

Hertz Car Rental
(Non-Industrial Facility)

Hertz Car Rental is a car rental service for public travelers utilizing Love Field. A new car wash has recently been constructed on the premises in order to service the rental vehicles. This carwash drains through a RO system which contains all of the water and allows it to be reused this system is periodically pumped out by a contractor and disposed of properly. Any vehicle maintenance performed on-site is done inside the maintenance bay. A fuel bay provides gasoline and motor oil, using newly installed underground storage tanks. (Three old aboveground petroleum storage tanks are no longer used.) Key employees are trained in spill response. Safety meetings are conducted as needed. This facility does not conduct any deicing activities.
