHTED ACCOMPLISHMENTS FOR FY 2011-12

1. Awarded the construction of East Side Water Treatment Plant Filter to Waste and Hydraulic Improvements project. Completion of this project improves overall water quality and capacity at the plant.
2. Awarded the construction of Elm Fork Water Treatment Plant Major Maintenance Improvements project to provide reliable plant operations. Completion of this project will help overall efficiency through the replacement of equipment causing extensive maintenance which ultimately results in longer plant downtime.
3. Awarded the construction of Carrollton, California Crossing and Frasier Dam (Trinity River Water Supply Dams) Improvements Construction project to comply with dam safety requirements and insure dependable water supply.
4. Awarded the construction of Bachman Water Treatment Plant Chlorine Scrubber, Lime, Ferric and Laboratory Improvements. This project brings the chlorine scrubber into regulatory and safety compliance, improves lime and ferric chemical delivery for the planned future transition to enhanced coagulation treatment process and rehabilitates the laboratory.

5. Awarded the construction of Elm Fork Water Treatment Plant Chlorine System Rehabilitation Improvements. This project brings the chlorine scrubber into regulatory and safety compliance and improves the reliability of the plant.
6. Awarded Water and Wastewater Main Replacement contracts which resulted in the installation of approximately 57 miles of water and wastewater mains, including relocation and private development projects.
7. Completed the construction of the Dewatering Facility at the Southside Wastewater Treatment Plant and put the facility into operation. This project will optimize solids disposal at the plant and reduce personnel overtime with the elimination of 24-hour operations.
8. Completed construction of the water reuse pump station modifications at the Central Wastewater Treatment Plant. These modifications will allow for expansion of the reuse system and for additional new customers to be brought online.
9. Awarded the construction of electrical improvements at the Central Wastewater Treatment Plant. These improvements will improve reliability and reduce maintenance costs by replacing aging electrical infrastructure.
10. Awarded the Long Range Water Supply Plan Contract. The Long Range Water Supply Plan will project DWU's population and water demand and make recommendations to meet DWU's water supply needs for the next 50 plus years.

HIGHLIGHTED OBJECTIVES FOR FY 2012-13

1. Award the construction of East Side Water Treatment Plant Electrical Substation III to address increased electrical needs due to the 540 million gallon per day (MGD) plant expansion.
2. Award Water and Wastewater Main Replacement contracts which will result in the installation of approximately 169 miles of water and wastewater mains, including relocation and private development projects.

WATER UTILITIES FACILITIES CAPITAL IMPROVEMENTS

3. Award the construction of the Grit Removal and Screenings Improvements project at the Central Wastewater Treatment Plant. Completion of this project will reduce operations and maintenance costs at both of the City's wastewater treatment plants.
4. Award the design of the Process Control System Improvements at the Central Wastewater Treatment Plant. This project will reduce operation, maintenance, chemical and electrical costs by optimizing operations at the plant.
5. Finalize the construction of the Recycle Water Phase I and II projects which will result in the installation of the approximately 6 miles of 20-inch pipe. Use of the recycled water for irrigation will help reduce overall demand from the potable water system.

SERVICE DESCRIPTIONS

Homeowner Extensions and Unserved Areas Construction of water and wastewater main extensions to homeowners and meters for water service.

Inflow/Infiltration Remediation Design and construction of improvements to eliminate inflow and infiltration conditions within the wastewater collection system.

Mains, Pump Stations and Associated Facilities Right-of-way acquisition, design and construction of new and replacement mains, pump stations, lift stations, ground storage reservoirs, and elevated tanks citywide as required by growth, development and obsolescence. Surveying, geotechnical and environmental services are also included.

Public Art Includes the public art initiatives throughout the City of Dallas. Funds generated by Public Art appropriations are used for the design services of artists, for the selection, acquisition, commissioning and display of artworks and for administration of the public art projects.

Raw Water Pumping and Transmission Acquisition of right-of-way for transmission facilities and for the design and construction of water transmission facilities to include the Lake Fork Pump Station and pipeline.

Rehabilitation and Equipment Maintenance and renovation of major water and wastewater facilities.

Relocations In Advance of Paving Replacement and/or relocation of water mains, wastewater mains and related facilities to permit widening and paving of streets and highways and storm drainage in coordination with City, County and State programs.

Service Centers, Offices and Research Facilities Renovation of existing service facilities and business and customer service systems.

Studies and Master Plans Studies related to business, planning, water and wastewater operations and master plan updates.

Wastewater Treatment Plants and Associated Facilities Design and construction of renovations, expansions, and improvements to the Central and Southside Wastewater Treatment Plants. Funding for the design and construction of the proposed future wastewater treatment plant(s).

Water Supply Reservoirs and Dams Dam inspection, consultation, rehabilitation and erosion studies for various dams. Also includes acquisition of new water supply sources.

Water Treatment Plants and Associated Facilities Design and construction of renovations, expansions and improvements to the City's three water treatment plants: Bachman Plant, East Side Plant and Elm Fork Plant. Funding for the design and construction of the proposed future water treatment plant(s).

Wholesale Customer Facilities Construction of facilities necessary to provide service to the Customer Cities.

MAJOR REVENUE SOURCES

GENERAL FUND MAJOR REVENUE SOURCES

The revenue sources described in this section account for \$901,941,435 of the City's total General Fund operating revenues and \$210,058,159 of the Tax Supported Debt Service revenues.

PROPERTY TAXES

Property (ad valorem) taxes attach as an enforceable lien on property as of each January 1st. The City's property tax is levied each September on the assessed value listed as of the prior January 1st for all real property and income-producing personal property located in the City. Assessed values are established by the four Counties in which the City of Dallas is located, 100% of the estimated market value and certified by the Appraisal Review Board. The assessed taxable value for the tax roll as of January 1, 2012 (upon which the FY 2012-13 levy is based) is \$83,681,721,883. The 2012 tax roll is 2.06% more than the 2011 tax roll.

The City is permitted by Article XI, Section 5 of the State of Texas Constitution to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on general obligation long-term debt. The tax rate for the year ending September 30, 2013 is proposed at 79.70¢ per \$100 of which 54.39¢ is allocated for general government operations and maintenance and 25.31¢ is allocated for general obligation debt service payments.

Taxes are due January 31st following the September levy and are considered delinquent after January 31st of each year. Based upon historical collection trends, current tax collections for the year ending September 30, 2013 are estimated to be 97.43% of levy and will generate \$443,447,662 in General Fund revenues and \$206,355,218 in Debt Service revenues for a total of \$649,802,880 in revenues. Prior year taxes, penalties, and interest are expected to produce an additional \$11,349,558 in revenues.

MAJOR REVENUE SOURCES

AMBULANCE REVENUES

The Dallas Fire Department provides emergency ambulance services within the boundaries of the City of Dallas and the City of Cockrell Hill to any person requesting aid. The emergency medical staff transports the individual or individuals to a hospital providing emergency aid for a transport charge plus itemized charges. The charge is \$800 for residents and \$900 for non-city residents, and \$125 for treatment/non-transport services.

The billing and collection of ambulance fees is provided by an outside agency through a contract with the City of Dallas. To estimate the FY 2012-13 revenue, historical information is used to project the gross amount billed, and a projected collection rate is applied to this amount.

SANITATION SERVICES REVENUE

Sanitation Services Revenue is collected to match the cost of providing garbage collection, brush and bulky collection, and recyclables collection services for residential customers and a few small commercial customers. This revenue is based on fees, which are collected through the monthly utility bills issued by Dallas Water Utilities. The FY 2012-13 estimated revenue is determined by multiplying the current residential rate of \$20.25 per month (no change from FY 2011-12) by the projected number of residential customers, plus estimates for fees for “pack out” service, commercial customers’ fees, and fees for collection of dead animals from vets and pet rescue shelters. The Sanitation rate is directly supported by revenues from the residential recycling program – which is estimated to decrease by 6% from the FY 2011-12 recycling revenue budget. In addition, an allowance of 1.25% is assumed for uncollectible accounts.

PRIVATE DISPOSAL REVENUE

Private Disposal Revenue is collected primarily at the McCommas Bluff Landfill from private (commercial) waste haulers for the privilege of disposing of solid waste at the site. The rate at the McCommas Bluff Landfill stays unchanged at \$21.50 per ton in FY 2012-13. The Bachman Transfer Station rate remains unchanged at \$47 per ton. City of Dallas residents hauling their own household and yard wastes are exempt from the fees. Commercial haulers may also elect to enter into a disposal contract with the City, allowing for a discount from the posted rate in exchange for a guaranteed minimum amount of waste disposal over a specific time period. The FY 2012-13 figure is determined by projecting an estimate for commercial waste tons to be delivered to the landfill at the solid waste disposal fee, with consideration for waste tonnage under disposal contracts continuing into FY 2012-13.

MAJOR REVENUE SOURCES

FRANCHISE FEE REVENUE

The City of Dallas maintains non-exclusive franchise agreements with utilities and other service providers that use the City's right-of-ways to provide services to the public. These franchise ordinances provide for compensation to the City in the form of franchise fees. These fees are in lieu of all other fees and charges related to the use of the right-of-ways. They are in addition to sales and ad valorem taxes.

Generally, franchise fees are calculated based on a percentage of the companies' gross receipts as a result of doing business in Dallas. Cable TV providers such as Time Warner, AT&T and Verizon, pay a fee equal to 5% of gross receipts, paid quarterly, 45 days after the end of the period covered. Franchise fees for Atmos Energy are 5% of their gross receipts, paid quarterly, by wire transfer. Projections for FY 2012-13 revenues for cable are based on historical data trended forward using regression analysis. Franchise fees for TXU Electric are based on a fee per kilowatt hour consumed and are projected for FY 2012-13 using historical data, trended forward by statistical analysis techniques and normalized for weather.

Certificated telecommunications providers no longer pay franchise fees to the City. Pursuant to Local Government Code 283 telecommunications providers must compensate the City for use of the right-of-way on a per access line basis. These fees are to be paid to the City 45 days after the end of each calendar quarter. It is anticipated that these municipal fees for all telecommunications providers in the City will total \$28,341,232 for FY 2012-13.

MUNICIPAL COURT REVENUES

Court and Detention Services collects fines and fees on Class C Misdemeanor citations, including moving/non-moving traffic violations and State law/City ordinance violations. Revenues are collected at cashier windows, by mail-in payments and through express mail depositories. Delinquent accounts are forwarded to a collection agency for additional collection efforts. The methodology used to project revenues is a combination of straight lining actuals, historical analysis and multi-year averaging.

MAJOR REVENUE SOURCES

SALES TAX

The sales tax rate in the City of Dallas is 8.25% of taxable goods or services sold within the City limits. The tax is collected by the retriever at the point of sale and forwarded to the State Comptroller's Office on a monthly or quarterly basis. Of the 8.25% collected, the state retains 6.25% and distributes 1% to the City of Dallas and 1% to the Dallas Area Rapid Transit transportation authority.

As illustrated in the accompanying graph, sales tax receipts have increased from \$183.2 million in FY 2002-03 to a projected \$231,463,168 million in FY 2012-13. Sales tax revenues are historically volatile; therefore, actual collections may differ significantly from the budgeted amount.

SECURITY ALARM PERMIT FEE

The City of Dallas charges an annual permit fee of \$50 for a residence and \$100 for a business permit. A permitted alarm site is allowed three free false burglar alarms in a twelve-month period. The 4th, 5th and 6th false burglar alarms are \$50, 7th and 8th false burglar alarms are \$75 while the 9th+ are \$100 each. All Panic/Hold-up false alarms for a residence are \$100. The 1st Business Panic/Hold-up false alarm is \$100, 2nd is \$200, 3rd is \$300 while 4th+ are \$400 each.

MAJOR REVENUE SOURCES

ENTERPRISE FUND MAJOR REVENUE SOURCES

HOTEL OCCUPANCY TAXES

The Hotel Occupancy Tax rate in the City of Dallas is 13% of the room rate charged within the City limits. The tax is collected by the hotel at the point of sale and forwarded to the State (6%) and City (7%) on a monthly basis.

Of the 7% received by the City of Dallas, 32.6% of it is distributed to the Dallas Convention and Visitors Bureau (DCVB) to market and promote the City of Dallas as a convention and tourist destination and 67.4% of it is retained by Dallas Convention Center to support operations and capital improvements.

Hotel occupancy tax revenues are historically volatile; therefore, actual collections may differ significantly from the budgeted amount. For FY 2012-13, the City's portion of the Hotel Occupancy Tax revenue (7%) is projected at \$37,600,000. The distribution of

the 13% hotel occupancy tax is illustrated in the accompanying graph.

STORM WATER REVENUES

The Storm Drainage Management Utility Revenue is collected to support the cost of compliance with the City's storm drainage discharge permit with the Texas Commission on Environmental Quality (TCEQ), operation, maintenance and enhancement of the levee system, and operating and maintenance of the City's storm natural and improved storm drainage system. Compliance activities include, but are not limited to: water quality sampling and analysis; creek monitoring; public education and outreach; hazardous spill response, cleanup and disposal; construction compliance inspections, industrial facility inspections; and engineering, design and inspection of storm sewer infrastructure. Drainage system operating and maintenance activities include, but are not limited to: natural and improved channel maintenance; creek, river and levee maintenance; cleaning and maintenance of storm sewers and inlets; and monthly sweeping of the City's major thoroughfares. The fee is billed and collected through the monthly water bill.

The FY 2012-13 projected revenue and rates are based on the 2009 rate and structure study. Proposed fees are based on size (gross parcel size), a calculated drainage area, and general use (raw vacant land, residential, or commercial) of each property within the City. FY 2012-13 projected revenue provides for at least a 30-day fund reserve in accordance with the City's Financial Management Performance Criteria.

MAJOR REVENUE SOURCES

WATER/WASTEWATER REVENUES

The Water Utilities Department is owned and operated by the City of Dallas as a self-supporting enterprise fund. The department receives no tax dollars and earns its revenues through the sale of water and wastewater services in five customer classes. These classes are Residential, General Service, Municipal, Optional General Service, and Wholesale. The wholesale customer class is comprised of 23 communities outside the City of Dallas which receives water service, and 11 communities, which receive wastewater service. Rates for each class are determined by a cost of service study that assigns costs to each class based on the department's cost to provide them with these services.

The breakdown of the source of revenues from these customer classes is as follows:

- 37.7% of the revenues come from the Residential class,
- 42.6% comes from the General class,
- 0.9% comes from the Municipal class,
- 3.1% comes from the Optional General class
- 15.8% comes from the Wholesale class.

These revenues are used to pay for the following:

- Operating and maintenance costs of providing water and wastewater service to customers,
- Debt service (principal and interest) on outstanding debt used to design and construct the facilities necessary to provide these services,
- Street Rental payment (equivalent to franchise fees assessed to other utilities) to the General Fund for the use of the City's right-of-ways,
- Cash funding for capital improvement facilities not funded through the sale of revenue bonds or other debt.

The Water Utilities Department also receives other miscellaneous revenues such as, but not limited to, interest earnings, connection fees, and system improvement contributions. In FY 2012-13, water and wastewater revenues will total \$564.0M including a 5.1% increase in retail revenues. Water revenues can fluctuate depending on the summer temperatures and the amount of rainfall in the area.

FINANCIAL MANAGEMENT PERFORMANCE CRITERIA

FY 2012-13 Proposed Budget Status

Operating Program

1. The City shall operate on a current funding basis. Expenditures shall be budgeted and controlled so as not to exceed current revenues plus the planned use of unassigned fund balance accumulated through prior year surplus. Nonrecurring or one-time revenues should, to the extent possible, only be used for one-time expenditures (expenditures not expected to reoccur and requiring future appropriations) to avoid future shortfalls.

2. The year-to-year increase of actual revenue from the levy of the ad valorem tax will generally not to exceed 8%:
 - Excluding taxable value gained by through annexation or consolidation;
 - Excluding the value gained through new construction;
 - Excluding expenditure increases mandated by the voters or another governmental entity; and
 - Not excluding the valuation gained through revaluation or equalization programs.

3. Debt will not be used to fund current operating expenditures.

4. All retirement systems will be financed in a manner to systematically fund liabilities. The City will assure sufficient funds are provided to pay current service plus interest on unfunded liabilities plus amortization of the unfunded liabilities over a programmed period. No less than annual reviews will be provided to Council by the pension funds.
5. Actuarial analysis will be performed annually on all retirement systems. Adjustments in benefits and contributions will be authorized only after meeting the test of actuarial soundness. All health plans should have actuarial reviews performed bi-annually to determine the required levels of funding necessary. These health plans shall be financed in a manner to ensure sufficient funds are available to fund current liabilities and provide some reserve levels for extraordinary claims.
6. Each enterprise fund of the City will maintain revenues which support the full (direct and indirect) cost of the fund. In addition, each Enterprise Fund and Internal Service Fund should maintain at least 30 days of budgeted operations and maintenance expense in net working capital, and avoid cash deficits.

7. The Emergency Reserve, a component of unassigned fund balance, shall be used to provide for temporary financing of unanticipated or unforeseen extraordinary needs of an emergency nature; for example, costs related to a natural disaster or calamity, a 5% decline in property values, or an unexpected liability created by Federal or State legislative action. Funds shall be allocated from the Emergency Reserve only after an analysis has been prepared by the City Manager and presented to City Council. The analysis shall provide sufficient evidence to establish that the remaining balance is adequate to offset potential downturns in revenue sources. The analysis shall address the nature of the adopted expenditure and the revenue requirement in subsequent budget years. Prior to allocating funds from the Emergency Reserve, the City Council shall find that an emergency or extraordinary need exists to justify the use of these funds. Funds shall be allocated each year in the budget process to replace any use of the Emergency Reserve funds during the preceding fiscal year to maintain the balance of the Emergency Reserve levels.

8. The Contingency Reserve, a component of unassigned fund balance, shall be used to provide for unanticipated needs that arise during the year: for example, expenses associated with new service needs that have been identified after the budget process, new public safety or health needs, revenue shortfalls, service enhancements, or opportunities to achieve cost savings. Funds shall be allocated from the Contingency Reserve only after an analysis has been prepared by the City Manager and presented to the City Council outlining the initial and recurring costs associated with the adopted expenditure. Additionally, these funds would be used prior to use of the Emergency Reserve funds. Funds shall be allocated each year in the budget process to replace any use of the Contingency Reserve funds during the preceding fiscal year and to maintain the balance of the Contingency Reserve at a level ranging from ½% to 1% of budgeted departmental expenditures.

\$84.1M is 8.1% of the proposed General Fund budget

10.A Risk Reserve shall be maintained at a level, which, together with purchased insurance policies, adequately protects the City's assets against loss. An analysis shall be conducted every three years or when the deductible level of the City's property insurance is modified (whichever is earlier), to determine the appropriate level of this reserve.

In Compliance

The proposed Risk Reserve level is \$1,250,000. It will be funded from the FY 2011-12 Risk Reserve ending balance of \$1,250,000.

11. A General Fund liability fund shall be budgeted annually to provide for outstanding and anticipated claims expense and resulting liabilities during the budget year. An individual judgment settlement cap is set at \$5,000,000. The Emergency Reserve will be accessed should the cap be exceeded. An independent actuarial analysis shall be conducted every two years to determine the appropriate level of this fund.

12. Consider the establishment of a Landfill Closure / Post-Closure Reserve to provide for any future potential liabilities. Analysis will be performed periodically to determine appropriate timing and amount of funding needs. Funds could be allocated from an increase in user fees.

13. Operating expenditures will be programmed to include current costs of fully maintaining City facilities, including parks, streets, levees, vehicles, buildings, and equipment. A cost benefit analysis will be performed on replacement cost versus projected required maintenance costs to determine the level at which City facilities should be maintained. The analysis will also determine the long-term cost of any potential deferred maintenance cost. Normal maintenance will be funded through the operating budget.

14. An annual assessment and five year projection for all equipment and maintenance needs should be performed, and a maintenance and replacement schedule developed based on the projection.

GLOSSARY OF BUDGET TERMINOLOGY

AD VALOREM TAX

A tax levied on the assessed valuation of real land and improvements and personal property located in the City.

AGENCY FUND

Agency fund consists of resources retained by the governmental unit as an agent for another governmental unit.

APPROPRIATION

An authorization made by the City Council that permits officials to incur obligations against and make expenditures of governmental resources.

ARBITRAGE

The interest earnings derived from invested bond proceeds or debt service fund balances.

ASSESSED VALUATION

This represents the total valuation of land and improvements and personal property less all properties exempt from tax. Also identified as taxable valuation.

BOND

A written promise to pay a sum of money on a specified date at a specified interest rate. General Obligation (GO) and Revenue Bonds are used for funding permanent capital improvements such as buildings, streets, and bridges.

BUDGET

A financial plan for a specified period of time that matches all planned revenues and expenditures with various municipal services. It is the primary means by which most of the expenditure and service delivery activities of a government are controlled.

CAPITAL CONSTRUCTION FUND

Capital construction funds are used to pay for capital projects which are not debt financed. Funding is usually derived from operating fund transfers.

CAPITAL EXPENDITURE

A capital expenditure is the acquisition or construction of an asset that has a useful life greater than one year.

GLOSSARY OF BUDGET TERMINOLOGY

CAPITAL GIFTS AND DONATIONS

Contributions by individuals or organizations for the purpose of funding capital improvements within the scope of interest of the donor.

CAPITAL IMPROVEMENT PROGRAM (CIP)

The City's plan to finance major infrastructure development and improvement. It is primarily funded through General Obligation Bonds and Revenue Bonds.

CAPITAL PROJECTS FUND

Fund used to account for and report financial sources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

CERTIFICATE OF OBLIGATION (CO)

A written promise secured by the full faith and credit of the City. Used for funding permanent capital improvements. Debt Service is paid from ad valorem taxes or operating revenues.

COMMERCIAL PAPER

A short-term promissory note offering flexibility to borrow as needed at the time of the actual award of projects instead of sale of bond. Used for interim financing for water and wastewater improvements.

COMMUNITY DEVELOPMENT BLOCK GRANTS (CDBG)

Federal funds available to municipalities specifically for activities and programs to create viable urban communities for low and moderate income persons.

CONTINGENCY RESERVE

A budgetary reserve which provides for unanticipated expenditures of a non-recurring nature.

CONTRACTUAL SERVICE

The cost related to services performed for the City by individuals, businesses, or utilities.

DEBT SERVICE

Sometimes referred to as the Interest and Sinking Fund, it is used to account for the accumulation of financial resources to meet the requirements of general obligation debt service and debt service reserve.

GLOSSARY OF BUDGET TERMINOLOGY

DEPARTMENT

A major administrative division of the City that indicates overall management responsibility for an operation or a group of related operations within a functional area.

EMERGENCY RESERVE

A budgetary reserve which provides for temporary financing of unforeseen needs of an emergency nature, unanticipated fluctuations in revenue, and individual judgment/settlement payments exceeding a \$5,000,000 liability cap.

ENCUMBRANCE

The commitment of appropriated funds to purchase an item or service.

ENTERPRISE FUND

These funds are fully supported by charges for service. Each fund establishes revenue-based fees and charges to recoup the costs of providing the services.

EQUIPMENT ACQUISITION NOTES

Short term note financing secured by the full faith and credit of the City used for funding capital equipment purchases. Debt service requirements are met with ad valorem or operating transfers from fee supported funds.

FIDUCIARY FUND

This type of fund accounts for assets held by the City in a trustee or agency capacity.

FINANCIAL MANAGEMENT PERFORMANCE CRITERIA

The City maintains Financial Management Performance Criteria (FMPC), established in the late 1970's to reflect financial policies that the City believes necessary for planning purposes and to measure sound financial condition. These criteria are applied to the ongoing management of the City's finances and covers the following aspects of financial management: operating programs; capital and debt management; accounting, auditing and financial planning; cash management; grants and trusts; and Dallas Water Utilities.

FINES AND FORFEITURES

Charges levied by City departments to individuals and businesses that are resolved through payment or loss of property.

GLOSSARY OF BUDGET TERMINOLOGY

FISCAL YEAR

The twelve-month period beginning October 1st and ending the following September 30th to which the annual budget applies.

FRANCHISE FEE

A fee levied by the City Council on businesses that use the City's right-of-way to deliver services. This fee is usually charged as a percentage of gross receipts.

FULL TIME EQUIVALENTS (FTE)

A unit used to quantify staffing. One FTE is a full year, 40 hour per week position. A part-time position working 20 hours per week or a temporary full-time position working six months would be 0.5 FTEs.

FULL YEAR FUNDING

The additional required funding necessary for twelve full months of operations related to positions and/or program funding added in the previous fiscal year. This funding complements prior year funding.

FUND

A fiscal and accounting entity with a self-balancing set of accounts (assets, liabilities, fund balance) which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

FUND BALANCE

The difference between a fund's assets and liabilities. For the purposes of this document, two different calculations are utilized. For the General Fund, the unreserved undesignated portion of fund balance is reported. For Other Funds, fund balance is reported as current assets less current liabilities less reserves for encumbrances. For non-enterprise funds, sick and vacation accruals are excluded. For multi-year funds, reserves for encumbrances are not excluded. For funds that utilize inventory accounting, inventory encumbrances are not deducted (to avoid double-reduction).

GENERAL CAPITAL RESERVE

Depository for proceeds from property sale, abandonments, or reimbursements of prior loans/advances providing funds for Capital Improvements and/or to provide interim financing for Capital Projects.

GLOSSARY OF BUDGET TERMINOLOGY

GENERAL FUND

This is the main operating fund of the City. It accounts for basic operating services such as Police, Fire, Streets, Sanitation, Code Enforcement, Park and Recreation, Library, Environmental and Health Services, and others.

GENERAL OBLIGATION BOND

Bonds used for funding permanent public capital improvements such as buildings, streets, and bridges. The repayment of these bonds is made from the levy of property tax. Voter approval is required to issue these bonds.

GRANT

A contribution by a government or other organization to support a particular function. Typically, these contributions are made to a local government from the state or federal government.

IN SERVICE DATE

Date on which a City facility is available to the public.

INTER-DEPARTMENT FINANCING

Short-term interim financing from one City department to another City department (necessary due to timing of project with permanent financing mechanism) with the repayment of the loan plus interest once permanent financing is in place.

INTEREST EARNED

Assets collected through investment of cash.

INTERFUND REVENUE

Assets transferred from one fund to another for services rendered. These are revenues from various funds that provide indirect cost payments to the General Fund. In addition, this revenue also includes Dallas Water Utilities street rental payment and surplus property auction revenue.

INTERGOVERNMENTAL REVENUE

Money collected from other governmental entities.

INTERNAL SERVICE FUND

Fund used to account for goods or services given to one department by another on a cost reimbursement basis.

GLOSSARY OF BUDGET TERMINOLOGY

KEY FOCUS AREA

Dallas City Council established the following Key Focus Areas: Public Safety; Economic Vibrancy; Clean, Healthy Environment; Culture, Arts and Recreation; Education and E³ Government.

LIABILITY RESERVE

Funds reserved for outstanding current and forecasted future liabilities.

LICENSE AND PERMITS REVENUE

These are revenues related to various license and permit fees.

MASTER LEASE

A short-term financing program offering flexibility to borrow as needed at the time of the actual purchase of equipment and technology improvements instead of the sale of equipment notes.

MISCELLANEOUS REVENUE

These are miscellaneous revenues from rental, gifts and donations, and collections for damages to City property.

MODIFIED ACCRUAL BASIS OF ACCOUNTING

Basis of accounting according to which (a) revenues are recognized in the accounting period in which they became available and measurable and (b) expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt and certain similar accrued obligations, which should be recognized when due.

ONE TIME RESOURCES

These are non-recurring revenues, which will be used for one-time expenses.

OPERATING AND MAINTENANCE COST

Operational cost incurred by a facility for one year.

OPERATING BUDGET

The personnel, supply, service, and short term capital expenditures of a department.

GLOSSARY OF BUDGET TERMINOLOGY

PERMANENT FUND

Fund used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for the benefit of the government or its citizenry.

PROGRAM

A sub-unit of a department.

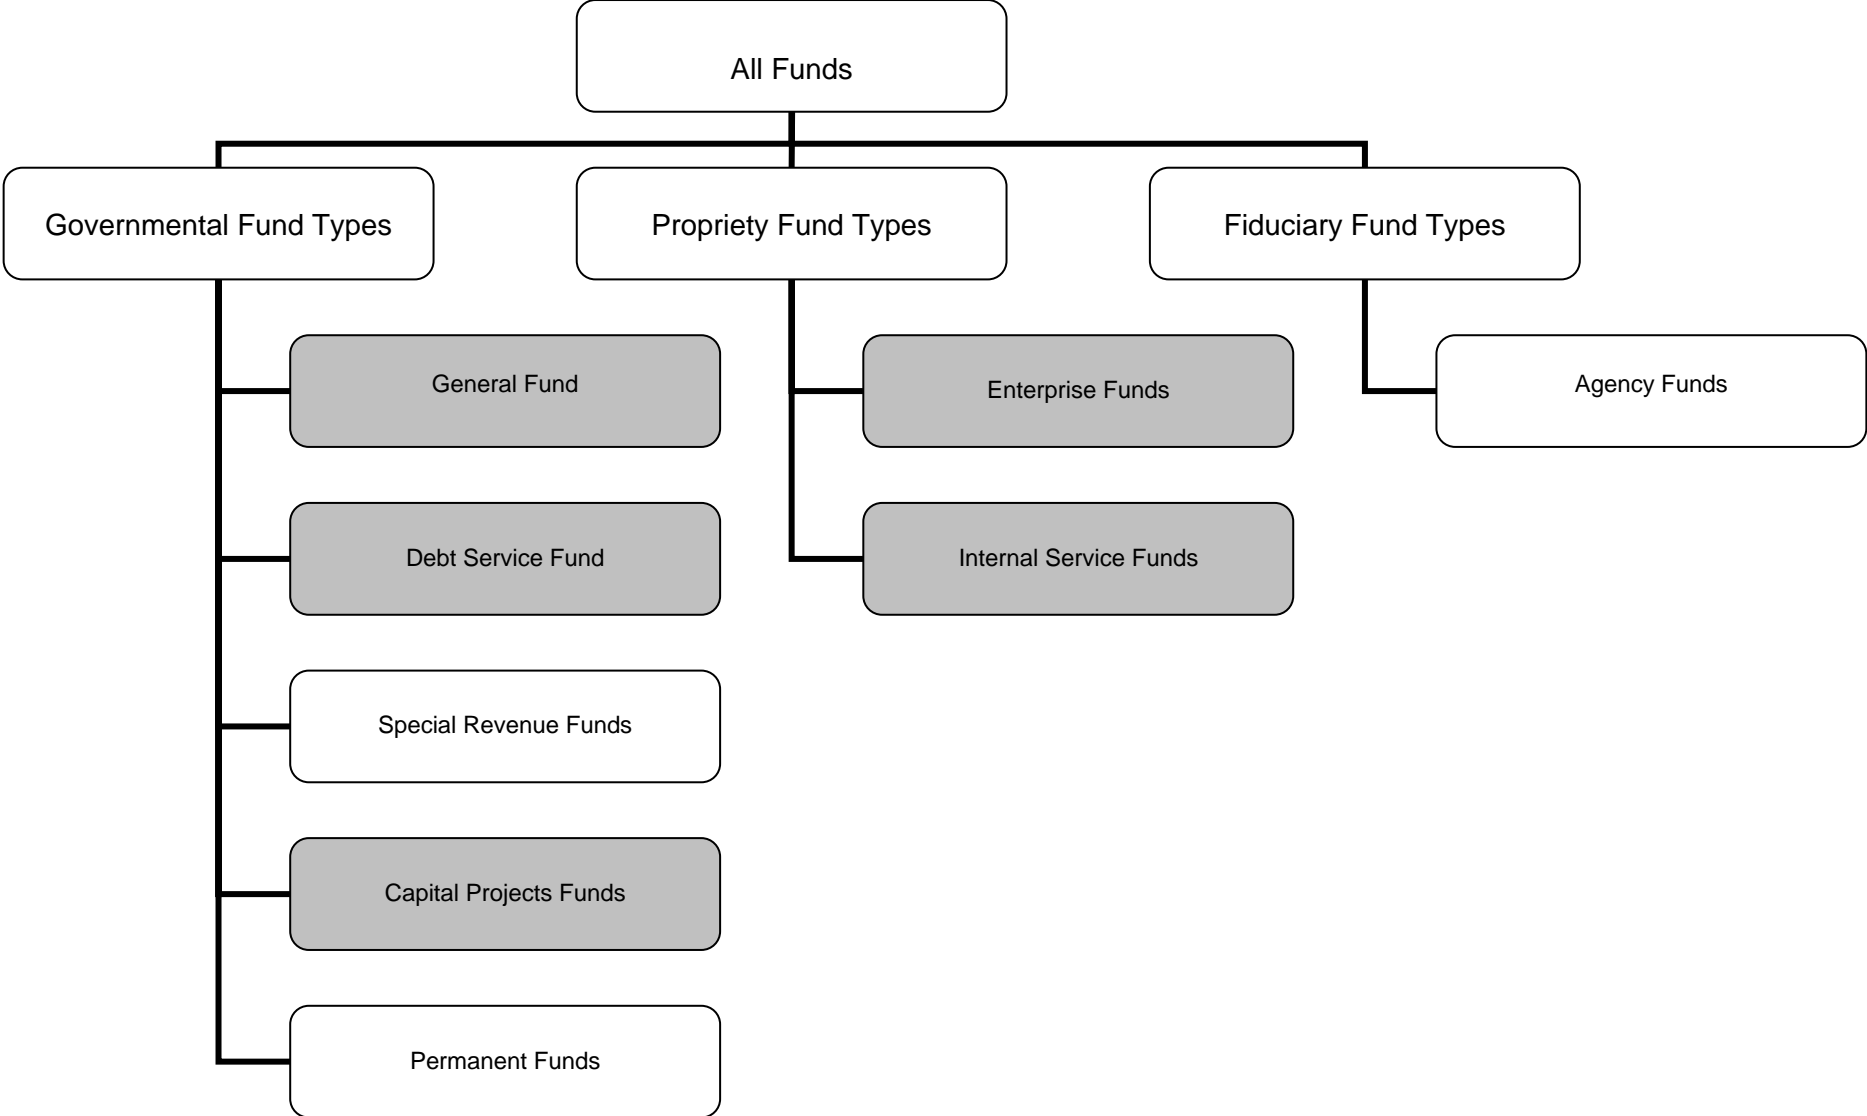

PROPRIETARY FUND

A proprietary fund is one having profit and loss aspects. The two types of proprietary funds are enterprise and internal service funds.

SPECIAL REVENUE FUND

Fund used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

COMMUNITY PROFILE CITY OF DALLAS, TEXAS

The City of Dallas was incorporated in 1856. The City Charter was adopted in 1907. Dallas is currently the third largest city in the nation with a Council-Manager form of government. There are fourteen single-member districts and a mayor elected at large. The Mayor and Council appoints the City Manager, City Attorney, City Auditor, City Secretary, and the Municipal Court Judges. The City Manager appoints all department directors except the director of Civil Service who is appointed by the Civil Service Board and the director of the Park and Recreation Department who is appointed by the Park and Recreation Board.
