# Community Wildfire Protection for The Trinity Forest

**Transportation and Trinity River Project Committee**9 February 2015

### Purpose

- Provide a General Overview of the Dallas Fire-Rescue ["DFR"] Wildland Fire Program
- Provide a General Overview of the Trinity River Forest Response Plan
- Discuss Issues, Recommendations, and Action Items

### **DFR Wildland Team**

- Started in June 2010 with a \$200,000 Urban Areas Security Initiative ["UASI"] Grant
- A coordinator was selected to establish the program and to create Dallas' first Wildland Strike Team as part of the Special Operations Division
  - To address Wildland Urban Interface ["WUI"]
     Issues
- Partnered with the Texas A&M Forest Service for training and technical support

### DFR Wildland Team

#### Grant funds paid for:

 Wildland Personal Protective Ensemble ["PPE"]

DALLAS

- Wildland Hoses and Nozzles
- Hand Tools
- Radios
- Chain Saws
- Protective Shelters
- Initial Wildland Training Course

### DFR Wildland Team Composition

90-MEMBER TEAM

6 - BATTALION CHIEFS

24 - COMPANY OFFICERS

60 - DRIVERS & FIRE RESCUE OFFICERS

 Cross Trained Members [Structural & Wildland] that are assigned to various stations and only respond as Wildland Firefighters during state calls for assistance

## Great Trinity Forest ["GTF"]

### The Plan

- Addresses the following areas
  - Access Points
  - Equipment
  - Operations
    - Initial and Extended
  - Support Equipment
  - Post Incident Activities

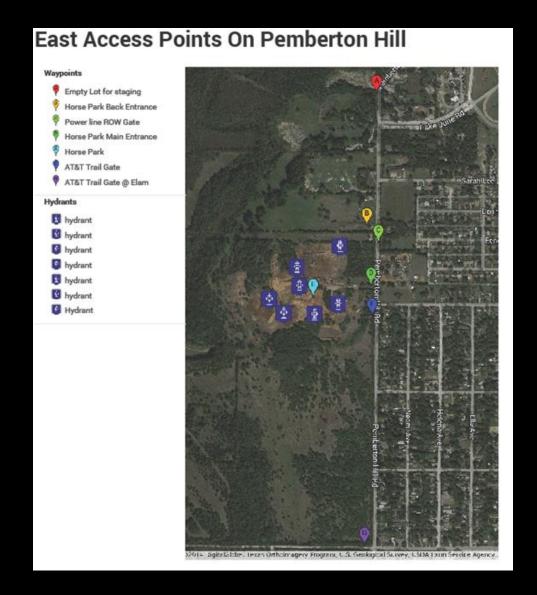

### Access Points

- Comprehensive Risk Assessment Completed
  - September and October 2014
  - Evaluated the Entire TGF
- Access Points Were Identified
  - Met with Responders, Local Stakeholders, and Dallas Water Utilities' Geographical Information Services Division
- Determined Viable Access Points and Evaluated Suitability
- Created Maps of Access Points

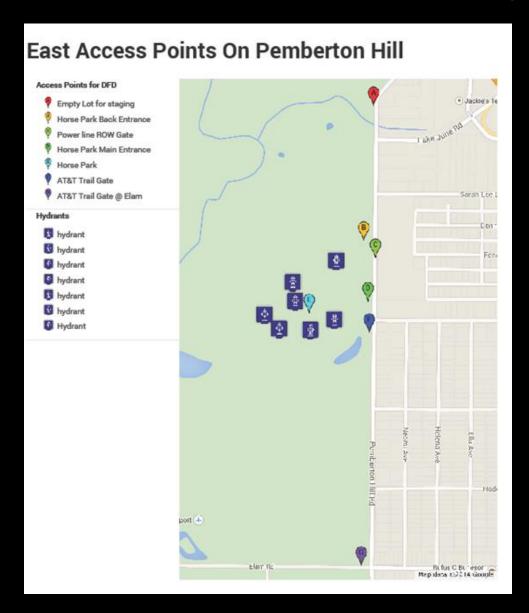

## **Examples of Access Points**

# Example of Access Point - Aerial View Map

### Example of Access Point – Simple Map

### Equipment

- Evaluated Current Equipment
  - Hand Tools, Personal Protective Equipment,
     Vehicles, hose size, etc.
- Took Delivery of New Equipment
  - Type 3 Boosters
  - New All Terrain Vehicles ["ATVs"]
- Future Equipment
  - Unpiloted Aerial Vehicles ["UAVs"]

# Equipment Type 3 Booster

# Equipment Type 6 Booster

# Both Types of Boosters

### All Terrain Vehicle

## Hand Tools

### Chain Of Wetlands Training Exercise

- At the end of September 2014, conducted a training exercise
  - Invited FOX4 News to film
- Lessons Learned
  - Type 3 Boosters Provide Flexibility
  - We can reduce our footprint in the GTF and other vital areas (Minimum Impact Suppression Tactics)
  - Ongoing Team Training is Vital
  - Coordinated Attack Requires Additional Staffing

## Chain of Wetlands Training

# Chain of Wetlands Training Pump and Roll Operations

# Chain of Wetlands Training Pump and Roll Operations

# Chain of Wetlands Training Progressive Hose Lays

### Operations

- Initial Size-Up
  - Determine Closest Access Point
- Life Safety Issues
  - Rescue vs. Attack
  - Minimum Impact Suppression Tactics
    - Hand Crew and Strike Team Members
- Extended Operations
  - What additional resources will be needed?
- Support Equipment
- Post Incident Activities
  - After Action Reports

### Hand Crew Members Elite Wildland Firefighters

### Hand Crew Members Elite Wildland Firefighters

### Issues & Recommendations

- Heavy Fuel Load
  - Fuel Mitigation Projects
- Maintaining Access Points
  - Have Oncor Maintain Clear ROW
- Continue to Work Towards a Community Wildfire Protection Plan
  - Continue to Work With Our Partners (Local, State, and Federal)

### **Action Items**

- Create and Attach Access Point Signs
- Train First Responders AND
  - Battalion Chiefs
- Create and Distribute Map Books
