“Dallas-Together, we do it better”
Streetcar Production – Final Phase

Transportation and Trinity River Project Committee
14 April 2014
Streetcar Vehicle Specifications

- Base Project – two Streetcar vehicles from Brookville Equipment Corporation
- Option up to two additional vehicles
- Double-articulated with low floor center section
- Dual mode – capable of both overhead contact system operation and off-wire operation
- 30 year service life
- FTA Compliant
  - Buy-America
  - ADA
- Compatible with DART Light Rail System Requirements
Vehicle Color

Color based upon:

• Future maintenance cost was a major consideration
• Color is compatible with DART Light Rail Transit (LRT) vehicles
• The seat fabric is the same as the LRT vehicle seat fabric
• Interior materials ensure ease of maintenance and efficiency
• The Dallas Streetcar System will have specific branding that will distinguish it from the existing transit fleet while maintaining compatibility
Vehicle Components

The Vehicles will be provided with the following equipment:

- **Closed Circuit Television** installed
- **Automatic Passenger Counters** installed
- **Fare Collection Equipment** (made ready to accept for future installation)
- **Load Leveling System** for 14 inch platform height installed
- **Automatic Train Protection** (Vehicles made ready to accept for future installation)
- **Communications / Radio Equipment** installed (Consistent with DART requirements)
