## **City to spray for West Nile Virus in Lake Highlands area**

*Human cases of West Nile disease in Dallas total 35*

*Mosquito collections positive for West Nile Virus now total 62 in the City*

**Dallas** – Responding to West Nile disease and mosquito collections positive for West Nile Virus, City of Dallas mosquito control crews will spray the Lake Highlands area in north Dallas. Spraying is scheduled for Sunday night, September 10, 2006 after 10:30 p.m. and will conclude prior to 6 a.m. Monday morning September 11, 2006.

### **Control Area** ([Map](#))

The area to be sprayed is bounded by DART rail, Plano Road, Estate Lane and Audelia Road.

Residents in the above area should avoid contact with the spray by staying indoors. Persons in a vehicle when trucks are actively spraying should remain in their vehicles with the windows up and the air conditioner on until the trucks pass and the spray is no longer visible. Persons out when spraying is to take place should be alert for trucks and should not follow them. If contacted by the spray, wash the affected area thoroughly with soap and water. The spray breaks down quickly in the presence of sunlight and has no residual effect.

### **Protection against mosquito bites**

Dallas residents are **urged** to take precautions against mosquito bites by reducing outdoor activity during evening and nighttime hours. Residents who are outside during these times should cover their arms and legs and use a mosquito repellent.

### **Prevent mosquito breeding**

Residents should **eliminate** standing water to prevent mosquito breeding and the spread of West Nile Virus. Breeding places for mosquitoes include swimming pools that are not kept clean, stagnant ponds, pet watering dishes, birdbaths, potted plants, old tires, empty containers, toys and clogged rain gutters. Standing water should be eliminated promptly, as mosquitoes can grow from egg to adult in as little as seven days.

To report standing water or mosquito problems Dallas residents should call 3-1-1. For additional information on Mosquito Control, visit the City's website at [www.dallascityhall.com](http://www.dallascityhall.com).
