Memorandum

DATE 25 April 2014

TO Transportation and Trinity River Project Committee Members: Lee Kleinman (Vice Chair), Deputy Mayor Pro Tem Monica Alonzo, Mayor Pro Tem Tennell Atkins, Sandy Greyson, and Sheffie Kadane

SUBJECT Transportation and Trinity River Project Committee Meeting Agenda

Monday, 28 April 2014, at 1:00 p.m. until 3:00 p.m. (Extended)
Dallas City Hall - 6ES, 1500 Marilla Street, Dallas, TX 75201

The agenda for the meeting is as follows:

1. Approval of the 14 April 2014 Minutes [Estimated 2 Minutes]

2. Update on Dallas Floodway Environmental Impact Statement (EIS) [Estimated 55 Minutes]
   Rob Newman, Director of Trinity River Project Army Corps of Engineers

3. Dallas Love Field Gate Leases [Estimated 40 Minutes]
   Mark Duebner, Director, Aviation

4. Streetcar Production – Final Phase [Estimated 10 Minutes]
   Keith Manoy, Assistant Director Public Works

5. Upcoming Council Agenda Item(s) [Estimated 5 Minutes]
   - Authorize acquisition, including the exercise of the right of eminent domain, if such becomes necessary, from the City of Irving, of an unimproved tract of land containing approximately 20 acres located on the east bank of the Trinity River near the west termination of Mexicana Drive for the Dallas Floodway Project - Not to exceed $39,700 ($36,700 plus closing costs and title expenses not to exceed $3,000) – Financing: 2006 Bond Funds
   - Authorize acquisition, including the exercise of the right of eminent domain, if such becomes necessary, from the John G. Campbell Trust, of an unimproved tract of land containing approximately 4 acres located on Wildwood Drive near its intersection with California Crossing Road for the Elm Fork Flood Control Project - Not to exceed $18,279 ($16,079 plus closing costs and title expenses not to exceed $2,200) – Financing: 1998 Bond Funds

Adjourn

Should you have any questions, please do not hesitate to contact me.

Vonciel Jones Hill, Chair
Transportation and Trinity River Project Committee

"A quorum of the Dallas City Council may attend this Council Committee meeting."
A closed executive session may be held if the discussion of any of the above agenda items concerns one of the following:

1. Contemplated or pending litigation, or matters where legal advice is requested of the City Attorney. Section 551.071 of the Texas Open Meetings Act.

2. The purchase, exchange lease or value of real property, if the deliberation in an open meeting would have a detrimental effect on the position of the City in negotiations with a third person. Section 551.072 of the Texas Open Meetings Act.

3. A contract for a prospective gift or donation to the City, if the deliberation is an open meeting would have a detrimental effect on the position of the City in negotiations with a third person. Section 551.073 of the Texas Open Meetings Act.

4. Personnel matters involving the appointment, employment, evaluation, reassignment, duties, discipline or dismissal of a public officer or employee or to hear a complaint against an officer or employee. Section 551.074 of the Texas Open Meetings Act.

5. The deployment, or specific occasions for implementation of security personnel or devices. Section 551.076 of the Texas Open Meetings Act.

Transportation and Trinity River Project Council Committee Meeting

Meeting Minutes

Meeting Date: 14 April 2014  Convened: 1:04 p.m.  Adjourned: 2:07 p.m.

Councilmembers:
Vonciel Jones Hill, Chair
Lee Kleinman, Vice Chair
Mayor Pro Tem Tennell Atkins
Deputy Mayor Pro Tem Monica Alonzo
Sandy Greyson
Sheffie Kadane

Councilmembers Absent: None

Other Councilmembers Present:
Rick Callahan
Dwaine R. Caraway

Staff Present:
Rick Galceran, P.E., Director, Public Works
Liz Fernandez, Director, Trinity Watershed Mgmt.
Keith Manoy, Assistant Director, Public Works
Sarah Standifer, Assistant Director, TWM
Tim Starr, P.E., (I) Assistant Director, Public Works

AGENDA:

1. Approval of the 24 February 2014 Meeting Minutes
   Presenter(s): Vonciel Jones Hill, Chair
   Action Taken/Committee Recommendation(s): Motion was made to approve the 24 February 2014 Transportation and Trinity River Project Council Committee meeting minutes.

   Motion made by: Kadane  Motion seconded by: Atkins
   Item passed unanimously: X  Item passed on a divided vote: _____
   Item failed unanimously: _____  Item failed on a divided vote: _____

2. Trinity Parkway - Environment Impact Statement (EIS)
   Presenter(s): Dan Chapman, Vice President, HNTB
   Information Only: X

3. Streetcar Production – Final Phase
   Presenter(s): Keith Manoy, Assistant Director, Public Works
   This item was postponed and moved to the next agenda.
4. **Upcoming Council Agenda Item(s)**
   **Presenter(s):** Liz Fernandez, Director, Trinity Watershed Management and Rick Galceran, Director, Public Works

   - Authorize (1) acceptance of a donation of $12,615 from the Trinity Trust Foundation for the purpose of hiring an intern for the Southwest Airlines Conservation Corps program; and (2) the establishment of appropriations in the amount of $12,615 in the Trinity Trust Foundation Fund - SW Airline Conservation Corps – Financing: Revenue

   - Authorize (1) an increase in the construction contract with AUI Contractors, LLC for construction of the Levee Drainage System – Hampton-Oak Lawn sump, also referred to as the Baker No. 3 Pump Station; and (2) extend the contract by an additional ninety-days - Not to exceed $4,616,624, from $37,961,493 to $42,578,117 - Financing: General Obligation Commercial Paper Funds

   - **DRAFT - Street Resurfacing and Street Improvements for 2014**
     * Authorize a contract with NPL Construction Company, Inc., lowest responsible bidder of four, in the amount of $14,648,832 for the construction of pavement surface improvements for Street Resurfacing and Street Improvements for 2014 (list attached) - Not to exceed $14,648,832 - Financing: 2012 Bond Funds ($14,555,136) and Water Utilities Capital Construction Funds ($93,696)
     * Authorize a professional services contract with Kleinfelder Central, Inc., to provide construction material testing during the construction of the Street Resurfacing and Street Improvements for 2014 (list attached) - Not to exceed $187,139 - Financing: General Obligation Commercial Paper Funds

   - Authorize a one-year construction services contract to provide micro-surfacing and slurry seal for Street Services - Intermountain Slurry Seal, Inc., lowest responsible bidder of four - Not to exceed $4,118,575 - Financing: Current Funds (subject to appropriations)

**Action Taken/Committee Recommendation(s):** Motion was made to move all items forward to full City Council for consideration.

   Motion made by: Atkins
   Item passed unanimously: X
   Item failed unanimously: 

   Motion seconded by: Alonzo
   Item passed on a divided vote: 
   Item failed on a divided vote: 

Adjourn
( 2:07 p.m.)

Vonciel Jones Hill, Chair
Transportation and Trinity River Project Council Committee
25 April 2014

The Honorable Members of the Transportation and Trinity River Project Committee: Vonciel Jones Hill (Chair), Lee Kleinman (Vice Chair), Deputy Mayor Pro Tem Monica Alonzo, Mayor Pro Tem Tennell Atkins, Sandy Greyson, Sheffie Kadane

Subject

Update on Dallas Floodway Environmental Impact Statement (EIS)

On Monday, 28 April 2014, you will be briefed on the Dallas Floodway Project Draft Feasibility Report and Environmental Impact Statement

Please let me know if you have any questions or need additional information.

Jill A. Jordan, P.E.
Assistant City Manager

THE TRINITY
DALLAS

C.: A.C. Gonzalez, City Manager
  Warren M.S. Ernst, City Attorney
  Craig D. Kinton, City Auditor
  Rosa A. Rios, City Secretary
  Daniel F. Solis, Administrative Judge
  Ryan S. Evans, (l) First Assistant City Manager
  Forest E. Turner, Assistant City Manager

Joey Zapata, Assistant City Manager
Charles M. Calo, (l) Assistant City Manager
Theresa O'Donnell, (l) Assistant City Manager
Jeanne Chipperfield, Chief Financial Officer
Shawn Williams, (l) Public Information Officer
Elsa Cantu, Assistant to the City Manager – Mayor & Council

“Dallas, The City That Works: Diverse, Vibrant and Progressive.”
UPDATE ON DALLAS FLOODWAY

ENVIRONMENTAL IMPACT STATEMENT [“EIS”]

Transportation and Trinity River Project Committee

Rob Newman
Director, Trinity River Corridor Project, Fort Worth District

28 April 2014
Purpose of Today’s Briefing

- Update the Transportation and Trinity River Committee on the progress of the project since the 21 August 2013 City Council
- Outline steps to sign a Record of Decision [“ROD”] on the Dallas Floodway Project
Outline of Today’s Briefing

- Review Flood Risk Management Plan
- Results Comprehensive Analysis
- Overview Recommended Plan for Dallas Floodway Project
- Path Forward to the signed ROD
Two (2) Federal Projects in the Floodway

Dallas Floodway
In study phase (today’s briefing)

Dallas Floodway Extension
In construction phase
Levee Section at Commerce
Water Surface Elevations

Existing Levee
Elevation 429.40

Ground Elevation
about 400.00

Average low flow conditions that stay within the river channel of the Dallas Floodway
Elevation 382.00

1500-year Flood
Trinity Parkway Flood Protected Elevation 419.06

100-year Elevation 417.06
Same as 1908 flood of record

May 1990
47-year Flood Elevation 415.24

June 2007
5-year Flood Elevation 408.38
1990 Flood Event

Water level is approximately 15 Feet below crest of the levee
Review of the Flood Risk Management Plan
Review of Flood Risk Management Plan

- United States Army Corps of Engineers [“Corps”] and City of Dallas [“City”] utilized an integrated approach for identifying a Flood Risk Management Plan for improving the levee system
- Utilized results from risk assessment and economic analyses
- Analyzed both structural and non-structural measures
Review of Flood Risk Management Plan

Non-structural measures initially considered by the Corps

- Flood Forecasting and Warning
- Floodplain Management
- Flood Proofing
- Raising Structures in Place
- Structure Relocation
- Permanent Evacuation
Flood Risk Management Plan

Structural measures initially considered by the Corps

• Channel widening
• Vegetation removal
• Floodwalls
• Levee armoring [i.e. covering the levee with concrete]
• Seepage cut-off walls as flood risk management
• Controlled overtopping with levee raises [i.e. creating a known point for the flood waters to spill over the levee into the protected side]
Flood Risk Management
Tentatively Selected Plan Identified

Three (3) recommended actions:

• About $10 million dollars total
  • AT&SF Bridge modifications/partial removal
  • Raise the levees to contain a 277,000 cubic feet per second [“cuffs”] flow
    • This flow equates to a 2,500-year flood event
  • Improvements to the City’s Emergency Action Plan
Flood Risk Management Plan
Modification of the AT&SF Bridge

- Retain a 350-foot section of historic wooden trestle associated with the Santa Fe Trestle Trail
Flood Risk Management Plan
Modification of the AT&SF Bridge

- Remove embankments and remaining narrowly spaced wooden piers that block flood flows
Comprehensive Analysis
The Water Resources Development Act in 2007 [“WRDA 2007”] directed the Corps to ensure that the Balanced Vision Plan and Interior Drainage Plan are “technically sound” and “environmentally acceptable”

- Technical soundness is determined by completing comprehensive analysis of hydrology and hydraulics* [“H&H”], geotechnical, and civil design
- Environmental acceptability is determined by completing National Environmental Policy Act [“NEPA”] process

*H&H analysis determines the amount of runoff, depth, extent, and velocity of the flood waters coming down the river
Comprehensive Analysis

Comprehensive Analysis compared three (3) alternatives:

• **Alternative 1 (No-Action):** No additional projects except those already approved for construction (Horseshoe, Sylvan, Pavaho Wetlands, East Bank/West Bank Interceptor, Baker Pump Station, Pavaho Pump Station, Santa Fe Trestle Trail, and Dallas Water Utility Pipelines)

• **Alternative 2:** Projects to be built including the Balanced Vision Plan [“BVP”] projects, Interior Drainage Plan [“IDP”] projects, and Trinity Parkway 3C

• **Alternative 3:** Alternative 2 with slight variations minus the Trinity Parkway 3C
Comprehensive Analysis Results
Alternative 1 (No Action)

• H&H
  • Meets 1988 Trinity River Environmental Impact Record of Decision [“TREIS ROD”] Criteria

• Geotechnical
  • No impacts

• Civil Design
  • No impacts

• Environmental
  • No additional impacts
Comprehensive Analysis Results
Alternative 2

H&H

• While it does not meet TREIS ROD Criteria, the Corps is proposing a variance because deviations are insignificant

• With removal of the AT&SF bridge the floodway becomes more efficient in conveying floodwaters

• Potential for water surface rise of about one inch downstream of the floodway for the 100-year and SPF flood events due to valley storage loss
Comprehensive Analysis Results
Alternative 2

• Geotechnical
  • Trinity Parkway would add width to the base of the levee, thereby strengthening the levee from potential internal erosion
  • Cut-off walls maybe required along the portions of the levees where the river is relocated closer to the levees
  • Lakes depth, with the proposed clay liner, does not substantially increase seepage risk

• Civil Design
  • Minor overlap of designs for BVP, IDP and local features occur, but can be corrected during future design with minimal effort

• Environmental
  • Net increase in wetland and river ecosystem habitat quality
Comprehensive Analysis Results
Alternative 3

H&H
- While it does not meet TREIS ROD Criteria, the Corps is proposing a variance because deviations are insignificant
  - With removal of the AT&SF bridge the floodway becomes more efficient in conveying floodwater
  - Potential for water surface rise of about one inch downstream of the floodway for the 100-year and SPF flood events due to valley storage loss

Geotechnical
- Same as Alternative 2 improvements to levee, but without full Parkway benching

Civil Design
- Same as Alternative 2 with more recreation features

Environmental
- Net increase in wetland and river ecosystem habitat quality
Comprehensive Analysis
Conclusions

• Trinity Parkway, BVP and IDP features have been determined individually to be technically sound at current level of design

• Potential negative impacts related to deviations from 1988 ROD criteria are insignificant; a variance to ROD is currently proposed

• With slight modifications of the expected design refinements, all features would function on a comprehensive system wide level from a Corps Civil Works perspective
Comprehensive Analysis
Environmental Acceptability

• Final Determination is not made until Corps Headquarters signs the ROD

• Before the ROD is signed, Corps solicits public and agency comments

• Granting of Section 404/408 Permits will follow signing of ROD

• Section 404/408 Permits gives City approval for construction of the project
Recommended Plan
Recommended Plan

- WRDA 2007, Section 5141, authorized $459 million total budget for Recommended Plan
  - Includes cost share of 65% federal and 35% non-federal
  - The city can spend a portion of its cost share portion before the Corps begins spending money
Recommended Plan

• The cost share portion of the project cannot exceed the WRDA authorization of $459 million plus inflation
  • The cost share portion includes flood risk reduction and ecosystem restoration

• Remaining BVP and IDP projects will be constructed by the City through the Section 408 process

• Accommodates Trinity Parkway construction by other entity (Alternative 2)
Recommended Plan (Alt 2)  
Flood Risk Management

• Levee
  • Raise levee low spots along 9.3 miles of levees to meet 277K flow
  • Low spots to be filled from borrow pit of future site of West Dallas Lake
  • Modify AT&SF Bridge
  • 3:1 to 4:1 slopes may be funded by City

• Interior Drainage
  • Baker Pump Station
  • Able Pump Station
  • Hampton Pump Station
Recommended Plan (Alt 2)
Ecosystem Restoration

• River Relocation
  • Adds meanders back to river
  • Builds habitat pools to improve aquatic diversity

• Corinth Wetlands
  • Expands existing wetland; Corps participates in excavation and plantings
  • City may construct recreational features such as boardwalks and trails
Recommended Federal Plan (Alt 2)
Recommended Plan (Alt 2)

Cost Sharing Summary

• Total Cost: $529.1 million

• Federal Cost: $343.9 million

• Non-Federal Share: $185.2 million
  • 5% cash on Flood Risk Management: $10.4 million
  • Estimated Credit: $115.5 million
  • Lands, Easements, Rights of Ways and Relocations: $59.3 million

• Bottom line for City: $10.4 + $59.3 = $69.7 million still needed
Path Forward
Next Milestones

• 45-day public comment period started 18 April 2014

• Corps Dallas Floodway Public Hearing on Draft EIS
  ➢ 8 May 2014, L1FN Auditorium, Dallas City Hall
  ➢ Open house at 5:30 p.m., hearing begins at 6 p.m.

• Complete drafting Final EIS and Feasibility Report for Dallas Floodway Project and signing of Record of Decision, by Assistant Secretary of Army for Civil Works, anticipated December 2014

• Once the project is approved, Federal funding will require Federal Appropriations
Questions/Comments?
Memorandum

DATE 25 April 2014

to The Honorable Members of the Transportation and Trinity River Project Committee: Vonciel Jones Hill (Chair), Lee Kleinman (Vice Chair), Monica Alonzo, Tennell Atkins, Sandy Greyson, and Sheffie Kadane

SUBJECT Dallas Love Field Gate Leases

On Monday, 28 April 2014, the Transportation and Trinity River Project Committee will be briefed on the Dallas Love Field Gate Leases. The material is attached for your review.

Theresa O'Donnell
(1) Assistant City Manager

C: A.C. Gonzalez, City Manager
    Warren M.S. Ernst, City Attorney
    Craig D. Kinton, City Auditor
    Rosa A. Rios, City Secretary
    Daniel F. Sultis, Administrative Judge
    Ryan S. Evans, (l) First Assistant City Manager
    Jill A. Jordan, P.E., Assistant City Manager

Forest E. Turner, Assistant City Manager
    Joey Zapata, Assistant City Manager
    Charles M. Cato, (l) Assistant City Manager
    Jeanne Chipperfield, Chief Financial Officer
    Shawn Williams, (l) Public Information Officer
    Elsa Cartu, Assistant to the City Manager – Mayor & Council

“Dallas-Together, we do it better”
Background

• Dallas Love Field
  – 20 gates (per the five-party agreement and Wright Amendment Reform Act)
  – 4.2 million enplanements in 2013
  – Classified as a “Medium Hub” by Federal Aviation Administration [“FAA”]

• Airports can lease gates on following basis
  – Exclusive use – Airlines have full control, including branding and scheduling, over space
  – Preferential use – Airlines have control but gives right for airport to allow new entrants to operate at gates that are not being fully utilized
  – Common use – gate space and time of use is managed by the airport
Background

• Dallas Love Field [“DAL”] has leased all available gates on a preferential use basis
  – Southwest Airlines - 16 gates
  – United Airlines - 2 gates
  – American Airlines - 2 gates
• Typically, ten flights or “turns” per gate is full utilization
Background

- American filed for bankruptcy in November 2011
- In February 2013, American and US Airways proposed a merger as a way out of bankruptcy for American
- In August 2013, the United States Department of Justice [“DOJ”] and attorneys general from six (6) states and the District of Columbia filed an antitrust lawsuit in an attempt to stop the proposed merger
Terms of Proposed Settlement

• In November 2013, DOJ announced a proposed settlement of the antitrust litigation
  – DOJ is requiring gates and slots to be divested to low-cost carriers
• In December 2013, the bankruptcy court approved the merger; however, the antitrust suit is still awaiting final resolution
Terms of Proposed Settlement

• Under the terms of the proposed settlement, American will divest
  – 52 slot pairs at Washington Reagan National Airport
  – 17 slot pairs at New York LaGuardia Airport
  – 2 gates at Boston Logan International Airport
  – 2 gates at Chicago O'Hare International Airport
  – 2 gates at Miami International
  – 2 gates at Los Angeles
  – 2 gates at Dallas Love Field
Terms of Proposed Settlement

• Asset Preservation Order and Stipulation:
  – “Defendants shall not, except as part of a divestiture approved by the United States...remove, sell, lease, assign, transfer, pledge, or otherwise dispose of their respective divestiture assets”

• Proposed Final Judgment:
  – “‘acquirer’ or ‘acquirers’ means the entity or entities, approved by the United States in its sole discretion”
Current Status

• To date, there has been interest expressed in the two (2) gates, should they become available

• The City has not actively solicited interest for the gates from any airline
Because of Love Field’s unique history, there are three key controlling documents that affect the leasing activities:

- Wright Amendment Reform Act
- The Five-Party agreement
- City’s use and lease agreement with American Airlines
Wright Amendment Reform Act of 2006

Based on local Five-Party Agreement

- City of Dallas, City of Ft Worth, American Airlines, Southwest Airlines, DFW International Airport
- Flight restrictions end on October 13, 2014, however the following restrictions will remain
  - No international flights
  - Love Field capacity limited to twenty (20) gates

- Required City & Southwest Airlines to collaborate on modernization of Love Field
Local Five Party Agreement

Other provisions

- City negotiated a voluntary noise curfew precluding scheduled service between 11pm and 6am
- Both Cities are to oppose efforts to initiate commercial passenger service at any airport other than DFW until October 2014
  - If another airport within 80 mile radius attempts to initiate commercial service, both cities will work to bring that service to DFW, or if that fails, to airports owned by Dallas or Fort Worth
Use & Lease Agreements

- Twenty (20) year term, ending 2028
  - Airlines with little activity can exit leases early in 2018 and 2023
- All gates leased on a “Preferential Use” basis, rather than exclusive
- All baggage areas (outbound & inbound) leased as “common use”
- Office, operations and ticket counter space leased as exclusive use
- All space subject to “accommodation provisions” for new entrant airline access to terminal
Use & Lease Agreements

• Leases are structured to be consistent with the Five-Party Agreement commitments
  – Expanded scope of the lease of terminal space, included terms for the use of the Airport, including the airfield, aircraft parking ramp;
    • Incorporated Landing Fee & new Apron Fee in lease rate model
  – Incorporated new cost recovery rate model approved in the Term Sheet
    Allocates Airport costs to Terminal, Apron, Airfield cost centers
    • Airlines pay cost of Love Field Modernization Program ("LFMP") thru allocations of cost to square foot rental rate
    • Protects non-airline tenants from paying for LFMP
- Developed guidelines for future capital improvements [“CIP”];
  • CIP funded in rate base, airlines have approval rights for certain capital improvements affecting their rates
Use & Lease Agreements

• Allows for the sub-lease of the gates
  – American Sub-leased to Delta in July 2009
  – American Sub-leased to Seaport Airlines in June 2011

• If the right to use the preferential gates ceases, they become common use
  – Common use gates are managed by the airport and available to all airlines requesting space to conduct flights until full
Gate Assignments*

*As per current leases
Analysis

• The City has not received formal proposals nor has it solicited any
• City retained a consultant, L.E.K. Consulting L.L.C., to evaluate the public statements of plans by the interested carriers
• Goal was to be prepared for further discussions with American and the Department of Justice regarding the disposition of the gates
• On April 16, 2014, the City received notice from the Department of Justice that American and Virgin American had reached an agreement and that agreement satisfies the Department of Justice
Consultant Credentials

- L.E.K. is a leading strategic advisor to the global airline industry, whose clients include more than half of the top fifty (50) airlines around the world
- Chief architect of the merchandizing (ancillary revenue) movement in the U.S. industry and around the globe
- Extensive work with the most successful and innovative airports and airport groups around the globe
  - Numerous successful engagements developing innovative retail masterplans
  - Traffic forecasting
  - Buy- and sell-side advisory work for airport privatizations
Consultant Scope of Work

• Identify key benefits to Dallas Citizens and Dallas Love Field
• Determine what aligns strategically with continued support of DFW
• Establish weighted criteria to evaluate the public plans from each airline
• Create framework for how the City will evaluate common use proposals, if necessary
Best for Dallas Citizens & Travelers

• Carrier with quality customer service
• Responsible carrier, sensitive to impacts to the community including noise
• Carrier willing to be part of the community
• Broad network with multiple destinations
• Enhancing competition
• Carrier offering various products and services
Best for Love Field

- Fiscally sound carrier
- Modern Fleet
- Sub-lease, carrier manages schedule
- Team player on airport operations and emergency management
- Supports mission of airport
- Environmentally sensitive, cognizant of noise issues
- Diversity of tenants
Best Strategically with DFW

- Minimizes direct competition to ongoing success to DFW
- Focus on domestic routes
- No diminution of service at DFW
- Service that compliments what is presently available at DFW
- Balancing needs of both DFW and Love Field
Love Field Gate Recommendations
Assessment of optimal use of American’s divested
Love Field gates for the City of Dallas

April 28, 2014
In its settlement with American, the DOJ is requiring AA to divest its two preferential use gates at Dallas Love Field (DAL)

- American Airlines will have to relinquish the gates at all airports under “commercial terms and conditions identical to those pursuant to which the gates and facilities are leased to New American”
  - There is no restriction on whether American can receive compensation for sub-leasing the gates
- The DOJ’s intent with the divestiture is to create competition for American out of Dallas by leveraging the more convenient location of DAL to give an advantage to a new entrant
  - The DOJ claims rights to approve the selected carrier; their focus is on increased competition and facilitating new opportunities for low cost carriers
    “… The goal of the divestiture remedy is to enhance the ability of the LCCs to frustrate coordination among the legacy carriers …”
    The U.S. Department of Justice
- The DOJ prefers the gates be assigned to an LCC versus remain open for common use, to ensure that a new entrant has the right number and time for slots to compete effectively
- The final agreement prohibits the merged company from reacquiring an ownership interest in the divested slots or gates
  “… Section XII of the proposed Final Judgment prohibits the merged company from reacquiring an ownership interest in the divested slots or gates during the term of the Final Judgment …”
  The U.S. Department of Justice

Source: The U.S. Department of Justice
**Delta**, **Virgin America**, and **Southwest**, have expressed interest in **American's** (AA) two gates at DAL

**Proposed routes (flights/day)**
- **Delta**:
  - ATL (6)
  - LGA (5)
  - MSP (3)
  - DTW (3)
  - LAX (5)
- **Virgin America**:
  - LAX (4)
  - SFO (4)
  - LGA (4)
  - DCA (4)
  - ORD (2)
- **Southwest**:
  - CLT
  - PHL
  - DTW
  - MSP
  - EWR
  - SFO
  - SJC
  - OAK
  - SMF
  - PDX
  - BOS
  - RDU
  - MEM
  - IND
  - ECP
  - CHS

**Proposed aircraft**
- **Delta**:
  - CRJ-900 (76 seats)
  - Boeing 717 (110 seats)
- **Virgin America**:
  - A320 (146 seats)
- **Southwest**:
  - 737-700 (143 seats)
  - 737-800 (175 seats)

**Additional considerations**
- **Delta**:
  - Requesting gates for common use, which Delta would then use as needed
  - Requires 3 gates for its full plan, implying potential access to United’s gates
- **Virgin America**:
  - Dallas area expansion plans contingent upon obtaining 2 DAL gates
  - Virgin has stated that they would exit DFW
- **Southwest**:
  - Southwest already has 16 of 20 gates at DAL
  - Southwest cannot fly out of DFW without relinquishing DAL gates, so this is their most realistic expansion opportunity

**Proposal thesis**
- **Provide DAL with 1-stop access to global destinations**
- **Offer a competing network of flights with a differentiated product and lower fares to large business markets from DAL**
- **Introduce meaningful competition to American Airlines and more destinations from DAL**

Source: Analysis of formal airline proposals, announced intentions of gate usage by carriers, previous airline behavior
Given the City’s responsibilities, Dallas residents and the local business community should be seen as the primary stakeholders in the gate decision.

**Key stakeholders**

**Primary stakeholders**
- Dallas residents
- Local business community

**Secondary stakeholders**
- DAL airport
- DAL airport employees
- DFW airport

**Other stakeholders not included in this analysis**
- DOJ
- American Airlines

**Primary needs and motivations:**
- Greatest number of non-stop destinations from Dallas (DAL + DFW)
- Low fares
- Greatest number of non-stop destinations from Dallas (DAL + DFW)
- Best possible flight schedule / frequency of service
- New convenient premium class service at DAL
- Increased business activity
- Maximum traffic through the airport, increasing airport revenues
- Minimum risk of airline service level changes
- Maximum job creation
- Minimum direct route overlap between DFW and DAL, to reduce potential passenger loss
- Increased competition for AA in Dallas
- Greater LCC presence in Dallas and nationally
- Minimize number of competitors in the Dallas area
- Minimize direct route overlap

Source: Project team research and analysis
The City’s main objective should be to maximize O&D passenger throughput across both DAL and DFW, as that would represent maximum utility for stakeholders.

### Objectives

<table>
<thead>
<tr>
<th>Tier 1 objectives</th>
<th>Tier 2 objectives</th>
<th>Tier 3 objectives</th>
</tr>
</thead>
<tbody>
<tr>
<td>Increase non-stop destinations from DAL</td>
<td>Maximize O&amp;D passenger throughput across DAL &amp; DFW</td>
<td>Add convenient premium class service at DAL</td>
</tr>
<tr>
<td>Lower fares from DAL</td>
<td>Minimize route overlap with DFW</td>
<td>Increase number of DAL jobs</td>
</tr>
<tr>
<td>Add a partner that will contribute to the community</td>
<td></td>
<td>Airline stability and commitment at DAL</td>
</tr>
</tbody>
</table>

### Needs met

- More non-stop destinations from DAL
- Greatest number of key routes being served (demonstrated by demand)
- Maximize DAL aero & non-aero revenue
- Maximize local economic growth
- Maximize indirect jobs in Dallas
- Lower fares caused either by an increase in competition or new LCC entrant
- Limited cannibalization of existing DFW passenger volume
- New premium (first class) service to key cities from the more convenient DAL location (vs. DFW)
- Increase DAL jobs
- Minimize risk to DAL and City of Dallas given reliance on limited airlines; ensure longstanding commitment
- Commitment to the community

### Stakeholders supported

- Residents
- business community
- DAL airport
- DAL airport employees
- DFW Airport
- AA
- business community
- Residents
- DAL airport
- DAL airport employees
- Residents
- business community

Southwest’s proposal would likely lead to the highest number of non-stop destinations from DAL.

Proposed DAL destination airports for WN, VX and DL

<table>
<thead>
<tr>
<th>Airline</th>
<th>Proposed destinations</th>
</tr>
</thead>
<tbody>
<tr>
<td>WN</td>
<td>17</td>
</tr>
<tr>
<td>VX</td>
<td>5</td>
</tr>
<tr>
<td>DL</td>
<td>5</td>
</tr>
</tbody>
</table>

All 5 of DL’s and 3 of VX’s proposed destinations are covered by WN’s plans.

Note: * Current/planned WN destinations w/out gates ^Includes destinations from Delta’s and Virgin’s proposals that Southwest is already planning to fly with its existing gates

Source: Project team analysis of company proposals and Dio Mii
Based on fleet plans and potential cannibalization at DFW, Southwest would likely drive the most passenger traffic across both DAL & DFW

### Potential DAL passengers per day by aircraft type

<table>
<thead>
<tr>
<th>Aircraft Type</th>
<th>Number of Passengers</th>
<th>Proposed Flights per Day**</th>
<th>System Wide Load Factor***</th>
</tr>
</thead>
<tbody>
<tr>
<td>B737-700/800</td>
<td>2,800</td>
<td>20</td>
<td>80%</td>
</tr>
<tr>
<td>A319/A320</td>
<td>2,288</td>
<td>18</td>
<td>79%</td>
</tr>
<tr>
<td>CRJ-900^ &amp; B717</td>
<td></td>
<td>CRJ-900: 14^^ B717: 6</td>
<td>84%</td>
</tr>
</tbody>
</table>

- **Calculated as (aircraft seats) x (flights/day) x (system-wide load factor); **Max potential assumed to be 11 turns per day based on Southwest performance at MDW; typical efficient gate usage is 7-8 turns per day; ***2012 system wide load factor; ^Some flights may be operated by an E175 with the same number of seats; ^^Based on the assumption that Delta only gets two gates (proposing 16 total for 3 gates)

### Commentary

- Based on intended aircraft and gate usage, Southwest is projected to have the highest passenger throughput for DAL
  - While Southwest claims 737-800s would be deployed, 737-700s are more probable on marginal routes
- Virgin could serve nearly as many DAL pax as Southwest, but at some risk to DFW
  - While Virgin proposes using A320s; we have assumed they would split their service between A319s and A320s as a new entrant
  - As Virgin will be pulling out of DFW, the net impact to the Metroplex could only be 1,200 – 1,300 pax/day
- With smaller aircraft planned, Delta is expected to serve fewer passengers than WN or VX
  - Delta proposes using 16 CRJ-900s; while they suggest a 3rd gate would be necessary, we have capped their total flights at 20, matching Southwest
  - As these services would overlap with existing DFW service, it is likely that a substantial number of pax would be pulled from the existing service

Note: Project team analysis of ADP; company proposals; company seating charts
Historically, Southwest has driven a greater fare differential in Dallas than Virgin; however, it has a mixed track record in other markets.

### Average domestic fares from DAL and DFW (Q3 2012-Q3 2013)

Average fare (dollars)

- **DFW LCC flights**
- **DAL flights**
- **Legacy only**
- **Legacy and LCC competitive**

### Fare differentials from legacy fares in similar markets to DAL/DFW (Q3 2012-Q3 2013)

<table>
<thead>
<tr>
<th>Comparison</th>
<th>Houston (HOU/IAH)</th>
<th>Chicago (MDW/ORD)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Avg. WN fare differential (%)</td>
<td>20</td>
<td>13</td>
</tr>
<tr>
<td>Avg. LCC fare differential (%)</td>
<td>28</td>
<td>28</td>
</tr>
</tbody>
</table>

### Key Observations

- Historically, Virgin has not offered significantly lower fares in Dallas relative to WN or other LCCs.
- Neither Southwest nor Virgin typically offer Dallas fares as low as JetBlue, Frontier, or Sun Country.
- While Southwest has historically offered lower fares in Dallas, Houston, and Chicago, its track-record is mixed – fares have actually increased ~23% in ATL (vs. 4% nationally) since Southwest took over AirTran.

Note:

- Only nonstop destinations from DAL with passengers per day greater than 50 passengers per day; NK was not included in this analysis, as they appear to have minimal impact on other carrier's fares; "DAL flights" are all non-stop flights from DAL; "Legacy and LCC competitive" are routes with both Legacy and LCC presence.

Source: Airlines and Aviation: Dallas Business Telegram, Project team analysis of Dio Mii.
Southwest is the most attractive option for the City of Dallas, given both expectations for its O&D pax throughput and potential for low fares

**Objectives (% weighting)**

1. **Increase non-stop destinations from DAL**
   - **Southwest**: 5
   - **Virgin America**: 4
   - **Delta**: 3
   - **Rationale**: Southwest is proposing 17 new nonstop destinations vs. 5 (DL) and 5 (VX)

2. **Maximize O&D pax throughput across DAL & DFW**
   - **Southwest**: 6
   - **Virgin America**: 4
   - **Delta**: 3
   - **Rationale**: While both Southwest and Virgin would serve substantial passengers, Virgin would be removing flights from DFW

3. **Lower fares from DAL**
   - **Southwest**: 5
   - **Virgin America**: 4
   - **Delta**: 3
   - **Rationale**: Historically, Southwest has driven a greater fare differential in Dallas than Virgin; however it has a mixed track record in other markets

4. **Minimize route overlap with DFW**
   - **Southwest**: 5
   - **Virgin America**: 4
   - **Delta**: 3
   - **Rationale**: ECP and CHS (both WN) are the only proposed new destinations that are not currently served by DFW

5. **Add convenient premium class service at DAL**
   - **Southwest**: 5
   - **Virgin America**: 4
   - **Delta**: 3
   - **Rationale**: With both more flights and more first class seats per aircraft, Delta would provide the greatest increase in premium class service at DAL

6. **Increase number of DAL jobs**
   - **Southwest**: 5
   - **Virgin America**: 4
   - **Delta**: 3
   - **Rationale**: VX or DL would likely create more jobs at DAL due to the added requirements of supporting an incremental carrier

7. **Airline stability and commitment**
   - **Southwest**: 5
   - **Virgin America**: 4
   - **Delta**: 3
   - **Rationale**: Delta’s scale gives it stability although it has left Dallas before, while Southwest is fully committed as the home-town carrier

8. **Add a partner that will contribute to the community**
   - **Southwest**: 5
   - **Virgin America**: 4
   - **Delta**: 3
   - **Rationale**: DL or VX represent a greater opportunity to increase corporate partnership with the community (whereas Southwest is already a strong partner)

**Overall attractiveness**

- **Southwest**: 5
- **Virgin America**: 4
- **Delta**: 3

Streetcar Production – Final Phase

Transportation and Trinity River Project Committee
28 April 2014
Streetcar Vehicle Specifications

- Base Project – two Streetcar vehicles from Brookville Equipment Corporation
- Option up to two additional vehicles
- Double-articulated with low floor center section
- Dual mode – capable of both overhead contact system operation and off-wire operation
- 30 year service life
- FTA Compliant
  - Buy-America
  - ADA
- Compatible with DART Light Rail System Requirements
Vehicle Components

The Vehicles will be provided with the following equipment:

• **Closed Circuit Television** installed
• **Automatic Passenger Counters** installed
• **Fare Collection Equipment** (made ready to accept for future installation)
• **Load Leveling System** for 14 inch platform height installed
• **Automatic Train Protection** (Vehicles made ready to accept for future installation)
• **Communications / Radio Equipment** installed (Consistent with DART requirements)
• **Train Stop System** installed
• **Train to Wayside Communications** installed (consistent with DART requirements)
• **Off-Wire Energy Storage System [“OESS”]** installed
• **Spare Parts**
• **Special Tools**
• **Necessary Test Equipment and Software**
Vehicle Color

Color based upon:

• Future maintenance cost was a major consideration
• Color is compatible with DART Light Rail Transit (“LRT”) vehicles
• The seat fabric is the same as the LRT vehicle seat fabric
• Interior materials ensure ease of maintenance and efficiency
• The Dallas Streetcar System will have specific branding that will distinguish it from the existing transit fleet while maintaining compatibility

SUBJECT

Authorize acquisition, including the exercise of the right of eminent domain, if such becomes necessary, from the City of Irving, of an unimproved tract of land containing approximately 20 acres located on the east bank of the Trinity River near the west termination of Mexicana Drive for the Dallas Floodway Project - Not to exceed $39,700 ($36,700 plus closing costs and title expenses not to exceed $3,000) – Financing: 2006 Bond Funds

BACKGROUND

This item authorizes the acquisition of an unimproved tract of land containing approximately 20 acres from the City of Irving. This property is located on the east bank of the Trinity River near the west termination of Mexicana Drive and will be used for the Dallas Floodway Project. The consideration is based upon an independent appraisal.

PRIOR ACTION/REVIEW (COUNCIL, BOARDS, COMMISSIONS)

This item has no prior action.

FISCAL INFORMATION

A RESOLUTION DETERMINING UPON THE NECESSITY OF ACQUIRING REAL PROPERTY AND AUTHORIZING ITS APPROPRIATION AND/OR CONDEMNATION FOR PUBLIC USE.

DEFINITIONS: For the purposes of this resolution, the following definitions of terms shall apply:

"CITY": The City of Dallas.

"PROPERTY": Approximately 20 acres of property located in Dallas County, and being the same property more particularly described in "Exhibit A", attached hereto and made a part hereof for all purposes.

"PROJECT": Dallas Floodway

"USE": The use and maintenance of the Dallas Levee together with such appurtenant facilities as may be necessarily provided.

"PROPERTY INTEREST": Fee Simple

"OWNER": City of Irving, provided, however, that the term "OWNER" as used in this resolution means all persons having an ownership interest, regardless of whether those persons are actually named herein.

"OFFER AMOUNT": $36,700.00

"CLOSING COSTS AND TITLE EXPENSES ": Not to exceed $3,000.00

"AUTHORIZED AMOUNT": $39,700.00

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DALLAS:

SECTION 1. That the USE of the PROPERTY for the PROJECT is a public use.

SECTION 2. That public necessity requires that the CITY acquire the PROPERTY INTEREST in the PROPERTY for the PROJECT.

SECTION 3. That for the purpose of acquiring the PROPERTY INTEREST in the PROPERTY, the Assistant Director of the Sustainable Development and Construction Department, Real Estate Division, or such person as he/she may designate, is hereby authorized and directed to offer the OFFER AMOUNT as payment for the PROPERTY INTEREST in the PROPERTY.
SECTION 4. That in the event the OWNER accepts the OFFER AMOUNT, the City Controller is authorized and directed to draw a warrant in favor of the OWNER, or the then current owner of record, or the title company closing the transaction described herein in the OFFER AMOUNT payable out of the Flood Protection and Storm Drainage Facilities Fund: Fund No. BT23, Department TWM, Unit P646, Activity TRPP, Program No. TW06P646, Object 4210, Encumbrance No. CT-TWM06P646F1. CLOSING COSTS AND TITLE EXPENSES payable out of the Flood Protection and Storm Drainage Facilities Fund: Fund No. BT23, Department TWM, Unit P646, Activity TRPP, Program No. TW06P646, Object 4230, Encumbrance No. CT-TWM06P646F2. The OFFER AMOUNT, CLOSING COSTS and TITLE EXPENSES together shall not exceed the AUTHORIZED AMOUNT.

SECTION 5. That the CITY is to have possession of the PROPERTY at closing; and the CITY will pay any title expenses and closing costs. In the event of condemnation, the CITY will pay court costs as may be assessed by the Special Commissioners or the court. Further, that litigation expenses determined by the City Attorney to be necessary are authorized for payment. All costs and expenses described in this section shall be paid from the previously described funds.

SECTION 6. That if the OWNER refuses to accept the OFFER AMOUNT, the CITY will appropriate the PROPERTY INTEREST in the PROPERTY for the PROJECT under the laws of eminent domain and the provisions of the Charter of the City of Dallas. In such case, the City Attorney is authorized and requested to file the necessary suit(s) and take the necessary action for the prompt acquisition of the PROPERTY INTEREST in the PROPERTY by condemnation or in any manner provided by law.

SECTION 7. That in the event it is subsequently determined that additional persons other than those named herein have an interest in the PROPERTY, the City Attorney is authorized and directed to join said parties as defendants in said condemnation suit(s).

SECTION 8. That to the extent the PROPERTY is being purchased wholly or partly with bond proceeds CITY has obtained an independent appraisal of the PROPERTY’S market value.

SECTION 9. That OWNER has been provided with a copy of the Landowner’s Bill of Rights as required by Texas Property Code Section 21.0112.
SECTION 10. That in the event the City Attorney files a condemnation proceeding because the OWNER refused to accept the OFFER AMOUNT; and in the event the special commissioners appointed by the Court return an award that is the same amount or less than the OFFER AMOUNT, the City Attorney is hereby authorized to settle the condemnation proceeding, or if the condemnation proceeding becomes a lawsuit, the lawsuit for the amount awarded by the special commissioners; and the City Controller is hereby authorized to issue a check drawn on the previously described funds in an amount not to exceed the special commissioners' award made payable to the County Clerk of Dallas County, to be deposited into the registry of the Court, to enable the CITY to take possession of the PROPERTY without further action of the Dallas City Council; and the City Controller is hereby authorized to issue a check drawn on the previously described funds in an amount not to exceed $3,000.00 for Closing Costs and Title Expenses in favor of the title company closing the transaction described herein. The Award, CLOSING COSTS AND TITLE EXPENSES together shall not exceed the AUTHORIZED AMOUNT.

SECTION 11. That this resolution shall take effect immediately from and after its passage in accordance with the provisions of the Charter of the City of Dallas, and it is accordingly so resolved.
