Kimball Area Workshop Activity

The purpose of today's workshop is to begin a conversation about the community's vision for the Kimball Area.

Each of you has a worksheet that asks very specific questions about the community and your assessment of the Kimball Area.

Also at each table is a facilitator who will help guide the conversation. At the end of the workshop activity, each table will report their responses to the questions. If there is something that has already been said, we'll place a checkmark by that response and move on.
