Review of Data

• Lieutenant Mark Stallo, Caruth Police Institute, conducted a review of the data, complaints, and training of the Dallas Police Department in regards to racial profiling.

• The analysis of the Dallas Police Department report showed that the Department is in compliance with applicable Texas law on the collection of racial profiling data.
Review of Data, cont’d

- The Department is committed to providing all information required and complying with the Racial Profiling Law.

- To ensure that the data collected is as accurate as possible, it is recommended that continued training of officers include understanding and distinguishing the difference between the Texas Driver License/Identification Card race/ethnicity codes and the codes to be used on the citations. Officers do not ask drivers for their race or ethnicity, but use the appropriate code based on observation only.

• DVR (Digital Video Recorder) Management Control provides accountability and review.
  – 100% of all marked squad cars (935) that routinely make traffic stops are equipped with in-car video cameras.
  – Regular reviews by supervisors and the DVR Review Team ensure departmental accountability by identifying conduct that might bring discredit to the Department, training opportunities for improvement, development of field operating procedures, and observances of commendable behavior.

I. Letter to the Citizens of Dallas from Chief of Police David O. Brown
February 07, 2014

Dear Citizens:

The 2013 Police Traffic Contact Data report is the twelfth annual report issued by the Dallas Police Department.

The report summarizes traffic contacts between Dallas police officers and citizens. It provides an overview of contacts distributed by race and the number of arrests and searches. The report also summarizes citizens’ complaints of alleged racial or other profiling investigated by the department’s Internal Affairs Division.

We are confident the information contained in this report will serve as further evidence of our commitment to fair and equitable treatment of all citizens and will serve as a foundation to strengthen our bond within the community.

We believe the Dallas Police Department is a professional organization made up of caring and hardworking individuals. We will continue to expect the very best from our employees while providing law enforcement services to the community.

David O. Brown
Chief of Police
II. Background
What does it mean when an Agency Reports as Racial Profiling-Tier 1-Partially Exempt?

Each agency must select the reporting option that applies to their particular situation.

When an agency chooses to report as Partial Exemption or Tier 1 Reporting, the agency is stating it routinely performs traffic stops or motor vehicle stops and the vehicles that routinely perform these stops are equipped with video and audio equipment. Law enforcement agencies that routinely perform traffic stops or motor vehicle stops and who have their vehicles that routinely perform these stops equipped with video and audio equipment can report under the Texas State Code of Criminal Procedure Article 2.135. To report under this option, the Agency vehicles that conduct motor vehicle stops must be equipped with video and audio equipment and the agency must maintain videos for 90 days after the stop. Optionally, in accordance with 2.135(a)(2) the agency can also file under Tier 1 if it has requested and not received funds to install the recording equipment.

The data collected for Tier 1 (Partial Exemption) reports must include:

- the number of motor vehicle stops
- the number of types of race or ethnicity of the person(s) who were stopped was
- the number of stops that the race or ethnicity was known prior to the stop
- the number of stops in which a search was conducted
- number of searches that consent was received prior to search

The Chief Administrator of the Agency must also certify that they have adopted a detailed written policy on racial profiling. The policy must:

(1) clearly define acts constituting racial profiling;
(2) strictly prohibit peace officers employed by the agency from engaging in racial profiling;
(3) implement a process by which an individual may file a complaint with the agency if the individual believes that a peace officer employed by the agency has engaged in racial profiling with respect to the individual;
(4) provide public education relating to the agency’s complaint process;
(5) require appropriate corrective action to be taken against a peace officer employed by the agency who, after an investigation, is shown to have engaged in racial profiling in violation of the agency’s policy adopted under this article;
(6) require collection of information relating to motor vehicle stops in which a citation is issued and to arrests made as a result of those stops, including information relating to:
   (A) the race or ethnicity of the individual detained;
   (B) whether a search was conducted and, if so, whether the individual detained consented to the search; and
   (C) whether the peace officer knew the race or ethnicity of the individual detained before detaining that individual; and
(7) require the chief administrator of the agency, regardless of whether the administrator is elected, employed, or appointed, to submit an annual report of the information collected under Subdivision (6) to:
   (A) the Texas Commission on Law Enforcement; and
   (B) the governing body of each county or municipality served by the agency, if the agency is an agency of a county, municipality, or other political subdivision of the state.
Racial Profiling Reporting To Texas Commission on Law Enforcement (TCOLE)

House Bill 3389 changed several portions of the Code of Criminal Procedures Article 2.131 – 2.138. The major change that is now in the law is that all agencies must report racial profiling data to TCOLE as well as their governing body.

The attached documents outline three options. Every law enforcement agency must select the option that applies to their particular situation.

These options are:

1. **Exempt** - Law enforcement agencies that do not routinely make motor vehicle stops can be fully exempt from reporting.
2. **Partial Exemption** - Law enforcement agencies that routinely perform traffic stops or motor vehicle stops and who have their vehicles that routinely perform these stops equipped with video and audio equipment can report under CCP 2.135. (This is called Tier 1 Reporting)
3. **Full Reporting** - Law enforcement agencies that routinely perform traffic stops or motor vehicle stops and who do not equip their vehicles with video or audio equipment must report under CCP 2.133 and perform an analysis as required by CCP 2.134.
CODE OF CRIMINAL PROCEDURE

TITLE 1: CODE OF CRIMINAL PROCEDURE

CHAPTER 2. GENERAL DUTIES OF OFFICERS

Art. 2.131. RACIAL PROFILING PROHIBITED. A peace officer may not engage in racial profiling.

III. Responding to the Texas Racial Profiling Law
DALLAS POLICE DEPARTMENT
PHILOSOPHY STATEMENT

- It is the goal of the Dallas Police Department to provide public safety service that is both effective and fair.

- To achieve this goal, racial profiling is strictly forbidden and will never be tolerated in the Dallas Police Department.

- The reality and the perception by all citizens must be that police officers do not stop, detain, or take enforcement action based solely upon race, color, or ethnicity.

- Racial profiling incurs the cost of eroding the trust between police and citizens, thus undermining the legitimacy of police actions.

- Through determination, vigilance, and training, the Police Department will foster and maintain the confidence of all citizens in the integrity and professionalism of its police officers.

- All citizens must believe that the administration of justice is applied fairly and that racial profiling is never used as a means of enforcement.

- They must also believe that they will be judged solely on their own conduct and never on racial generalizations.

- The Dallas Police Department is committed to protecting the rights of all citizens. This commitment extends to maintaining the trust and confidence of citizens through fair application of the law.

David O. Brown
Chief of Police
431.07 Racial Profiling

A. Racial Profiling is defined as any law enforcement-initiated action based on an individual's race, ethnicity, or national origin rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity.

B. "Race or Ethnicity" is defined as a person's particular descent, including Caucasian, African, Hispanic, Asian, or Native American descent.

C. Examples of "Racial Profiling" including, but are not limited to:
   1. Initiating a traffic stop on a particular vehicle because of the race, ethnicity, or national origin of the driver or of a passenger in a vehicle.
   2. Stopping or detaining the driver of a vehicle or passenger in a vehicle based on the determination that a person or that race, ethnicity, or national origin is unlikely to own or possess that specific make or model of vehicle.
   3. Stopping or detaining an individual based upon the determination that a person of that race, ethnicity, or national origin is unlikely to be in that place or part of town.
   4. Stopping a driver when looking for a suspect if the only commonality between the suspect and the driver or a passenger is their race, ethnicity, or national origin.
   5. Singling out an individual for enforcement who is part of a group of individuals exhibiting similar behavior (for example, a group of drivers exceeding the speed limit) because of the individual's race, ethnicity, or national origin.
   6. The unlawful seizure and/or forfeiture of a person's assets based on ethnicity or a person's descent.

D. "Racial Profiling" is strictly prohibited. At no time will a sworn employee rely upon racial profiling in any probable cause or reasonable suspicion determination.

E. Acceptance and Investigation of "Racial Profiling" Complaints.
   1. "Racial Profiling" complaints will be handled in accordance with Texas Government Code, Section 614.021-614.023, as interpreted by the City Attorney.
   2. Procedures for accepting "Racial Profiling" complaints from citizens are described in General Order 505.02 Externally Originated Complaints. Procedures include complaints made by telephone, in writing, and in person.
   3. The Police Department will be responsible for providing public education relating to the process for filing "Racial Profiling" complaints. This includes:
      a. Internal Affairs Division pamphlets;
      b. Public service announcements on local radio stations, television stations, and newspaper; and
      c. Newspress releases.
   4. An allegation of "Racial Profiling" against any officer will be investigated in the manner described in General Order 507.00 COMPLAINT PROCESSING AND INVESTIGATION. A sustained complaint for "Racial Profiling" will result in corrective action described in General Order 510.00 TYPES OF CORRECTIVE ACTION from summary discipline to discharge.

F. Data Collection
   1. On January 1, 2002 Court and Detention Services of the City of Dallas began collecting data on all traffic stops and providing the information to the Dallas Police Department for compilation and analysis, in accordance with Article 2.132 of the Texas Code of Criminal Procedure.
   2. The most recent census data for the City of Dallas will be used as the basis for the presumed ethnic composition of the population. Other available data, such as the effect of commuters or other non-residents on the ethnic composition of the population, may be considered.
   3. The information will be reported in a format that may include, but is not limited to the reporting of the data in numerical and/or percentage categories of race or ethnicity of the individual detained, whether a search was conducted, and if so, whether the person detained consented to the search.
   4. The information collected will be submitted to the governing body of the City of Dallas on March 1 of the subsequent years.
   5. It is the intention of the Dallas Police Department to fulfill the data collection requirements of Article 2.132 of the Texas Code of Criminal Procedure to be effective January 1, 2003 through the utilization of video equipment.

A. Training
   1. All officers will receive formal, documented training in the "Racial Profiling" policy and procedures.
   2. Training will be included in basic and in-service classes for all sworn personnel and will include examples of racial profiling.
   3. All new and current officers must complete training by September 1, 2003.

B. Supervisors have the responsibility of monitoring the activities of subordinates to ensure that "Racial Profiling" is not being practiced. Supervisors will take immediate corrective action if these practices are observed and will document the infraction accordingly.

Training On Racial Profiling

In compliance with the Texas Racial Profiling Law, the Dallas Police Department requires that all officers adhere to Texas Commission on Law Enforcement (TCOLE) training and the Law Enforcement Management Institute of Texas (LEMIT) requirements as mandated by law.

All Dallas Police Department officers are required to complete TCOLE training and education program on racial profiling not later than the second anniversary of the date the officer is licensed under Chapter 1701 of the Texas Occupations Code or the date the officer applies for an intermediate proficiency certificate, whichever date is earlier. All officers who on September 1, 2001, held a TCOLE intermediate proficiency certificate, or who had held a peace officer license issued by TCOLE for at least two years, completed a TCOLE training and education program on racial profiling prior to September 1, 2003.

Racial Profiling training provided by the Dallas Police Department includes:

• The Core Curriculum for the training cycle, September 1, 2003 through August 31, 2005, included an eight hour block of instruction on Racial Profiling, Cultural Diversity, and on Texas Senate Bill 1074. This training was mandatory for all sworn personnel. See Attachment J in Section 5 of this report for lesson plan information and classroom handouts.

• The Police Department produced a video training tape that provided instruction on Senate Bill 1074, and demonstrated examples of actions that would be considered racial profiling. All sworn Dallas Police Department personnel viewed the videotape training.

• Five Roll Call Training Bulletins covering Racial Profiling and Data Collection were distributed to all sworn personnel during 2001 – 2003, 2008, 2010, and 2011 which included a video.

• All recruits are required to complete four (4) hours of racial profiling training prior to graduation from the academy.

• Every officer is required by TCOLE to attend a Core Curriculum training cycle every 2 years. The curriculum agenda is set forth by TCOLE which often times includes some form of racial or ethnic sensitivity training.

RACIAL PROFILING DATA COLLECTION

HB 3389 amends the data and circumstances required by law as it relates to the collection of racial profiling data. Some of the key operational changes are listed below:

- The term “Traffic stop” was replaced with the term “Motor vehicle stop,” thereby removing pedestrian stops from circumstances in which data is required to be collected.
- The race or ethnicity of Middle Eastern descent has been added as a category to be reported.
- The officer must confirm if the race or ethnicity was known prior to the motor vehicle stop.

The data collection process used by the Police Department will be updated with the issuance and use of the new citation series.

Data will be collected when enforcement action is taken as a result of a motor vehicle stop. Data is gathered based on the enforcement action resulting in either a citation(s) or a custodial arrest.

- **Citations** – Changes include answering the yes or no question, “Race known prior to stop?” located in the upper right corner of the new citations. Officers will utilize the code of “C” to identify defendants of Middle Eastern descent when completing the “race” portion of a citation.

The chart below serves as a reminder for the codes to be used for various race and ethnicities. Specifically, the codes identified as the Traffic Court System Code should be utilized for citations.

• **Custodial Arrests** – Arresting officers are responsible for completing the electronic form located on the DPD Intranet link under Applications/Tier 1 Data. A jail supervisor's badge number is a required field on the form. Additionally, the form is available on the Intranet accessible via MDC. The Officers' Comments section of the arrest report should reflect that the electronic form was completed due to the enforcement action resulting from a motor vehicle stop. Arresting officers should also use the electronic form for Warrants Only arrests resulting from motor vehicle stops and should note that the form was completed in the comments section of the Warrants Only form.

The electronic form is user friendly with most of the data collected by checking option buttons. Please fully complete the form, including Reviewing Supervisor and Arrest Number. When you have completed the form, click on the Submit button and the data will be electronically collected.

Further clarification:
1.) The electronic form will be completed only when a custodial arrest occurs as a result of a motor vehicle stop.
2.) For citations only, all required data is collected from the correctly completed citation. No electronic form is needed.
3.) For arrests resulting from a motor vehicle stop in which the arrested person is also issued a citation, officers are required to enter the citation number and arrest number on the electronic form.

Other reminders:
1.) The proper completion and submission of the Tier I Data form is the sole responsibility of the arresting officer.
2.) Officers will not ask the person cited or arrested his/her race or ethnicity. The officer will make the determination to the best of their ability.
3.) Officers are required to fully complete each citation, including the question “Race known prior to stop?” when the citations results from a motor vehicle stop.
4.) Officers must include the beat and zip code information on all citations and arrest reports.
5.) A search resulting from a custodial arrest should be identified as a non-consensual search.

See the attached copy of the new citation series with the addition of “Race Known Prior to Stop?” in the top right corner and a copy of the updated electronic form.

You may contact Lieutenant Gary Tittle at 214-671-3905 if you have questions or concerns.

Blue Team Procedures for Consensual Searches

Consensual Searches with no documentation or audio/video recording are NO LONGER ALLOWED

Written Consent to Search is required on all residences and buildings. Verbal Consent to Search may be requested on traffic stops if the consent is recorded on a functioning Departmentally Issued device.

Further detailed information on the policy regarding Consensual Searches may be obtained by reviewing General Order 330.00 or by viewing Every Day Is A Training Day Video – “Consensual Searches”

Officers are required to document all consensual searches that are conducted, even if no seizure or arrest is made. A Blue Team entry will be completed on all consensual searches in addition to the reports required by General Order 330.00. The Blue Team entry must be completed prior to the end of shift.

Blue Team Procedures

- Officers will scan their signed Consent to Search form (if utilized) and save the form to a computer or USB thumb drive to be attached to the Blue Team entry.
- Once logged into Blue Team, officers will click on “Add new Incident” and select “Consent to Search” from the drop down list.
- Officers will enter the Incident Type “Consent to Search” and the date, time, and location of the search.
- Continue to the next page and enter a narrative detailing the events surrounding the consensual search in the “Summary” section.
- On the next page, select “Add Complainant” and enter the citizen’s information into the system or select the appropriate citizen if they are already in Blue Team.
- Next, the officer will select “Add me” under the involved officer section.
- Using the “Officer Options” drop-down list, the entering officer will select the type of search conducted.
  - Consent to Search – Residence
  - Consent to Search – Business
  - Consent to Search – Person
  - Consent to Search – Vehicle
- Any witness should be added at this time.
- Continue to the next page and attach the signed Consent to Search that was saved earlier to the USB thumb drive. If audio/video consent was obtained, the recording should be transferred and stored according to General Order 330.00. Do not save the audio/video recording in Blue Team.
- Upon completion of the Blue Team incident, the officer will immediately forward the entry to their immediate supervisor.

If you have any questions, please contact Sergeant Nancy Felix, #5345 at 214-671-3982
IV. Tier One Data
Collection and Reporting Requirements for Tier One Data

The following are the requirements for "Tier One" data collection and reporting as required under Senate Bill 1074.

Tier One data collection reports are to be provided by the Dallas Police Department to the Dallas City Council by March 1st for the previous calendar year's contact data.

For motor vehicle stops in which a citation is issued and to arrests made as a result of those stops, the department shall report:

1. The race or ethnicity of the individual detained (race and ethnicity as defined by the bill means of "a particular descent, including Caucasian, African, Hispanic, Asian, Native American or Middle Eastern descent");

2. Whether a search was conducted as a result of the traffic stop, and if there was a search, whether the person detained consented to the search; and

3. Whether there was a custodial arrest as a result of the traffic stop.

The report includes raw contact data as collected under Tier I data collection requirements and percentage contact data distributed by race.

The Dallas Police Department uses the label "Traffic Contacts" in this report when referring to Tier One data.

Caution should be exercised in interpreting percentage data because of statistical distortions caused by small numbers in some categories. For example; if one American Indian is stopped and searched, that data would be reported as 100% of American Indians stopped were searched. If 200 Caucasians were stopped and 100 were searched, that data would be reported as 50% of Caucasians stopped were searched.
Tier One Data:

- Total number of Dallas Police Department discretionary traffic contacts resulting in citation or arrest
- Searches resulting from those traffic contacts
- Custodial arrests resulting from traffic contacts
- Complaints against DPD personnel alleging racial profiling

COMPARATIVE BASELINES:

- Population
Traffic Contact Information

Dallas Police Traffic Contacts Resulting in Citation or Arrest:

- Data provided by Dallas Police Department includes:
  - total traffic contacts,
  - searches during contacts,
  - number of consensual searches, and
  - number of custodial arrests resulting from traffic contacts.

- Consensual searches include only discretionary searches for which the officer reported requesting and receiving permission to search.

- Non-consensual searches include; frisk/pat-down (officer safety), search incident to arrest (required), vehicle inventory (required when vehicle impounded), probable cause without permission.

- All custody arrests were assumed to have non-consensual searches (search incident to arrest) and were so listed.

All Traffic Contacts and City of Dallas Population Baselines

Dallas Population Baselines:

- Census population data includes all residents of the community sorted by Race/Ethnicity.
- Census data includes all ages regardless of whether they are, or are not, among the driving population.
- Census population baselines do not provide data for comparing contacts with non-residents.
- Officers make an assessment of each individual’s ethnicity, they do not ask. Therefore, some Hispanic persons may be listed as White by officers, which would be reflected in the contact statistics.

RACIAL PROFILING ANALYSIS

Prepared By:

Mark Stallo, Ph.D.
Lieutenant of Police
Dallas Police Department
This report reflects motor vehicle stop activities of the Dallas Police Department for the calendar year 2013 as required by Article 2.132 of the Texas Code of Criminal Procedure.

**Statistical Data on Racial Profiling**

The following data was collected from January 1 – December 31, 2013. It summarizes the number of motor vehicle stops in which a citation was issued or an arrest made; the number of searches made during those stops; the number of consensual searches; and the number of custodial arrests resulting from those stops, as it relates to the race or ethnicity of the individuals detained. In addition, the analysis indicates whether or not the officer knew the race of the individual being stopped.

Officers are to record the race/ethnicity on stops in which enforcement action is taken based on observation to the best of their ability, and not to rely solely on the Texas Driver License or Identification Card issued to the individual, which does not include the same race/ethnicity categories as defined in Art. 2.132 (a) (3). The policy of the Dallas Police Department is that officers will not ask a person for their race or ethnicity.

The overall number of traffic contacts decreased from 134,489 in 2012 to 112,531 in 2013. This also corresponds with the decrease of approximately 15% in the number of traffic mark-outs in 2013 compared to the previous year. While the total number of traffic contacts, searches from contacts, number of consensual searches, and traffic related custody arrests declined compared to the previous year, the percentage of traffic contacts by race remained relatively unchanged.

Mobile Video Recorder Program

The Dallas Police Department has been in the forefront of advocating the use of cameras for documentation of police/citizen contacts, and it remains our belief that only through this method will an accurate evaluation of issues relating to these contacts be possible. This philosophy has been entwined in the current legislation, which was collaboratively written by Senator Royce West and the Dallas Police Department.

The Dallas Police Department applied for and received audio/video equipment under Art. 2.137. As of 2013, audio/video cameras have been installed in one hundred percent of the nine hundred thirty-five (935) vehicles that routinely perform motor vehicle stops. The Department is thus exempted from “Tier Two” data collection and reporting requirements.

DVR Review Team

The Mission of the DVR Review Team (Digital Video Recorder) is to preserve the integrity of the Dallas Police Department through regular reviews of the content of police in-car digital video recordings to ensure compliance with Departmental rules and regulations, as well as local, state, and federal laws.

Regular reviews ensure departmental accountability by identifying conduct that might bring discredit to the Department, training opportunities for improvement, development of field operating procedures, and observances of commendable behavior.

Supervisors also conduct regular reviews of videos from officers under their command as required by TX77RSB1074; at a minimum, these reviews are to be conducted at least twice each year for all patrol officers assigned to them to
determine both exemplary and inappropriate behavior, as per General Order 328.03 D1.

As of November 2013, consensual searches with no documentation or audio/video recording are no longer allowed. Officers are required to document all consensual searches that are conducted, even if no seizure or arrest is made.

**Complaints Regarding Racial Profiling**

The Dallas Police Department has established procedures for accepting complaints regarding Racial Profiling from citizens, and provides public education relating to the process for filing such complaints. Complaints regarding Racial Profiling are handled in accordance with Texas Government Code, Section 614.021-614.023, as interpreted by the City Attorney.

The following are the number of complaints alleging racial profiling for the past five years. All complaints in the previous years have been Unfounded or Not Sustained.

UNFOUNDED — the investigation determined that the act or acts complained of did not occur.
NOT SUSTAINED — the investigation failed to disclose sufficient evidence to prove or disprove the allegation.
Conclusion

The Dallas Police Department is committed to providing all information required and complying with the Racial Profiling Law. The Department continues to take steps to ensure that it also complies with the intent of the law.

Based on the data, number of complaints, training, and philosophy of the Department, no evidence of a pattern of racial profiling by the members of the Dallas Police Department was found. The Department is in compliance with applicable Texas law on the collection of racial profiling data.

SUBJECT: Memorandum of Understanding – North Texas Anti-Trafficking Team

The Police Department seeks authorization to enter into a Memorandum of Understanding (MOU) as a sub recipient awarded up to $181,200 with an In-Kind Match up to $118,560. The two year agreement between the City of Dallas and the North Texas Anti-Trafficking Team members; Arlington Police Department (Primary Grantee), Fort Worth Police Department, and Mosaic Family Services will be from January 1, 2014, through September 30, 2015.

The North Texas Anti-Trafficking Team was established in 2005 under the guidance of the U.S. Attorney’s Office, Northern District of Texas. All members have agreed to combine investigative efforts with the North Texas Trafficking Task Force under the supervision and direction of U.S. Immigration and Customs Enforcement, Homeland Security Investigations. Memorandum

DATE: February 7, 2014

TO: Honorable Members of the Public Safety Committee: Sheffie Kadane (Chair), Adam Medrano (Vice Chair), Dwaine Caraway, Jennifer S. Gates, Sandy Greyson, Scott Griggs

SUBJECT: Allocation of the FY 2013-14 Internet Crimes Against Children Cooperative Working Agreement

The City of Dallas has been awarded funding in the amount of $477,337 for the Internet Crimes Against Children (ICAC) program from the U.S. Department of Justice, Office of Juvenile Justice and Delinquency Prevention. $156,151 is awarded for cooperative working agreements. This grant does not require a cash match from the City of Dallas.

This funding will pay for cooperative working agreements with the District Attorney’s Offices in Dallas, Tarrant, and Potter Counties, the Sheriff’s offices in Collin, Taylor, and Wichita Counties, the police departments in Arlington, Garland, Longview and Lubbock, and the Dallas Children’s Advocacy Center. Financial support from this on-going grant program has allowed the satellite agencies to purchase equipment, send officers to advanced training classes, and pay for undercover operations in their respective jurisdictions across north Texas to address the growing problem of web-based exploitation of children. The grant also pays for full salary and benefits for two Dallas police detectives, equipment, travel and training, and undercover expenses for the Police Department’s ICAC squad.

The City is seeking recommendation from the Public Safety Committee to accept the FY2013-14 Internet Crimes Against Children Grant Award and allocate a portion of this award to our sub-grantees from the U.S. Department of Justice, Office of Juvenile Justice and Delinquency Prevention. This item will be placed on the City Council Agenda on February 12, 2014.
