

# All About EarthFest

**EarthFest** is the premier Earth Day celebration for Dallas' downtown community, offering an opportunity to get out of the office to celebrate, learn, and appreciate the environment on which we depend.

**Fun** EarthFest is a street fair with food, music, and lots to see. A variety of acts and activities take place on the event's two stages throughout the day. Face painters and balloon artists add to the fun!

**Environment** EarthFest offers a unique window into the environment through over seventy exhibits seldom gathered in one place. Experts are on hand to demonstrate, answer questions and discuss.

**Fashion** EarthFest's Recycled Fashion Show connects highly creative, cutting-edge design with recycled materials. Some designs are fun, some are professionally executed, but the results are always astounding.

**Education** EarthFest features an educational track that allows groups of students to learn from real-life professionals and then take their experiences back to the classroom.

**Clean-Up** As part of EarthFest, teams of volunteers from a large number of downtown Dallas businesses participate in a range of downtown cleanup activities.

**Recognition** EarthFest offers a unique venue for community leaders to highlight and recognize contributions and achievements that benefit the environment.

**Sponsors** EarthFest is made possible through the generous support of sponsors, providing leadership in connecting vital environmental information with the community. A range of sponsorships is available, allowing participation in EarthFest at many levels.

## EarthFest 2008

Friday, April 18, 2008 • Downtown Dallas  
Pegasus Plaza, AT&T Plaza
